PART I.

Proceedings of the Government of His Highness the Maharaja of Mysore, Land Revenue, dated 21st March 1908.

READ AGAIN—

Para 7 of Government Order No. R. 3432-41—G. F. 134-06-6, dated the 2nd December 1907, laying down rules in the matter of the inspection of District Treasuries by the Revenue Commissioner and the Deputy Commissioners, and requesting the Revenue Commissioner to submit two sets of questions, one to be used by the former and the other by the latter.

READ—

Letter No. 8420, dated the 3rd—10th February 1908, from the Revenue Commissioner in Mysore, submitting for the orders of Government copy of letter No. 3661—1149, dated the 13th January 1908, from the Comptroller to Government, regarding the forms of questions to be used by the Deputy Commissioners of Districts and the Revenue Commissioner in their inspection of District Treasuries.

No. R. 6102-11—L. R. 401-07-2, DATED BANGALORE, 21st MARCH 1908.

ORDER THEREON.—In the letter read above the Revenue Commissioner states that it is not necessary to frame any questions for being answered by him each time that a treasury is inspected by him. The Comptroller thinks that as the object of the Revenue Commissioner's inspection is to effect an improvement in the administration of treasuries, it should be left entirely to his discretion to conduct his inspections in any manner he deems fit; and that the submission to him of the inspection reports of the Deputy Commissioners and the communication to him of the irregularities detected in the course of audit in the Comptroller's office will enable him readily to know what defects and drawbacks in each treasury require to be remedied. Government agree in the above view.

2. As regards the form of questions to be prescribed for the use of the Deputy Commissioners during their inspection of treasuries, the Revenue Commissioner submits a copy of the form now in use which deals with all the matters to which Deputy Commissioners are required to pay their attention and which embodies also the main points specified in note 2 to Article 340 of the Civil Account Code. Government direct that this form may continue to be adopted by Deputy Commissioners in the submission of their inspection reports to the Revenue Commissioner.

Proceedings of the Government of His Highness the Maharaja of Mysore, Land Revenue, dated 27th March 1908.

READ—

Correspondence ending with letter No. 9186, dated the 25th February 1908, from the Revenue Commissioner in Mysore, stating that in 1897 a Junardar of the Mysore Taluk, who was entrusted with the service of a notice of demand on a revenue defaulter, collected certain amount and misappropriated it, that he was convicted under Section 409 of the Penal Code, but that the case having come to his notice in 1907, in connection with the remission of the kandayam due by the defaulter, the misappropriated amount was remitted by him, as the Junardar possessed no property to be proceeded against for its recovery; and suggesting that to prevent payments being made to irresponsible officials as in the case referred to, the form of the demand notice may be amended by the insertion of the words "to the Taluk Treasury" between the words "paid" and "within ten days."

No. R. 6290-8—L. R. 200-07-4, DATED BANGALORE, 27TH MARCH 1908.

ORDER THEREON.—Government observe that the Revenue Rules do not authorize payment of kandayam to the person who serves the demand notice. On the other hand, it is clearly laid down in Rule 91 that it should, as a rule, be paid to the village patel and that it may also be paid into the Taluk or District Treasury. But the form of demand notice (Appendix I) prescribed by Rule 95, while fixing the period within which the kandayam should be paid, does not indicate the person to whom the payment should be made. To make it clear that kandayam should not be paid to the person serving the demand notice, if he is other than the one authorized to collect the revenue, Government direct that the words "to the village patel or into the Taluk or District Treasury as provided in Rule 91" be inserted between the words "paid" and "within ten days" in the form of demand notice referred to.

Correspondence ending with letter No. 8761, dated 15th February 1908, from the Revenue Commissioner in Mysore, submitting for approval a revised form to be adopted for the monthly season report prescribed by Section 15 of the Mysore Famine Code, 1906.

No. R. 6258-66—AGRI. 159-06-9, DATED BANGALORE, 26TH MARCH 1908.

ORDER THEREON.—The revised form submitted by the Revenue Commissioner gives, in addition to the information contained in the monthly season reports hitherto being submitted by the Deputy Commissioners, a brief resume of the weekly season reports of the month and also information regarding the prices of the four principal food grains, *viz.*, Rice, Ragi, Kadale and Kulthi, during the month.

Government are pleased to sanction the adoption of the above form for the monthly season report to be published in the *Mysore Gazette* as required by the Famine Code. It will be divided into two sections as in the accompanying form.

The Revenue Commissioner will arrange for the publication of these monthly reports during the 2nd week of the month following that to which the report relates.

1. Government Order No. 8883-4—Agri. 119-06-6, dated 28th March 1907, sanctioning an annual grant of Rs. 500, for the purchase of seed grains and agricultural implements by the Revenue Commissioner and requesting him to submit a report at the end of the year as to the manner in which the funds were utilized and the extent to which the local industries were benefited thereby.

2. Letter No. 9463, dated 4th March 1908, from the Revenue Commissioner in Mysore, submitting a report regarding the purchase of agricultural implements and seed grains.

"With reference to your letter No. R. 4533—Agri. 81-07-1, dated 22nd January 1908, inviting my attention to the marginally noted orders of Government and requesting that necessary action may be taken in the matter of experimental Farms and agricultural implements, I have the honor to state as follows:—

Government Order No. 8071-80—Agri. 119-06-3, dated 6th March 1907.
" " No. 8883-4—Agri 119-06-6, dated 28th March 1907.
" " No. 10063—Agri 146-06-8, dated 22nd May 1907.

(2) In Government Order No. 8071-80—Agri. 119-06-3, dated 6th March 1907, sanction was accorded to the purchase of one winnower, two corn shellers, and one fodder cutter, at a total cost of Rs. 300. Of these a fodder cutter and a winnower have been purchased. Both were exhibited at the Dasara Industrial and Agricultural Exhibition of 1907 and Mr. H. Nanjundaraj Urs, Superintendent, Amrut Mahal Department, has purchased the fodder cutter as he found it useful. The winnower is left with the Agricultural Inspector attached to Mysore Normal School Agricultural Farm for purposes of demonstration. In the place of the fodder cutter sold, another has been purchased from the Director of Agriculture, Nagapur, and this has been given to Messrs. Narasimhan Brothers, Bangalore, dealers in agricultural implements, for being demonstrated in the market for the information of the people.

(3) In Government Order No. 8883-4—Agri. 119-06-6, dated 28th March 1907, the Government sanctioned a sum of Rs. 250 for the year 1906 07 for the purchase of seed grains and implements; of this sum, only Rs. 70 and annas 5 were spent in sending for the implements and seed grains noted in the margin. One of the chaff cutters has been given for trial to Tirupaliana Venkatappa of Shimoga and the other to Mr. T. K. Sundararajiengar, Assistant Commissioner, Mysore. The hand hoe and the plough are left in the Normal School Farm, Mysore, for purposes of trial and demonstration. The seed grains have all been distributed among land-holders and their reports on the results of the experiment are awaited.

Name of implements	Amount Rs. a. p.
1 Plant junior hand hoe 2. One Rajeswar plough	31 4 0
3. Two chaff cutters	24 12 0
SEED GRAINS.	
1. Chali Dhan ...	3 11 0
2. 100 sugar-cane cuttings	4 5 0
3. Fine Aus Paddy ..	6 5 0
Total ...	70 5 0

(4) In the year 1907-08 a sum of Rs. 500 was sanctioned for the purchase of seed grains and implements; out of this grant a hand loom which had come from Salem for the Exhibition has been purchased for Rs. 102-10-0 and has been given over to Mr. Vasudeviah, a leading weaver of Mysore for being worked by him. Forty-six maunds of turmeric seeds were obtained from Nandyal and distributed among Mr. M. Krishniengar, Bogadi Farm, Mysore and the raiyats under the orders of the Deputy Commissioner, Mysore. Some samples of Bani cotton seeds were sent for and sent to the Deputy Commissioners of Mysore and Chitaldrug Districts for distribution to the leading cotton growers. A sum of Rs. 100 was paid for Abyssinian Coffee seeds (*vide* Government Order No R. 2450—Agri. 29-07-2, dated 5th October 1907). I have called for lists of seed grains from all Deputy Commissioners required for experimental purposes and I intend before the close of the year 1907-08 to fully utilize the sum of Rs. 235 yet remaining in this grant of Rs. 500 in the purchase of seed grains and implements.

(5) Regarding Government Order No. 10063-5—Agri. 146-06-8, dated 22nd May 1907, the implements sanctioned therein were purchased by the Agricultural Chemist and some of them were exhibited during the Exhibition.

(6) I may add that in addition to the seeds mentioned in the foregoing paragraphs, I explained to the people and Deputy Commissioners of some of the districts the desirability of trying a kind of quick-growing paddy called Aravathankuruve and got several bags of seeds at the cost of the cultivators themselves and made arrangements for the transmission of the paddy seeds from Trichinopoly direct to those who had agreed to cultivate it. Seeds of Banku Paddy obtained from Mr. Chidambaram Mudaliar, Shiyalli, were also distributed. I am awaiting the reports from districts on the results of these experiments.

(7) Consolidated statements showing the number of implements purchased and how they have been disposed of and the seed grains sent for and distributed are herewith submitted.

(8) With the starting of Agricultural Associations in Mysore, Chitaldrug and Kadur and every probability of three more District Associations being started before June 1908, I think there is scope for carefully investing more money in the purchase of implements and seed grains from the year 1908-09 and therefore this grant may be increased from Rs. 500 to Rs. 1,000 from the next year.

Revenue (Agriculture), dated 26th March 1908.

(9) Regarding the development of work in the allied branches of encouraging Agricultural Associations and giving a training to raiyats in improved methods, I have addressed the Government separately."

No. R. 6269—AGRI. 81-07-3, DATED BANGALORE, 26TH MARCH 1908.

ORDER THEREON.—Recorded with the observation that Government approve of the budget provision being raised to rupees one thousand from the year 1908-09.

Proceedings of the Government of His Highness the Maharaja of Mysore, Revenue (Agriculture), dated 26th March 1908.

READ—

Correspondence ending with letter No. 9421, dated the 29th February 1908, from the Revenue Commissioner in Mysore, submitting the manuscript of the revised edition of "Pasu Vaidya Sangraha" by Mr. Narasimha Iyengar, Inspector of Cattle Diseases in Mysore, and pointing out the source from which the sum of Rs. 500 being the cost of purchasing the copyright of the book may be met.

No. R. 6254-7—AGRI. 140-05-29, DATED BANGALORE, 26TH MARCH 1908.

ORDER THEREON.—The Senior Surgeon and the Inspector-General of Education in Mysore, who were consulted in the matter are of opinion that this revised edition is in many important respects superior to the first edition published in 1895 and that it will serve as a useful elementary text book on Veterinary Science in the kannada, likely to be of use to the Agricultural classes as it explains in clear and simple language the more common diseases to which cattle are liable and their treatment and certain sanitary principles to be observed to prevent diseases among them. The Government are therefore pleased to purchase the copyright of the book for Rs. 500, so that the book may be republished in a form in which it may be easily available to the people. The amount to be so paid will be met out of the savings in the lump provision of Rs. 9,600 and made in the current year's budget for the "improvements in the Veterinary Departments."

The Revenue Commissioner is requested to make arrangements to get 2,000 copies of the book printed. The book will be sold after it is published at the price of eight annas so as to place it within the reach of the agricultural classes.

Proceedings of the Government of His Highness the Maharaja of Mysore, Forest, dated 21st March 1908.

READ—

Letter No. 7788, dated the 22nd January 1908, from the Revenue Commissioner in Mysore, submitting the explanation of the Amildar of the Shikarpur Taluk as to his failure to report immediately on the occurrence of fire in the Salur village, and soliciting sanction for certain proposals in the matter of reporting to Government cases of accidental fires.

No. R. 6122-31—Ft. 16-06-12, DATED BANGALORE, 21ST MARCH 1908.

ORDER THEREON.—The explanation of the Amildar of the Shikarpur Taluk that, as he had personally brought the fact of occurrence of the fire to the notice of the Assistant Commissioner of the late Honnali Division, he thought it unnecessary to submit a report in the matter, is very unsatisfactory.

2. As regards the question of reporting cases of accidental fires, the Deputy Commissioner of the Shimoga District suggests that only those cases need be reported in which there has been loss either of human beings or of cattle or property valued at more than Rs. 3,000. The Revenue Commissioner considers this limit too high and proposes to fix it at Rs. 500. Government are of opinion that it is not necessary to report to them cases of accidental fires except those of a serious nature. They are accordingly pleased to direct that all cases of accidental fire in which there has been loss of human life, or cattle or property valued at Rs. 500 or more, should be reported to Government.

READ—

Government Proceedings No. R. 7881-91—Ft. 100-06-2, dated the 1st March 1907, setting aside the Mysore Deputy Commissioner's Order, cancelling the settlement of the Bheemanbid Sandal Reserve in the Gundlupet Taluk and requesting the Forest Settlement Officer to submit the settlement papers and the final draft notification.

2. Read also the following papers :—

(1) Letter No. 238, dated the 9th April 1907, from the Forest Settlement Officer in Mysore.

"I have the honor to submit a report on the conclusion of the settlement of the Bheemanbid Sandal Reserve in the Gundlupet Taluk of the Mysore District, as made by the late Mr. Ananda Rao.

2. The Government Notification under Section 4 of the Mysore Forest Regulation, proposing the area for reservation, appeared on pages 74-75 of the *Mysore Gazette* (Part I, English), dated the 4th February 1904, and the date on which proclamation under Section 5 of the said Regulation was issued, is not forthcoming in the records.

3. The locality was inspected and perambulated by Mr. Ananda Rao on the 2nd and 3rd May 1905, and the following claims of the villagers were also heard and recorded by him :—

(1) Three claims to rights of way.

(2) Two claims to rights of free grazing.

(3) One claim to right of water, and

(4) Two claims to rights not falling under any one of the above.

4. All the claims in (1) were admitted. Of the two claims in (2) one was admitted and the other was rejected. The claim in (3) was allowed and those in (4) were disposed of by excluding the portions of lands prayed for.

5. The appeal period expired on the 4th August 1905. The Deputy Commissioner, Mr. H. H. Sparkes, disallowed the settlement made by the late Mr. Ananda Rao, on an appeal presented to him by the Kannagala raiyats. The Government were subsequently pleased to set aside the orders of the Deputy Commissioner. (*Vide* Government Order No. R. 7881—Ft. 100-06-2, dated the 1st March 1907).

6. The following records are herewith submitted :—

1. B. Register of claims,
2. C. Register of lands taken in,
3. Boundary Notification under Section 17 of the Forest Regulation,
4. A sketch map, and
5. A tracing of the topo-sheet.

7. The date from which the reservation of the block has to take effect, may be inserted in the accompanying boundary notification."

(2) Letter No. 10435, dated the 23rd June 1907, from the Conservator of Forests in Mysore, to the Revenue Commissioner in Mysore, furnishing his opinion on the settlement.

(3) Letter No. 2149, dated the 10th August 1907, from the Revenue Commissioner in Mysore, submitting his remarks on the settlement.

(4) Registers B and C.

Forest, dated 25th March 1908.

Proceedings of the Government of His Highness the Maharaja of Mysore,

No. R. 6195-9—Ft. 100-06-6, dated Bangalore, the 25th March 1908.

Order thereon.—The Revenue Commissioner states that it is not clear from the records whether a proclamation under Section 5 of the Forest Regulation, was issued in this case or not and that any omission in this respect will render the settlement illegal. The preliminary notification under Section 4 was published in January 1904, appointing Mr. C. Venkata Rao, as Settlement Officer. Subsequently, that is in September 1904, Mr. A. Ananda Rao, Extra Assistant Commissioner, was appointed Forest Settlement Officer respect of this as well as all the blocks then pending settlement. The block in question was settled by him in 1905. The raiyats appealed against the settlement to the Deputy Commissioner of Mysore who cancelled the entire settlement. The matter having been reported to Government, it was decided that the settlement should be up-held. Under the circumstances and in view of the fact that the raiyats had due notice of the settlement as is evidenced by their appeal to the Deputy Commissioner, Government consider that the settlement may be held to have been effected with all due formality.

2. The Revenue Commissioner states that no damage has been apparently caused to sandal trees in the tract and that their growth is not likely to be affected by allowing grazing in the tract hereafter. He suggests that the Bheemanbid villagers may be allowed the concession of grazing their cattle in the block as in the case of Kannagal villagers and that this would settle all complaints against the reservation. Government agree with him in the suggestion.

3. With the above modification, the settlement made by the Forest Settlement Officer is approved. A notification as hereunder will be published in the *Mysore Gazette* under Section 17 of the Mysore Forest Regulation, the 15th of April 1908, being entered as the date from which the block shall be declared a State Forest.

4. The Deputy Commissioner of the Mysore District is requested to promulgate the boundaries of the forest in the localities in which it is situated.

5. The appropriation of 267 acres of kharab and 646 acres of gomal land for forest purposes is sanctioned.

Notification No. R. 6200—Ft. 100-06-7, dated 25th March 1908.

The Government of His Highness the Maharaja of Mysore are pleased to declare, under the provisions of Section 17 of the Mysore Forest Regulation, (XI of 1900) that, from the 15th April 1908, the area, the boundaries of which are set forth in the Schedule annexed to this Notification, shall be deemed to be a "State Forest" subject to the exercise of rights specified at foot thereof:—

SCHEDULE.

District	Taluk	Approximate area	Name of block	Boundaries
Mysore	Gundlupet	1·42 square miles	Bheemanbid	*North.*—Starting from ⊙ 4 (the tri-junction bandhs of Survey Nos. 78 of Hongahalli, 87 and 11 of Chennamallipura), the line goes east along the south side of Survey No. 78 of Hongahalli to ⊙ 3, (the tri-junction of Hongahalli, Masahalli and Chennamallipura); then north-east across Survey No. 115 of Masahalli for a distance of about 90 chains to ⊙ 2, in the east side of Survey No. 115, about 7 chains south from the south-east corner of Survey No. 11; then north-east across Survey

Forest, dated 25th March 1908.

No. 33, for a distance of about 24¼ chains to ⊙ 1 (south-east corner of Survey No. 14 Katte); then along its east side to its north-east corner; then north-east across Survey No. 33 for a distance of about 68 chains to the tri-junction of Masahalli, Mukahalli and Bheemanbid.

East.—Thence south across Survey No. 210 of Bheemanbid for a distance of about 47 chains to the north-west corner of Survey No. 392; then along its west side to its south-west corner; then south across Survey No. 210 for a distance of about 22 chains to ⊙ 9; then due south-west across the same number for a distance of about 27 chains to ⊙ 8, in the southern boundary of that number about 17 chains west from the south-west corner of Survey No. 391.

South.—Thence south-west across Survey No. 334 of Kannagala for a distance of about 107 chains to ⊙ 7, in the eastern boundary of Survey No. 239 of Berambadi about 6½ chains south from the tri-junction of Masahalli, Berambadi and Kannagala; then west across Survey No. 239 of Berambadi for a distance of about 38 chains to ⊙ 6 in the eastern boundary of Survey No. 11 of Chennamallipura about 20 chains east from the north-west corner of Survey No. 240 of Bherambadi; then across Survey No. 11 of Chennamallipura for a distance of about 70 chains to ⊙ 5, in the eastern boundary of Survey No. 87, about 5 chains north from the north-west corner of Survey No. 12.

West.—Thence north along the eastern boundary of Survey No. 87, to the starting point.

Remarks.—The following public rights of way are allowed within the block, for men, cattle and carts all the year round.

(1) *Cart-track.*—Twelve feet wide, from Bheemanbid to Masahalli. This enters the forest in the western boundary of Survey No. 392 of Bheemanbid about 3 chains south from its north-west corner and goes west across Survey No. 210 of Bheemanbid, for a distance of about 32 chains and south-west across Survey No. 33 of Masahalli for a distance of about 10 chains and west across the same number for a distance of about 15 chains and leaves the forest at the north-east corner of Survey No. 14 (Katte).

(2) *Cart-track.*—Twelve feet wide, from Kannagala to Masahalli. This enters the forest at a point in its southern boundry about 27 chains east from ⊙ 7 and goes north-west across Survey No. 333 of Kannagala for a distance of about 18 chains and north across Survey No. 115 of Masahalli for a distance of about 25 chains and leaves the forest in its northern boundary in Survey No. 115 about 20 chains west from ⊙ 2.

(3) *Cart-track.*—Twelve feet wide, from Kannagala to Hongahalli. This branches from track number (2) at a point about 5 chains from the point of its entrance and goes west across Survey Nos. 333 of Kannagala, 239 of Berambadi, 11 of Chennamallipura and 115 of Masahalli, for a distance of about 80 chains and leaves the forest in the south-eastern corner of Survey No. 78 of Hongahalli (⊙ 3.)

(4) *Cattle-track.*—From cart-track No. (2) *supra* to the Haddinkatte in Survey No. 115 of Masahalli. This branches off the track No. (2) *supra* at a point about 18 chains from the point of its entrance into the forest and goes west to the Katte, the length being 5 chains.

B. *The following concessions are admitted within the block.*

(1) Free grazing for 1,216 cattle (excluding goats) of Kannagala village from June to the end of August in every year is admitted within the forest.

(2) Free grazing for 1,274 cattle (excluding goats) of Bheemanbid village from June to the end of August in every year is admitted within the forest.

Proceedings of the Government of His Highness the Maharaja of Mysore,

READ—

Petition from the raiyats of Dhangur, Halsahalli and other villages of the Malvalli Taluk, praying that certain lands proposed to be included in the Dhangur State Forest, may not be so included as they are being used for grazing the village cattle and for the supply of fuel, etc., for home consumption.

2. Letter No. 4,968, dated the 9—12th November 1907, from the Revenue Commissioner in Mysore, forwarding with his remarks the report of the Forest Settlement Officer on the settlement of the Dhangur State Forest in the Mysore District.

3. Notes dated the 25th November 1907 and 13th December 1907 by Conservator of Forests in Mysore recording his opinion on the above.

No. R. 6359-61—Ft. 95-07-4, DATED BANGALORE, 31ST MARCH 1908.

ORDER THEREON.—In the first of the papers read above, the raiyats of Dhangur Halsahalli and some other villages bring to the notice of Government that if the reservation of the Dhangur State Forest is sanctioned the extent of gomal that will remain to them for grazing purposes will be too little when compared to the number of cattle in the village, and they therefore pray that certain lands on which they have been till now enjoying grazing and other rights may not be included in the forest.

2. In forwarding the Settlement Officer's report, the Revenue Commissioner states that the gomal lands allowed for the villages of Dhangur and Halsahalli are insufficient for the requirements of the raiyats and that their claims deserve favorable consideration.

3. The Conservator of Forests states that as regards Halsahalli, a considerable extent of gomal could be made available to the raiyats by excluding from the forest the portion to the north of the Electric Power Transmission line, but as regards Dhangur he states that it is impossible to exclude any land without disfiguring the block. As, however, the raiyats of both these villages are cattle breeders, he proposes to allow 500 head of cattle into the forest at three-fourths the prescribed rates of fees, *viz.*, at three annas for cows and oxen and six annas for buffaloes.

4. From the papers it is seen that the extent of gomal land which will be available for the raiyats of these two villages after the reservation is wholly inadequate. The fact of these raiyats being cattle breeders need not affect the extent of the gomal land to be assigned to them. Cattle breeding is an industry that deserves encouragement and where the bulk of the people are agricultural it will not be possible to discriminate between cattle maintained for breeding and those maintained for agricultural purposes. A certain amount of free grazing is therefore very necessary.

5. Dhangur has an occupied area of 1,403 acres and 1,201 acres of gomal, of which it is proposed to take up 88 and 1,032 acres respectively for the forest, leaving 1,315 acres of occupied and 169 acres of gomal lands. There are also about 81 acres of kharab available but this extent appears to be in small scattered patches and it is not known if the lands are fit for grazing. Even including this area a total extent of only 250 acres of gomal is inadequate provision for 572 head of cattle, reported to exist in the village. The Conservator of Forests states that it is not possible to exclude any land from the forest without disfiguring the block. But from a perusal of the map of the forest, Government are of opinion that by altering the boundary line of the forest so as to follow the Hullabhalla from where it intersects the electric line up to where a small rivulet flows into it, thence to the trijunction of survey numbers 276, 277 and 299 and thence to where the Dhangur village boundary cuts the wire line, not only would a block of about 100 acres be available for assignment as gomal, but that the boundary of the forest would actually be more regular than it is at present.

6. As regards Halsahalli, it is observed that it contains 848 acres of occupied and 181 acres of gomal, out of which it is proposed to take up 115 acres of gomal for

Forest, dated 31st March 1908.

the forest, leaving 66 acres for the village. Halsahalli is reported to contain 543 head of cattle. Even if the 59½ acres of kharab available for assignment as gomal is included, the cattle will be but insufficiently provided for. The Conservator proposes to exclude from the forest the area to the north of the electric line. Government approve of the proposal and direct that the block of about 475 acres that will thus be set free be assigned as gomal to meet the requirements of the raiyats of Halsahalli.

7. The reservation of the Dhangur State Forest is approved with the modifications made above. The settlement papers will be returned to the Forest Settlement Officer for necessary alterations in accordance with the observations of Government.

READ—

Letter No. 8583, dated the 29th April 1907, from the Conservator of Forests in Mysore, submitting for approval, a list showing in detail the appropriate classification of the various items of revenue and expenditure in the Forest Department, and stating that the issue of the list has been found necessary owing to the diversity of practice obtaining in the classification of forest revenue and expenditure.

2. Letter No. 3920, dated the 2nd November 1907, from the same officer, submitting further information in respect of the same.

3. Notes dated the 29th July and 18th November 1907, by the Comptroller, recording his views on the above.

No. R. 6375-7—Ft. 195-06-4, DATED BANGALORE, 31ST MARCH 1908.

ORDER THEREON.—In the first of the letters above read, the Conservator states that no separate budget head having been prescribed for "Refunds of Revenue" it is being shown at the top of "A. Conservancy and works," and proposes to provide a separate sub-head for it. In a later letter, however, he admits that there is no necessity for any such separate provision, if Articles 77 and 94 of the Mysore Forest Code are modified in accordance with Articles 123 and 141 of the Government of India Forest Code and the Comptroller concurs with him. Government are prepared to approve of the proposal to modify Articles 77 and 94 of the Mysore Forest Code. The Conservator is requested to submit for sanction the necessary draft of amendment.

2. The Conservator is also of opinion that the commission on sale proceeds of Inam and Jahgir—that is to say alienated—sandalwood which is collected, prepared and sold on behalf of the Inamdar and Jahgirdar—that is to say—the alienee, should be classified under I (*d*) and not under IV (*c*) as such sandal is altogether collected and disposed of by Government and as the latter head applies only to revenue that cannot be correctly classified under heads I to III. The Comptroller, however, points out that such proceeds cannot be classified as forest revenue inasmuch as Government gives to the parties entitled the sale proceeds of such sandal after deducting the actual expenses and commission and it should, therefore, be brought under IV(*c*). Government are inclined to agree with the views of the Comptroller and direct that the item be continued to be shown under IV(*c*) as hitherto-fore.

3. The Comptroller having pointed out the omission of a provision for the revenue derived from Roppas—temporary enclosures formed in the forests for the safety of grazing cattle—the Conservator has subsequently inserted it under R IV(*c*) (*ii*) special as it is a revenue for the occupancy of Government land.

4. Government approve also of the Conservator's proposal to open separate heads for hire of elephants and other incidental revenue in connection therewith.

5. The Comptroller agrees to the other proposals of the Conservator and they are accordingly accepted by Government.

6. The list as modified above and printed here below will be issued as Appendix VII to the Mysore Forest Department Code and 500 copies supplied to the Conservator for distribution.

Proceedings of the Government of His Highness the Maharaja of Mysore,

READ—

1. Memo dated the 29th December 1907, by the Deputy Commissioner of the Chitaldrug District, containing his proposals to shift the site of the present town of Hiriyur to a place near the Taluk Cutcherry owing to the extreme unhealthiness of the present town, by providing quarters for the officials and water-supply to the new town.

2. D. O., dated 5th February 1908, from the same officer, furnishing additional information in respect of the above subject.

No. R. 5911-3—R. M. 186-07-2, DATED BANGALORE, 13TH MARCH 1908.

ORDER THEREON.—In the memo read above the Deputy Commissioner summarises briefly the main causes that have given rise to the extreme unhealthiness of the present town of Hiriyur which is situated on low swampy ground below the bund of the Krishnambudi tank in a low valley mostly water-logged and amidst black cotton soil which easily absorbs and retains moisture and thereby makes the place extremely damp. As a remedial measure he proposes therefore to shift it to a site close to the Taluk Cutcherry. The site now selected is stated to have been approved by all who were consulted in the matter. It can also be supplied with water at a moderate cost direct from the Marikanave reservoir. In order to induce the people to leave their old insanitary houses and build new ones in the site now selected, the Deputy Commissioner suggests that quarters may first be constructed for the officials, whose health has been greatly affected by their not being able to get suitable houses in the old town and by having to live in extremely unhealthy surroundings. The Deputy Commissioner also points out that the abandonment of the old town will not only tend to promote the general health of the people, the rate of mortality among whom is even higher than in other unhealthy parts of the State, but will also be a source of increased revenue to Government as more than 700 acres of land in the immediate vicinity of the town are not now allowed to be cultivated so that their cultivation may not add to the unhealthiness of the town. When the town is shifted as now proposed there will be no objection to the lands being cultivated and they will yield annually a revenue of Rs. 3,000 which would in a few years re-pay whatever expenditure may be necessary to establish a new town.

The site selected by the Deputy Commissioner for the new town and for the official quarters is Survey No. 149 of Hiriyur (assessed waste) measuring 30 acres and 5 guntas and assessed at Rs. 4-8-0. Out of this extent 7 acres and 5 guntas are stated to be required for the compound of the Taluk Cutcherry, the remaining extent being available for the extension of the town. Survey No. 150 in the holding of one Dindivarada Hussein Sab, which adjoins Survey No. 149 and measures 16 acres, 4 guntas, assessed at Rs. 3-8-0, is also proposed to be acquired for the new extension.

The unhealthiness of Hiriyur has long been noticed by Government and several projects have been under consideration from time to time to remedy it.

In Government Order No. 2787-9—Munl. Fl. 170-06, dated 8th October 1906, the appropriation of Survey No. 65 of Hiriyur, which was originally a camping ground, was sanctioned to form the nucleus of new extension, a part of Survey No. 3 having been constituted a new camping ground. The Deputy Commissioner says that in this survey number buildings such as overseer's lodge, Public Works Department officials' quarters, contractor Krishnappa's house have already been erected and that the new site Survey No. 149 already referred to is 7 furlongs distant from it and is not only best adapted for a new town but also affords good scope for further extension of the town, if necessary.

Government also consider that the site selected by the Deputy Commissioner for the official quarters is well suited for the purpose. Houses may be built for the Taluk officials on the pattern of those built in Kallurkatte. Government approve also of the proposal of the Deputy Commissioner to build houses for the Taluk officials at Government cost and to levy from them small rents. The sites for the

Revenue Miscellaneous, dated 13th March 1908.

towns-people should be marked out at some distance from the proposed official quarters.

The Chief Engineer is requested to have plans and estimates prepared for building houses for the officials and submit them to Government at an early date.

The Deputy Commissioner is requested to send proposals for laying out the new town in consultation with the Executive Engineer showing the main roads, conservancy lanes, proposals for drainage and the size of the sites to be allotted for different classes of houses. The Sanitary Engineer may also be consulted and in establishing the new town every endeavour should be made to satisfy every sanitary requirement and promote the convenience of the people as much as possible. After the necessary plans and estimates are received and the proposals are approved by the Sanitary Board, the source from which the funds required for the purpose should be made available, will be considered.

The acquisition of Survey No. 150 of Hiriyur above referred to is
The necessary declaration statement will be obtained from the Deputy Co
and submitted to Government for publication in the Gazette.

The Revenue Commissioner will sanction the appropriation of Surv
above referred to for building purposes at an early date.

Proceedings of the Government of His Highness the Maharaja of Mysore.

No. R. 6052-90—R. M. 66-07-4, DATED BANGALORE, 20TH MARCH 1908.

ORDER THEREON.—The only source of information regarding manufactures and industries in the State are the annual return of manufactures (Revenue Form No. 63) and the District Administration Reports. The statistics now furnished have in many cases been found to be unreliable and not collected according to any method. The description of industries is not also sufficiently exhaustive. Form No. 63 will therefore be modified so as to adapt it for the purpose and the returns furnished in Forms A & B prescribed in this order.

2. The Deputy Commissioners should send the returns by the end of July of each year to the Revenue Commissioner who will forward a consolidated statement to Government by the 15th of August of each year.

3. In the case of minerals, the Secretary in the Geological Department is requested to furnish a return in Form C by the 15th of August.

4. With regard to other manufactures which are not specified in the accompanying lists and which are of sufficient importance in any tract, the Deputy Commissioner should arrange to get correct information as to the extent of such manufactures, the capital invested and the number of labourers engaged therein and incorporate them in the return. Arrangements should be made to get the information at regular periods directly from the manufacturers themselves as much as possible and the present practice of obtaining it by a few casual enquiries made at the time of compiling the returns, avoided. There should be no difficulty in making the manufacturers themselves supply the necessary information by convincing them of the advantages of keeping regular accounts and furnishing accurate information as to the state of trade, which will be utilized to their benefit in judging of the scope there is for its development.

5. The Heads of other Departments are requested to forward similar annual statements within the period prescribed above regarding the State factories in their charges.

READ—

The following correspondence —

1. Letter No. 3467, dated the 11th November 1907, from the Excise Commissioner in Mysore.

I have the honor to state that there is at present very great delay in the issue of licenses to contractors. One of the reasons urged against the expeditious issue of the necessary licenses is the time taken for the execution of the counterpart agreements by the licensees The delay in the latter case is attributed to the requirement in the counterpart agreement that the properties of the contractor should be specified in the margin. Much time is no doubt taken up in ascertaining the details of the properties of the contractor especially when he happens to be a resident of and owner of properties situated in a taluk other than that in which he purchases the shops

(2) The particular clause in the counterpart agreement runs as follows :—

"and bind myself and my property specified in the margin hereof for the due fulfilment of the terms of the contract."

The existence of such a clause in the agreement serves no purpose as this document bears a stamp of half-a-rupee only and does not create any prior right over the properties so mentioned in the margin. If it is intended to create a right of preference over such properties and prevent the contractors from an attempt at cheating Government by subsequent encumbrances, the present counterpart agreement does not fulfill the object. For such a purpose the provisions of the Registration and Stamp Regulations have to be complied with as regards the form of the document and the Stamp fees Besides a counterpart agreement is essentially an agreement to conform to the tenor and conditions of the license and is not intended to create any right over the properties of the licensees. The last words of the clause are "for the due fulfilment of the terms of the contract," that is, for the observance of the conditions of the license and for the regular payment of the rental but not to hypothecate or mortgage the properties as security for the total amount payable under the contract. Hence this is not the document in which a place should be found for the clause in question. While its existence only gives a ready plea for the inordinate delay in the issue of the licenses, its absence will not in the least deteriorate the intrinsic value of the counterpart agreement. I need not say that the mere mention of the properties in the margin of the counterpart agreement does not prevent their being encumbered by a subsequent registered document. All that is available for Government is the right title and interest left of the owner in the properties after satisfying prior encumbrances This position of the Government is not in the least altered by the non-existence in the agreement of the clause in question Besides the clause itself is indefinite in so far as it does not specify the properties or how much value should be mentioned.

(3) It may be said that the presence of the clause serves a useful purpose inasmuch as the Amildar or other officer before whom the counterpart agreement is executed will be put to the necessity of enquiring the properties owned by the licensee and thus indirectly knowing about the solvency or otherwise of the person. Even here the object is frustrated, for the enquiry is made too late, that is, after the sale confirmation notice is served and the licensee has actually begun to work the shops Enquiries as to the character and solvency of the purchasers should be made, if necessary, before the formal confirmation of each sale and not after Such a provision exists under the present rules, but it is not worked properly and definite instructions will shortly be issued in the matter. If the result of such enquiries is unfavorable, provision also exists to demand a greater amount of deposit or to call upon the licensee to furnish securities.

(4) The general principle of deposit is that ordinarily a deposit of two months' rent will be required of all purchasers, but in the case of foreigners and persons of doubtful solvency double the ordinary deposit or a surety or sureties to execute a security bond for the due payment of all moneys that may become due under the terms of the contract should be taken. The marginally noted condition in the sale notification further protects and safeguards the interests of Government in cases in which such protection and safeguards are deemed necessary by the Deputy Commissioner. The wording of this condition is a little ambiguous as the word "agreement" may mean either the counterpart agreement or any other document. On this and some other defects in the conditions of the present sale notification a separate reference will be made to Government on receipt of orders on my proposal to extend the term of Abkari leases to three years.

The purchaser of the exclusive privilege shall execute an agreement binding himself and, unless exempted by the Deputy Commissioner in order duly recorded, so much of his movable and immovable property as may be deemed sufficient to observe the conditions hereinafter set forth as well as those specified in the license to be issued to him, and his surety, if any, has been accepted under the above para shall also execute a bond in the prescribed form binding himself and so much of his movable and immovable property as may be deemed sufficient by the Deputy Commissioner, for the due fulfilment by the purchaser of the terms of his agreement The agreement and bond so executed shall be stamped at the expense of the purchaser. They shall also be registered at his expense when the amount secured is Rs 100 and above

(5) I may also mention that except in the counterpart agreements executed by the Toddy and Arrack shop-keepers the clause in question is not to be found in any of the counterpart agreements to be executed by any of the other licensees. Such a clause is not inserted in any of the counterpart agreements to be executed by any of the renters in the Madras Presidency. Even in the State, the clause has been reduced to a dead letter in some of the districts where no mention of properties is made in the margin of the counterpart agreement.

(6) In these circumstances I submit that the clause requiring the specification of properties in the margin may be omitted from the form of the prescribed counterpart agreement. It is also desirable that the words "licensed by the Deputy Commissioner" should be changed to "authorized by the Deputy Commissioner."

(7) Another point in the same connection is the printing of the counterpart agreement along with the license itself. The preparation and signing of licenses necessitate their passing from one office to another a number of times. Each time a license is transmitted the counterpart agreement also goes

along with it. The consequence is that when the parties appear before the Amildar for the execution of the counterpart agreements the latter may not be with the officer and when the counterpart agreements are with the Amildar the parties may not appear. This is another cause for the delay in the execution of counterpart agreements and consequently in the delivery of licenses. Besides at present the counterpart agreements are not preserved so carefully as they ought to be for the reason that they go along with the licenses It is, therefore, desirable that the counterpart agreements should be separated from the licenses as is the case in the Madras Presidency and elsewhere.

(8) In effecting this separation another improvement should be made at the same time. As in the Madras Presidency the counterpart agreements should be usually printed on impressed stamp papers of the value of half-a-rupee with blanks for the names of individuals and places. At present no doubt the stamp duty of half-a-rupee is in most cases collected and remitted to the Treasury. But the necessary certificate of adjudication is invariably wanting. All that is found on the counterpart agreement is something as follows under the signature of the Taluk Sheristadar or Nagadi Gumasta: —"The stamp duty of eight annas has been credited to the Treasury under C. No 5, dated 29th September 1907." Such an endorsement does not legalize the document under the Stamp Regulation. The proposed impressed stamp paper will remove this defect besides facilitating the speedy execution of the counterpart agreements and the issue of licenses.

(9) For the necessary stamp papers the indents will be sent to the Superintendent of Stamps and the engagements will be printed in the Government Press. Deputy Commissioners will be requested to see that no more than the actual numbers of the forms required are indented for. Should there be any unexpended balance at the end of the year, the same can be utilized in the following year.

(10) I solicit early orders of Government to the above proposals.

2. Letter No. Fl. 2644, dated 3rd December 1907, to the Excise Commissioner in Mysore.

With reference to your letter No. 3467, dated the 11th November 1907, recommending, for reasons stated, the elimination of the portion relating to the specification of properties in the counterpart agreements executed by licensees, etc., I am directed to request you to be so good as to state whether in accordance with para 5 of the sale notification, any agreements are executed before the issue of licenses and if so whether they are duly stamped and registered in accordance with the provisions of the Stamp and the Registration Regulations.

(2) A copy of the form of the agreement referred to may also be furnished at a very early date.

3. Letter No. 4510, dated the 13th December 1907, from the Excise Commissioner in Mysore.

With reference to your letter No. Fl. 2644—S. R. 115-07-2, dated 3rd instant, calling for additional information in regard to the execution of agreements by Excise licensees, I have the honor to invite reference to para 4 of my letter No. 3467, dated 12th November 1907. The word "agreement" used in para 5 of the sale notification may mean, either the counterpart agreement or a separate engagement. The procedure observed in the several districts is not uniform. In the Mysore District mention is made in many cases of the properties owned by the licensees in the margin of the counterpart agreement but the deed is neither registered nor a stamp duty of more than eight annas is collected. In the case of persons of doubtful solvency necessary mortgage bonds are being executed on a proper stamp paper and registered. The practice appears to be the same in the Chitaldrug District also. In the remaining districts of the State no other agreement except the counterpart agreement is executed by any of the renters. The specification of property in the margin of the counterpart agreement is insisted on to a greater extent in the Shimoga and Hassan Districts, while much attention is not paid to this formality in other Districts. Such agreements are neither registered nor do they bear a stamp duty of more than eight annas. In the Hassan District, in the case of those contractors who are allowed to pay one month's khist and personal security for four months' rent, the surety is required to bind himself and so much of his property as is sufficient to cover four months' khists and separate agreements are taken from the sureties. These agreements bear the proper stamp duty and are registered.

(2) I may also mention that in the Madras Presidency, as a rule, all purchasers will be required to deposit two months' rent. But in the case of persons of doubtful solvency, they are required either to deposit twice the ordinary deposit amount or to get a surety or sureties to execute a security bond for the due payment of all moneys that may become due by him under the terms of the contract. The bond is stamped and registered if the amount secured exceeds Rs. 1,000. It will thus be observed that there is no provision calling upon the licensee to mortgage or mention in the margin of the counterpart agreement any property owned by him.

(3) I am of opinion that the general principle of deposit and the execution of engagements should be as in Madras where the system is found to serve all practical purposes and no arrears have accumulated. But if it is thought otherwise, I have again to reiterate that the counterpart agreement is not the document where a specification of the properties is to be made. Para 5 of the sale notification may be so changed as to make it free from ambiguity and the Deputy Commissioner who is the revenue collecting authority, may be given the discretion whether or not to compel the renter to execute a mortgage deed. As I represented in my previous letter the conditions of the sale notification need revision which will be made.

(4) No form of the agreement except that of the counterpart agreement and the surety bond is prescribed and a copy of the latter is enclosed for reference. I again beg reference to the several reasons urged in my letter and to state that while the existence of the clause in question serves no purpose considered from any point of view, its absence will not in any way lessen the intrinsic value of the counterpart agreement but will fecilitate the speedy and timely issue of the licenses, which is sadly wanting now.

Order thereon.—The Excise Commissioner's proposals made in the letters read above are approved. The counterpart agreement now printed in the form of licenses is primarily intended as evidence of the licensee's knowledge of the terms and conditions of the contract so that, in case of any breach of the conditions, he may not plead any ignorance of the terms. The existence of the terms about binding the property in the counterpart agreements does not amount to any mortgage and is not of any legal value. Where collateral security is necessary, a properly executed document should be obtained as indeed appears to be the practice in certain districts. The counterpart agreement may also be separately printed on stamp paper to facilitate execution and avoid delay.

The sannad alienating the village was not produced and the Inam Settlement conducted in 1875, reserved the abkari revenue to Government. Nor is the claim to the excise revenue supported by long enjoyment. The following letter No. 4200, dated 2nd December 1907, from the Excise Commissioner in Mysore :—

No. 4200, dated Bangalore, 2nd December 1907, from H. H. Sparkes, Esquire, Excise Commissioner in Mysore, to C. S. Balasundaram Iyer, Esquire, B.A., Secretary to the Government of His Highness the Maharaja of Mysore, General & Revenue Departments.

I have the honor to state that transactions relating to the Methylated spirits are regulated in the Mysore State by Act No. XVI of 1863 as applied to Mysore by Regulation, II of 1885, and by Rules framed under Section 2 of the above Regulation and published in Notification No. 12981—R. F. 208-92, dated 27th January 1893. The Act makes provision principally for the levy of the Excise duty payable on spirits used exclusively in Arts and manufactures or in Chemistry. Section 2 gives power to frame Rules for ascertaining and determining that spirits have been rendered unfit for human consumption. But there is no enabling clause in the Act itself to frame Rules for the import, export, transport, sale and possession of Methylated spirits. However, Rule VIII prescribes the quantity that may be passed for sale and Rule XI limits the quantity that may be taken at any one time for private use. It is not known under what authority these two rules have been framed.

2. "Liquor" as defined in section 3 (9) of the Mysore Excise Regulation, V of 1901, includes Methylated spirits and as such the import, export, transport, manufacture, sale and possession of such spirits will have to conform to the provisions of this Regulation also. At present no form of license or permit exists. Several applications have recently been received for the grant of licenses for the sale of Methylated spirits but owing to the non-existence of any definite rules in the matter I have not been able to issue any.

3. In the Civil and Military Station, Bangalore, the Act and rules in force regarding Methylated spirits are the same as those in the Mysore State except that Rules VIII and XI referred to in para 1 *supra* are not to be found. The practice appears to be that no license is necessary and permission for the sale of Methylated spirits is given to any one who asks for the same. Consequently at present a very large quantity of spirits, in fact almost all the quantity manufactured in the Government Central Distillery at Bangalore, is taken to the Civil and Military Station and sold to the merchants who in their turn re-sell the same to those of the City and Districts of the Province. The latter procedure besides contravening the provisions of the Excise Regulations is causing loss to Government in the shape of duty which is now paid to the Resident's Treasury at the rate of one anna and nine pies per gallon.

4. In these circumstances I have enclosed for the approval of Government and publication in the Gazette a draft Notification embodying the revised rules in the matter framed on the lines of those in force in the Madras Presidency. The necessary forms also are prescribed.

5. The first clause defines Methylated spirit. The distinction drawn in the Madras rules between caoutchoucined spirit and Methylated spirit is not at present necessary in the Province. The second clause prescribes the duty to be levied and is the same as the present rules *i* and *vii* with the necessary changes. The third clause embodies with alterations and additions, the provisions of *ii* to *iv*, of the present rules. The present rule *iv* (*a*) is neither observed in practice nor is it desirable to retain the same. Clauses 9 & 10 of the proposed rules are the same as the present Rule *ix* and the first para.

6. Clause 4 prescribes the issue of the necessary license. In the Madras Presidency and elsewhere such licenses are issued free of fee to respectable applicants and I am of opinion that this may be followed in the State of Mysore also. To facilitate matters the requisit quantity of spirit should be issued to the Depots concerned *under bond* whence the license-holders will get their supplies on payment of the duty and price into the Taluk Treasuries and on obtaining a permit from the Deputy Commissioner concerned. The latter procedure is necessary for the reason that the head of the District should be kept informed of the transactions of this spirit so that there may be greater check on any malpractices to which the licensees may have recourse to. Hence the provisions of clauses 4, 5 and 6. Clause 7 exists in the present rules also and clause 8 is a necessary precaution.

7. In the Madras Presidency three kinds of licenses in connection with Methylated spirits are issued. The first is the one now proposed to be introduced and the other two to Varnish makers and Chemists not necessary for the present in this Province. Consequently, the other rules in force in the Madras Presidency call for no remaks.

Order thereon.—The following rules for the preparation, possession and sale of Methylated spirits submitted by the Excise Commissioner are approved and forwarded to the Compiler, *Mysore Gazette*, for publication.

Notification No. Fl. 4727—S. R. 130-07-2, dated 21st March 1908.

Whereas it has been found necessary to take steps to control the preparation, possession and sale of Methylated spirits in the Mysore State, the following rules have been framed by the Government of His Highness the Maharaja of Mysore under Section 2, Act XVI of 1863, as applied to Mysore by Regulation, II of 1885, and Sections 13 and 15 of the Mysore Excise Regulation, V of 1901, in that regard, in supersession of those contained in Notification No. 12981—R. E. 208-92, dated 27th January 1893. They will come into force from and after 1st April 1908:—

1. Methylated spirit is spirit rendered effectually and permanently unfit for human consumption by the admixture of caoutchoucine or in special cases of wood-naptha.
2. It is liable to a duty of 5 per cent *ad valorem*; the value to be fixed by the Excise Commissioner subject to revision by Government. The manufacturers should declare the sale price of the spirit for the purpose of calculating the duty.
3. It may be manufactured at the Government Central Distillery at Bangalore, provided:—
   (1) that the caoutchoucine to be mixed with the spirit must be first tested and approved by the Chemical Examiner to Government,
   (2) that it must be kept under lock and key by, and used under the supervision of, the Distillery Officer,
   (3) that it must be used in the proportion of one part by volume of caoutchoucine to 99 parts by volume of the spirit, and
   (4) that the spirit shall not be of less strength than 30 per cent over-proof.

   Similar conditions apply to the use of wood-naptha in the special cases where its use is permitted by the Excise Commissioner in Mysore, with this difference, that one part by volume of crude wood-naptha shall be mixed with nine parts of spirits and that the use of wood-naptha in a highly purified condition will not be permitted.
4. Licenses (M. S.—1.) for the sale of Methylated spirits will be issued free of fee to respectable applicants on their showing that they have a legitimate demand for such spirit. But the issue of licenses to persons licensed to sell liquor for consumption on the premises is prohibited.

5. The holders of (M. S.—1.) licenses may obtain their supplies of spirit from the Bonded Depot on payment of the price and duty to the Taluk Treasury and on production of a written permission (M. S.—2.) from the Deputy Commissioner of the district in which the shop is located. Books of forms of application for such permission (M. S.—3.) will be supplied to them.
6. For the issue of Methylated spirits from the Distillery to Bonded Depots the rules applicable to arrack and other country spirits shall apply *mutatis mutandis.*
7. No issue of more than 100 gallons of Methylated spirit at a time to any license holder is permitted.
8. Unlicensed persons are prohibited from selling Methylated spirit and from possessing more than one gallon at a time. This limit is fixed under Section 13 of the Excise Regulation, V of 1901. Breach of this rule will subject the offender to the penalties prescribed in the Regulation.
9. Materials intended for use in the methylation of spirits must be delivered by the manufacturers into the charge of the Distillery Officer who will take a sample from each separate cask or parcel thereof and forward the same to the Excise Commissioner in Mysore for transmission to the Chemical Examiner, and will secure the bulk under a lock in a separate secure room or godown to be provided by the distiller. No portion of such bulk shall be used for the purpose of methylation or be transferred to the warehouse until the receipt of the Chemical Examiner's report. On the receipt thereof, if it be to the effect that the materials are not suitable for use in methylation, the officer shall deliver the same to the manufacturers who shall be bound forthwith to remove the same from the premises and not to bring them back again. If, however, the Chemical Examiner's report is to the effect that the materials are suitable for use in methylation, the officer will cause them to be removed into and to be secured in the Distillery Warehouse, and at the same time enter them in the register (M. S.—4).
10. A register in the form (M. S.—4.) shall be maintained at the Government Central Distillery at Bangalore.

LICENSE FOR THE SALE OF METHYLATED SPIRITS.

I,.....Deputy Commissioner of....., under the provisions of the Mysore Excise Regulation No. V of 1901, hereby license you ..... to sell Methylated spirits at your shop at ..... subject to the following conditions and stipulations to be observed by you, the said

CONDITIONS.

1. This license extends only to the sale of Methylated spirit, which means spirit which has been rendered effectually and permanently unfit for human consumption by the admixture of caoutchoucine in accordance with the rules prescribed on the subject.

2. Methylated spirits may be obtained from the Bonded Depot, on payment of the reduced duty at 5 per cent *ad valorem*, and price at such rate as may be fixed by the manufacturers into the Taluk Treasury on the prescribed challan and on production of a written permission from the Deputy Commissioner of the district in which

the shop is located. All applications for such permission must be in a prescribed form. Books of forms of application may be had on payment of their cost price.

3. No more than one gallon of Methylated spirits shall be sold at any one time to any one person.

4. The shop for which this license is granted shall not be kept open between the hours of 9 P.M. and 6 A.M. except with the permission of the Deputy Commissioner.

5. The shop shall not be located in the same building with a foreign liquor tavern, refreshment room, hotel, arrack, or toddy, or other shop for sale of intoxicating liquor for consumption on the premises.

6. This license shall be hung up in a conspicuous place in the shop.

7. The privilege of vend of Methylated spirits shall not be sold, transferred or sub-rented except with the permission of the Excise Commissioner.

8. A correct account shall be kept of the daily transactions under this license in the following form. Such account and the stock of the spirit shall be produced immediately on demand for inspection by any Excise Officer of not lower rank than Assistant Inspector :—

9. An inspection note-book shall also be maintained intact with the pages numbered consecutively, so that officers inspecting the shop may enter their remarks therein. The note-book shall be handed over to the Range Inspector or any officer authorized by him to receive it at any time on a receipt being given therefor.

10. In case of breach of any of the conditions of this license, it shall be competent to the Deputy Commissioner to impose a fine not exceeding Rs. 10 for every such breach of such conditions or to cancel the license forthwith.

11. The imposition of a fine or cancellation of this license under the foregoing conditions shall not be held to prevent the holder of the license from being prosecuted under the Mysore Excise Regulation No. V of 1901.

12. This license shall also be revocable by the Deputy Commissioner, with the sanction of the Excise Commissioner, for any other cause on giving fifteen days' notice of such revocation.

Proceedings of the Government of His Highness the Maharaja of Mysore,

READ—

Letter No. 5134—501, dated the 7th February 1908, from the Inspector-General of Police in Mysore, forwarding the following report on the working of the new Mines Regulation IV of 1906, for the year 1906-07 :—

" With reference to Government Order No. J. 3503-4—Legis. 30-06-6, dated 17th May 1907, I have the honor to forward herewith reports from the District Magistrate, Special Magistrate and District Superintendent of Police of the Kolar Gold Fields on the operation of the Mysore Mines Regulation, including the amended sections for the year 1906-07 as called for in the above order.

2. I wholly concur with the District Magistrate in thinking (1) that the definition of mining material should be extended so as to include "all electrical fittings" (such as copper wire and the like) as it may be rightly held that all such material is used indirectly "for the treatment and extraction" of gold on the mines; (2) that "undesirable notices" should be issued by the *Mining Board* in lieu of in the name of each separate Superintendent of Mine; thereby making it impossible for a man after being served with such notice to remain on, or be again employed in, any mine on the Gold Fields area. The words "employed on a mine" in this section should, I consider, be expunged as unnecessary—as it is obvious that a man found to be an undesirable character on one mine will, even if employed temporarily or otherwise, on another mine be equally undesirable in that capacity. The fact is that with such an enormous floating population as that employed on the mines, it is impossible to prevent a man after being warned off one mine, immediately getting himself re-employed on another, and thus indefinitely evading the restrictions aimed at by the law. Another advantage which will, I think, accrue from notices issuing direct from the Mining Board, will be that greater care and stricter supervision will be exercised in the issue of such notices, than would be the case if left to the idiosyncrasies of individual Superintendents.

(3) That the provisions of Sections 7 to 12 have been most salutary, in preventing the illegal possession of "unwrought gold" by unlicensed goldsmiths and others. The inclusion in the definition of mining material of unwrought gold is virtually the most important amendment of the new Regulation, as it strikes at the very root of the former illegal traffic in gold carried on, in many instances without fear of detection by the receivers and dishonest goldsmiths and gold-dealers, who for years past have infested the Field. To the honest dealer there is absolutely no hardship in the new Regulation, to the receiver or dishonest goldsmith it adds a new terror, which doubtless will often times deter him from attempting to evade the law.

(4) That Section 16 has been virtually inoperative. Personally I have always been of opinion that this section would prove abortive, unless in very exceptional cases.

3. As regards the extension of the Mines Regulation to the Railway premises, I have already given my opinion in former communications to Government. The only practical and sound solution of this difficulty lies in the handing over of the Gold Fields Branch Railway to the jurisdiction of the Mysore Government, as is the case in the Bangalore-Mysore and Birur-Shimoga sections. I can see no valid objection whatever to this proposal, as the Branch Railway to the mines is entirely the property of the Mysore Government, and in no way interferes with the through lines to Harihar and Hindupur, which naturally the Government of India desire to have full control over.

4. Rules regarding the issue of licenses to Hawkers and Pedlars were somewhat delayed, owing to the necessary revision of the forms to be used. The same difficulties have arisen with regard to these licenses, as with the "undesirable notices" and I have desired the Mining Board to issue them, instead of each Mine Superintendent. The restriction in the issue of these licenses will I anticipate be most salutary, not only with regard to the passing of stolen gold, but also to the prevention of the sale of unauthrized liquor to the mine employees, which often led to drunkenness and dishonesty.

5. In conclusion, I desire to assure Government that the new amendments and the old Regulation, have been worked by the officers on the Gold Fields, with the greatest tact, and the closest supervision; and have in no instances, which have been brought to my notice, been in the slightest degree oppressive to any section of His Highness's honest and law abiding subjects.

No. J. 2958-59—LEGIS. 7-07-3, DATED BANGALORE, 26TH MARCH 1908.

ORDER THEREON.—Recorded with the remark that the subject of extending the meaning of the term "Mining material" and the amendment of the section as regards "undesirables" are engaging the attention of Government and that the question of

Judicial (Legislative), dated 26th March 1908.

obtaining jurisdiction over the Kolar Gold Fields Branch Railway or the extension of the Regulation to the railway premises in the Kolar Gold Fields Mining area will be considered on receipt of the report due from the Inspector-General for the year 1907-08 which should be forwarded in due course.

Proceedings of the Government of His Highness the Maharaja of Mysore, Judicial (Courts), dated 25th March 1908.

READ—

Letter No. 5150—217, dated the 15th February 1908, from the District Magistrate of Kolar, forwarding for the orders of Government, a copy of his Proceedings dated 13th February 1908, passed on report No. 603 of the 23rd January 1908, from the Amildar and 2nd Class Magistrate of Bagepalli, soliciting instructions regarding the surrender of a convict Kadarigadu to the Taluk Magistrate of Hindupur.

No. J. 2940-48—CTS. 227-07-2, DATED BANGALORE, 25TH MARCH 1908.

ORDER THEREON.—The facts of the case are briefly these:—

Two persons Kadarigadu and Abdul Karim were jointly tried by the Deputy Amildar and 3rd Class Magistrate of Gudibanda Sub-Taluk in Criminal Case No. 8 of 1907-08 on the file of his Court. On the representation of the Magistrate that one of the accused was an old offender, the case was transferred by the District Magistrate of Kolar to the Amildar and 2nd Class Magistrate of Bagepalli Taluk for disposal. Before the said order reached the Gudibanda Magistrate, he had, on receipt of a warrant from the Hindupur Taluk Magistrate, sent Kadarigadu, one of the accused in the said case, to Hindupur for trial for a non-extradition offence under Section 176, Indian Penal Code, committed within the jurisdiction of that Magistrate. The Hindupur Magistrate after having convicted and sentenced Kadarigadu to three months' imprisonment retransmitted him to the Gudibanda Magistrate, with the request that the said prisoner might be sent back to undergo the sentence awarded to him in Hindupur after his trial in the Mysore State was concluded. In persuance of the District Magistrate's order of transfer referred to above, the Bagepalli Magistrate tried the said Kadarigadu, convicted him under sections 380 and 75, Indian Penal Code, and sentenced him to three months' rigorous imprisonment on 20th January 1908. The accused was then forwarded to the Central Jail, Bangalore, where he is now undergoing the said sentence which expires on the 19th April 1908.

2. The Government observe that the action of the Amildar Magistrate of Gudibanda in handing over an under-trial prisoner to the Hindupur Taluk Magistrate was irregular. It was not authorized by the Chief Commissioner's Notification No. 111, dated the 23rd July 1878, which only directs Magistrates and Police Officers in Mysore to execute criminal processes issued by Magistrates outside the State *under the same conditions* and *in the same manner* as if such processes had been issued by a Magistrate in Mysore; and if the warrant had been issued by a Magistrate in Mysore, it would not, under section 9 of the Prisoners' Testimony Regulation, have been acted upon. Nor was the Magistrate's action authorized by Government Notification No. J. 219—Legis. 14-04-14, dated the 20th July 1907, which applies only to the case of a prisoner undergoing sentence in Mysore for an extradition offence and not to an under-trial prisoner; and further the offence in British India for which the surrender of the accused is demanded, should be an extradition offence, but in the present case the prisoner was accused of an offence punishable under section 176, Indian Penal Code, which is not an extradition offence. It is also not clear under what authority the Hindupur Magistrate resurrendered the accused to the Mysore State without an extradition warrant.

3. The question now for consideration is whether the prisoner is to be resurrendered to the Taluk Magistrate of Hindupur before or after the expiry of the sentence passed on him by the Taluk Magistrate of Bagepalli. The Hindupur Taluk Magistrate has requested that the prisoner may be returned when his trial in Mysore is concluded. If the resurrender of the prisoner to Mysore had been secured under the provisions of the Indian Extradition Act, he would have had to be resurrendered on the completion of his trial in Mysore. But as this is not the case, the Hindupur Magistrate may be informed that the prisoner is undergoing sentence in the Central Jail at Bangalore and that if a warrant is received from the Hindupur Magistrate, it will be executed as soon as the prisoner is released from Jail.

No. J. 3002-12—Cts. 29-07-13, DATED BANGALORE, 28TH MARCH 1908.

ORDER THEREON.—The Inspector-General of Police and all the District Magistrates consulted have expressed themselves in favor of the proposal made by the Chief Court, *viz.*, to grant travelling allowances and batta to witnesses residing outside the State attending Criminal Courts in the State on the same scale as that now fixed for witnesses attending Sessions trials. The District Magistrate of Chitaldrug would, however, restrict the scale to non-official witnesses attending the Courts and states that in the case of official witnesses the rates of travelling allowance obtaining in the Government in which they are employed may be given on the production of bills countersigned by their immediate superiors.

As to whether subordinate Magistrates should obtain the sanction of the District Magistrate before payment in each case the District Magistrates of Kadur, Chitaldrug, Mysore, Tumkur and Kolar are of opinion that no such sanction is necessary, as it would involve needless delay and inconvenience and that the subordinate Magistrates may be authorized to make such payments at their own discretion, after scrutinising the claim with regard to the class under which each witness is to be brought; while the District Magistrate of Shimoga would permit such payment only in urgent cases. The District Magistrates of Hassan and Bangalore are of opinion that the sanction of the District Magistrate is necessary so that a strict scrutiny may be exercised over the expenditure and the former further urges that subordinate Magistrates should be at liberty to reject the claim for travelling allowances in cases where witnesses have perjured or misbehaved themselves or where their evidence is not material or there is reason to believe that they have not been summoned by the party calling them for any *bonâ fide* useful purpose.

On a careful consideration of the question, Government are pleased to lay down the following rules in the matter:—

(i) Official witnesses *i. e.*, persons in the service of other Governments and attending Criminal Courts in the State to depose to facts coming to their

Judicial (Courts) dated 28th March 1908.

knowledge in the course of their official duties, shall be paid travelling allowances and batta at rates to which they are entitled under their respective Governments, the payment in each case being made upon submission of a bill by the officer concerned or his official superior.

(ii) Non-official witnesses shall be paid allowances and batta at the following rates which are those fixed for witnesses attending Sessions trials under Government Order No. 9926—J. 949, dated the 1st March 1900, and No. 1531—J. 24-96-7, dated 1st February 1904.

Travelling allowances	First class scale	Second class scale	Third class scale	Fourth class scale
By rail	First class fare	Second class fare	Third class fare	Third class fare
By road	8 as. per mile	4 as per mile	2 as. per mile	6 pies per mile
By sea or canal ...	Actual expense of passage			
Batta not to exceed ...	Rs 3 per diem	Re. 1 per diem	As 8 per diem	As. 4 per diem

The payments should in case (ii) be made immediately by the Magistrate whose Court the witness attends from the Court's permanent advance and recouped on contingent bills; and a statement of all such payments with details should be submitted to the District Magistrate once a month. Receipts for payments made should be taken in triplicate—one to be kept in the Court, one to be sent with the monthly report and one with the contingent bill.

Correspondence ending with letter No. C. 304, dated the 17th January 1908, from the District Magistrate of the Kolar District, reporting on the breaches of the peace that occurred at the Kolar Gold Fields from the 25th to 28th December 1907.

2. Correspondence ending with letter No. 4652—424, dated the 13th January 1908, from the Inspector-General of Police in Mysore, on the same subject.

No. J. 2855-57—Pol. 125-07, DATED BANGALORE, 18TH MARCH 1908.

ORDER THEREON.—At 5-30 P. M., on the 25th December 1907, a disturbance took place at No. 9 Shaft, Mysore Mines Coolie Lines, owing to an affray between the Punjabi Watchmen whose lines are close to the coolie huts and the Tamil Coolies. At about 5 P. M., a woman named Paliem started from her hut for the Shandy at Robertsonpet, when she met four Punjabis, Nawab Khan, Gama, Hasheem Deen and Bostan Khan. They stopped her and questioned her as to what she had in her basket, while Gama made some indecent signs to her and another poked her head with a stick. She got frightened and ran to her hut and finding her husband, Madurai, near Gilbert Shaft, told him what had transpired and pointed out to him the Punjabis who were following her. Madurai asked the Punjabis what they were about, whereupon Nawab Khan and Gama hit him and Bostan Khan kicked him. On his crying out, all of them seized him and carried him away to their lines, other Punjabis joining the party and beating him with sticks. When his mother intervened and remonstrated, she was also beaten. Other Tamil coolies then interfered and rescued Madurai from the Punjabis and the latter reinforced by several others of their comrades thereupon made a sortie and beat several men, women and children whom they found in the adjoining coolie huts. Two coolies were also dragged off to the Punjabi lines and confined there, presumably with the idea of preferring complaints against them of having pelted stones at the Punjabis.

2. On hearing of the disturbance, Head Constable Rahiman Khan with six constables from the Champion Reefs Police Station, went to the spot and persuaded the Punjabis to release their prisoners and he persuaded the coolies also to return quietly to their huts, which are about 45 to 50 yards away from the Punjabi lines. This was at about 7 P. M. On the information reaching the Superintendent of Police, Mr. S. M. Pritchard, he visited the place at about 7-45 P. M., and found everything quiet, and it was thought that the disturbance had subsided.

3. The next morning, *viz.*, the 26th, at 8 A. M., before investigation against the offending Punjabis could be taken up, the Tamil Coolies mustered in large force and began to attack the Punjabi lines with stones. The Superintendent of Police who proceeded to the spot found an excited crowd of several thousands of coolies being held back with difficulty by thirty of the local Police under Inspector, G. Norris, from rushing into the Punjabi quarters. There was a good deal of promiscuous stone throwing and repeated rushes on the part of the crowd. No one was however seriously injured and the crowd was eventually persuaded to disperse at about 12 noon.

4. Mr. P. F. Bowring, the Special Magistrate, who was at Bethamangala, was telephoned for, and he returned immediately. After quieting the disturbance, both Messrs. Pritchard and Bowring met at 2 P. M., at the Coolie Lines and took down detailed statements of every one who had any complaints to make, and Mr. Pritchard assured them all that the Punjabis who were to blame would be brought to justice. He also assured the coolies who did not want the Punjabis so close to their huts, that they would be removed from that place and never again allowed to return thither. This assurance pacified the coolies and helped the removal of the Punjabis to the Rifle Range.

5. The Deputy Commissioner and District Magistrate, who was at Chintamani, 52 miles from the Gold Fields, was also communicated with by wire and the telegram reached him by post late on the evening of the 27th, and he arrived at the Fields on the evening of the 28th.

6. On the 27th idem, everything continued to be quiet, and the whole day was spent in further investigation. The coolies could not name any of the Punjabis

and could only point them out. A detachment of 20 officers and men of the Special Reserve Force which had been despatched from Bangalore reached the Fields at 8-30 P. M., by motor train.

7. On the morning of the 28th, the Punjabis were all mustered at the Rifle Range and the identification from amongst them of the offenders by those that had been assaulted on the 25th evening took more than three hours. The police had also to collect sufficient evidence before arresting any of them.

8. While matters stood thus on the 28th, when the Punjabis were marching up to change guards at various mills and posts at the Mysore Mine at about 3 P. M., the coolies, who were just about to go underground at Ribblesdale Shaft, saw the Punjabis, refused to go down to work, started to collect in excited groups near the posts where the Punjabis were stationed and began to throw stones. The Police, 11 officers and 50 men, attempted to disperse the crowd. In the *melee*, several constables and two or three Europeans were hit with stones, but none was badly hurt. Mr. C. Paterson, Chief Engineer of the Mysore Mine, (Lt.-Col. & Commandant of the local Volunteers) who happened to be on the spot, asked Mr. Bowring if the Volunteers should be called out. Mr. Bowring asked him to keep them in readiness. Later on when it was found that the Police on the spot, though equal to dispersing the crowd, would be unable to cope with the situation, if arrests had to be made, the assistance of the Volunteers was requisitioned at 4 P. M., when a detachment of A and B Companies of the Kolar Gold Fields Rifle Volunteers appeared on the scene. On the force advancing on the crowd, the coolies retreated to their lines, where 28 of them were arrested by the Police and escorted with the help of the Volunteers to the Marikuppam Police Station, and locked up there. This was at about 5 o'clock in the evening. The crowd again collected, presumably with the intention of trying to get the prisoners released, and would not disperse. A detachment of C and D Companies of the Volunteers then turned up, accompanied by Adjutant Captain Kidd. As the mob did not disperse, the Volunteers, numbering in all 10 officers and 110 men, advanced in extended order and the rioters retreated towards the old Government Civil Hospital. The Volunteers then retired.

9. Mr. Srikanteswara Iyer, Deputy Commissioner, had arrived at the Fields at about 5-30 P. M. Seeing that the huge crowd which had gathered had instead of dispersing wended their way towards the Hospital, creating further disturbance, he followed them thither and found them boisterous, pelting stones on the roof, smashing windows and rushing at the doors, demanding the inmates to surrender the Policeman who had got in there. Head Constable Rahiman Khan who was being dressed for a bad cut on the head, being frightened at their rushing at him, discharged a gun loaded with buck shot, which slightly hurt one of the coolies, who thereupon became more furious and showered volleys of stones from all sides. On the Deputy Commissioner hastening into their midst, calling out in Tamil to cease fire and stop the disturbance, the coolies recognised his voice and cried out that "Peri Dorai" (big saheb) had come, they need have no more fear, and that they should cease causing disturbance and represent their grievances. On his assuring them that he would personally enquire into their grievances, if any, they felt re-assured and gathered round him, began to cry and complain that they had come all the way from their distant homes to work underground at great personal risk and sacrifice, that when they were absent from their huts on such hazardous tasks, the Punjabis went after their women and molested them, assaulted old and young in their huts, trumped up false charges against them, annoyed and teased them in several ways and that when the Punjabis were caught assaulting them, instead of being punished, the Punjabis themselves were set against them, which only helped the Punjabis to contrive and bring them to further trouble, and that when they protested against such acts, their own comrades were arrested and taken away to the Police Station, and that they would never more have anything to do with the Punjabis. When he explained to them at great length that in spite of their allegations, it was illegal and wrong of them to have taken the law into their own hands, that they were unwise in pelting stones and causing a disturbance, that it was Messrs. Pritchard's and Bowring's great forbearance that had averted their being fired on, which would have been so disastrous to them, that their charges against the Punja-

Judicial (Police) dated 18th March 1908.

bis in general were unreasonable, but that all specific complaints against any individual would be carefully gone into and whoever had molested them would be arrested and brought to justice, they expressed satisfaction and went away to their huts saying they would leave everything in his hands. This was at about 8 P. M.

10. As the Mines authorities naturally felt uneasy about the situation, the Deputy Commissioner patrolled the more important of the Coolie Lines at about midnight and found everything quiet and from his conversation with the coolies he met, he understood that they were sorry that they had behaved in a lawless manner.

11. On the morning of the 29th December, 10 Punjabis who had taken part in the disturbance of the 25th idem were arrested. When Mr. Bowring and the Deputy Commissioner went over to several of the Coolie Lines and spoke to the people explaining to them their folly, they were readily convinced of it and the more elderly of them repented of the action of those that had gone wrong owing to misunderstanding.

12. The coolies resumed work from the 29th morning and the Punjabis are again at their posts.

13. The Inspector-General of Police who was away at the Gersoppa Falls on the 27th reached the Field on the 29th at midday, having ordered 50 of the Reserve Police and an Inspector from Birasandra to join duty at the Gold Fields without delay; these men reported themselves on the 30th morning at the Gold Fields.

14. As far as can be ascertained, this out-break on the part of the Mine Coolies seems to have been directly due to the molestation by certain Punjabis of the woman Paliem and the ill-treatment of her husband and other coolies who came to her help and also to a general feeling against the Punjabis in regard to the manner in which they are said to have been conducting the search of coolies at Shaft heads on the various mines for some time past.

15. The judicial enquiry has been completed and five out of the ten Punjabis concerned have been convicted and sentenced, the punishments ranging from a fine of 15 rupees to rigorous imprisonment for three months. The Punjabis preferred an appeal to the Chief Court against this sentence. The Chief Court confirmed the conviction and enhanced the sentence in the case of three of them from three months to six months. The trial of the Tamil coolies has also been concluded, five being sentenced to six months' rigorous imprisonment and five to three months' rigorous imprisonment.

16. In thus recording the facts of the occurrence, Government are glad that there is no reason to apprehend further trouble and they do not consider that any special protective or punitive measures are called for.

17. Government have also much pleasure in noting that the local officers, Mr. Srikanteswara Iyer, the Deputy Commissioner, Mr. Bowring, the Special Magistrate, and Mr. Pritchard, the Superintendent of Police, dealt with the disturbance with commendable tact and temper. Government also take this opportunity to record their appreciation of the assistance rendered by the Kolar Gold Fields Volunteers in dealing with the disturbance.

18. Government feel at the same time that it is desirable that enquiries should be instituted as to the relations subsisting between the Punjabi watchmen and the cooly population and into the truth of the allegations made by the coolies as regards the treatment they receive at the hands of the Punjabis.

Government Order No. 254-55—Police 171-3, dated the 22nd July 1905, sanctioning the redistribution and reallocation of the Police Force in the Shimoga District and the formation of Investigating Centres.

READ ALSO—

Letter No. 5143—565, dated the 23rd January 1907, from the Inspector-General of Police, submitting for sanction proposals for the redistribution and reallocation of the Police Force in the Chitaldrug District.

"I have the honor to place before Government proposals regarding the redistribution and reallocation of the Police Force in the Chitaldrug District.

In working out the scheme, I have availed myself of the accurate local knowledge of the Deputy Commissioner, Mr. H. Ramanuja Iyengar, and of the Superintendent of Police, Mr. Nadig Subba Rao, and the present Assistant Superintendent, Mr. B. Ramaswamiah, and have myself studied the local needs on the spot during my recent visits to the District.

The present and proposed strength in the lower grades is given below:—

Present strength			Proposed strength		
Jamadars	Dafadars	Constables	Jamadars	Dafadars	Constables
11	68	580	18	56	530

The revised scheme results therefore in a decrease of 12 dafadars and 50 constables, and an increase of 7 jamadars, in other words, in a net saving in cost of Rs. 247 per mensem or Rs. 2,964 per annum.

Shimoga, where the Investigating Centre Scheme has been in operation for over a year with good results, has an area of 4024 square miles, a population of 5,31,736 with 1986 villages and an average of 633 crimes per year, has been given a Police Force of 23 jamadars, 48 dafadars, and 456 men. It is now proposed that Chitaldrug which has an area of 4022 square miles, a population of 5,00,528 with 1383 villages, and an average of 461 crimes per year, should have 18 jamadars, 56 dafadars and 530 men.

The larger number of dafadars and men, allowed to Chitaldrug, is required on account of the more extensive and difficult-to-patrol British border, and the larger number of important high roads.

In redistributing the stations and beats, care has been taken to make liberal provision for frontier and road patrol. Village beats have also been provided for to the extent necessary. In out-of-the-way places qualified 1st grade dafadars are proposed to be located, with power to hold inquests and to attend to urgent duties, when the Inspector and the jamadar are otherwise engaged. All Head-Quarter stations have been provided with an extra 1st class dafadar, except Harihar, which has a dafadar for each of its stations, on account of its extensive British borders.

All Taluks will have two Investigating Centres with the exception of Harihar Sub-Taluk.

The District Reserve is proposed to be strengthened by 2 jamadars, 3 dafadars and 20 constables—the latter to meet casualties and for escort of prisoners, and the former to assist the Prosecuting Inspector, and be available for any extra executive work when necessary. Thus it will be seen that no radical changes are proposed and that no dislocation of work in the District need be apprehended. Only 2 stations—Hirehalli and Dodchelur in the Chellakere Taluk—are recommended to be abolished, after careful consideration of the local requirements and conditions.

I request that you will be so good as to move Government to accord early sanction to the proposal."

Proceedings of the Government of His Highness the Maharaja of Mysore,

Letter No. 98—12, dated the 6th July 1907, from the same officer, submitting similar proposals regarding the Tumkur, Hassan, Kadur, Kolar Districts and the Kolar Gold Fields Range.

"I have the honour to forward herewith complete schemes for the reallocation and redistribution of the Police Forces in the four Districts of Tumkur, Hassan, Kadur and Kolar and of the Kolar Gold Fields Range. A similar scheme has been working in the Shimoga District for the last 1½ years, and the Chitaldrug District scheme has already been submitted.

2. *Reserves.*—I have taken the opportunity of including in the proposals now submitted, the strengthening of the Shimoga Reserve by 20 men, instead of, as I before recommended in my letter No. 6203-676, dated the 5th March 1907, of 10 men. This has been found absolutely necessary owing to the causes enumerated in the above mentioned letter, and more especially from the fact that the Manganese Industry in Shimoga has added greatly to our responsibilities. The Reserve of only 40 men proposed in my former scheme is therefore insufficient for our needs.

Chitaldrug being a frontier District and in many ways the most important in the Province, from a Police point of view, must also have its Reserve brought up to the full strength of 60 men. Under these final proposals therefore, the important border Districts of Shimoga, Chitaldrug, and Tumkur have been provided with District Reserves of 60 men each; the smaller Districts of Hassan and Kadur with 50 men; and the Kolar District proper, 40 men. With such comparatively strong Reserves, these Districts will be able to meet the innumerable calls for extra men which every District constantly experiences. The lack of these Reserves has up till now been a source of grave inconvenience, necessitating the frequent withdrawal of men from Taluks, where they can with difficulty be spared.

I may mention that in most Madras Districts the Reserves are 100 strong, and even with this number are at times found insufficient.

I propose as far as possible to drill, equip and discipline these District Reserves so as to enable District officers to have at their command bodies of men capable of coping with ordinary emergencies, such as riots, sudden incursions of robbers or dacoits, unlawful assemblies, fires, and the like; without having to indent on the Special Reserve at Bangalore, except in extraordinary or exceptional circumstances.

Special Reserve.—With regard to the Special Provincial Reserve, I have found after three years' experience, that their services are in constant request in Mysore and Bangalore, at the Birthday and Dasarah festivites, for escort of important personages, for duty at the Military Camps of exercise, for guarding public offices, and for heavy orderly duty; so much work in fact, that it is most difficult to keep the force up to full strength, or the men in that state of discipline and efficiency, which is so essential for a Reserve of this sort.

3. *Investigating Centres.*—Coming now to the important question of Investigating Centres, and the appointment to them of educated, trained and fairly well-paid officers, it will be seen that in all six Districts and the Kolar Gold Fields Range, I propose to raise the total number of jamadars from 85 to 114; making a proportionate reduction, from 342 to 276, in the number of low paid, ill-educated dafadars, who will be utilized merely for supervising beats and patrols, and holding inquests when in charge of important Sub-stations.

I have, in my memo submitted with the Shimoga scheme, very clearly indicated the necessity for increasing our Investigating Centres, putting in charge of each a responsible and intelligent jamadar, and thus as far as possible carrying out the recommendations of the Indian Police Commission, which aim at the improvement in the status of investigating officers.

4. *Drill Instructors.*—In the various District schemes and memoranda separate Drill Instructors have been proposed for each Taluk. With a view however to cut down expenditure where possible, I now recommend that each Taluk should supply its own Drill Instructor, *i.e.*, one 1st class constable to whom an extra allowance of Rs. 2 may be given. This will only entail Rs. 106 extra a month, as shown in the statement attached.

Judicial and Legislative (Police), dated 27th March 1908.

5. *Sub-Inspectors.*—In my memorandum (copy attched) forwarded to Government with my letter No. 7598—805, dated 29th April 1907, I recommended the appointment of Sub-Inspectors to all the Sub-Taluks in charge of Deputy Amildars, where there are now only jamadars, excepting Closepet and Harihar; as also for the Yeslurpet Range of the Manjarabad Taluk. For reasons detailed in my memo for the District of Hassan, I have proposed the appointment of a Sub-Inspector for the Yeslurpet Range, and now I take this opportunity of including the appointment of the other Sub-Inspectors for the six Sub-Taluks of the Province, (except for French Rocks which will be included in the Mysore District scheme). The extra cost involved is only Rs. 59 per mensem.

6. *Memoranda.*—The various notes and memoranda which I and the District officers have made out, and which accompany the District schemes, clearly indicate the objects and reasons for the changes which they and I recommend, with regard to the reallocation and redistribution of the Police in their respective Districts. I can claim that these schemes are in no way ill-conceived, or ill-digested, as they have taken *two years to elaborate.* I have myself been at the pains to go through each scheme with the District officers at least twice, after visiting every District several times.

7. *Cost.*—The total extra cost which these schemes involve, will come to the exceedingly moderate figure of Rs. 345, per mensem, or Rs. 4140, per annum, which will be more than covered by the reduction of pay of the District Superintendent of Police, Kolar Gold Fields, resulting from the appointment of Mr. Pritchard on pay of Rs. 550 a month, as against the pay and allowances of Rs. 1,000, drawn by Mr. P. B. Thomas, who reverts to his permanent appointment in Madras in September next.

8. *Summary.*—These schemes are of course not so complete or elaborate as I should have wished, keeping in view all the recommendations of the Indian Police Commission; but they are a decided advance in the right direction, and are I think *adapted to the needs of the Province.*

The schemes which I understand have been or are to be shortly brought into operation in British India, contemplate the appointment of Sub-Inspectors on pay of Rs. 50 to Rs. 100 (to be in charge of all Investigating Centres), of highly paid Inspectors, of Deputy Superintendents for each District, of extra pay and allowances for all constables, costing in all twenty to thirty lakhs of rupees for each Presidency.

My schemes are less ambitious, and certainly less expensive, and I think Government will allow that I have endeavoured to 'cut my coat according to the cloth,' and not to overburden the State with other than absolutely necessary expenditure.

9. The Mysore and Bangalore District schemes have not yet been worked out, and will be submitted separately.

10. As the proposed increase in expenditure is met by a proportionate reduction in the Police Budget, under the head 'pay of the Kolar Gold Field Superintendent,' I trust Government will kindly accord sanction to the proposals now submitted, at a very early date.

Memorandum regarding the Investigating Centre Scheme of Hassan, Kadur, Tumkur, Kolar, etc.

1. There are in the Province nine Sub-Taluks in charge of Deputy Amildars —of these the Sub-Taluks of Closepet and Harihar have been provided with Inspectors for the supervision of the Police. The other Sub-Taluks, however, are only provided with jamadars although they are independent charges, in which the jamadars perform exactly the same functions as Inspectors in Taluks. This is somewhat an anomaly and I would suggest that all these Sub-Taluks should be given Sub-Inspectors instead of jamadars.

2. I would also suggest that Yeslurpet of the Manjarabad Taluk, Hassan District, should be made into a separate Sub-Inspecror's Range; as this would, I think, be a better arrangement than that suggested in my letter No. 4738—543, dated 10th January 1907, in which I recommended an Inspector being located at Yeslurpet during the monsoon only. The Deputy Commissioner of Hassan is also in favor of this arrangement as preferable to my former proposal.

3. My recommendations therefore stand as follows :—

(i) That Kumsi, Yedahalli, Alur, Turuvekere, Koratagere, Gudibanda, French Rocks and Yeslurpet, should be made into Sub-Inspector's Ranges.

(ii) That seeing that the pay of the lowest grade Inspector is 40+15 and of the 1st grade jamadar is Rs. 25+8, there should be an intermediate class, to be called 'Sub-Inspector's Class,' with the pay of Rs. 30 plus horse allowance of Rs. 12 a month.

4. The extra cost of Rs. 72 per mensem or Rs. 864 per annum entailed would be very small, when measured against extra efficiency and better paid and more contented officers."

NOTE BY THE INSPECTOR-GENERAL ON THE REALLOCATION OF THE FORCE IN THE TUMKUR DISTRICT.

As in the case of all other District schemes I have been careful before making my recommendations to Government, regarding the redistribution of the Force, to visit as many Taluks of the District as possible in my various tours, during the last two years; and to discuss all details of my proposals with the District officers. Both Mr. L. Krishna Rao, the Superintendent of the District in 1906, and the present Superintendent, Mr. Krishna Murti, have given me the full benefit of their opinions and suggestions. The former officer having been in the District several years, was exceptionally qualified to inform me of the special needs of the District. I also called in all the Taluk Inspectors of the District to Head-Quarters, Tumkur, to enable them to state their views with regard to local conditions and requirements. The Deputy Commissioner of the District has written a short memorandum which accompanies that of the District Superintendent of Police.

2. It will be seen therefore that I have accumulated as much information as possible as regards the local requirements from the responsible officers on the spot.

3. By the proposals now made all Taluks will be furnished with two Investigating Centres except Tumkur, which will be given three; owing to density of population, incidence of crime, and more especially from the fact that a considerable range of hills runs through the Taluk which divides the eastern part from the western. I do not agree with Mr. Krishna Rao, in thinking that Pavagada Taluk requires more than 2 Investigating Centres. At any rate two should be tried and if our future experience shows that three are necessary an extra jamadar can probably be spared from District Head-Quarters.

4. The number of the investigating staff *viz.*, the jamadars, has been increased from 14 to 21 and the number of petty officers or dafadars, reduced from 70 to 51.

5. The strength of the town force in Tumkur, and in the various Taluk Head-Quarters, has been increased, as it has been found that in almost all instances the towns are under-policed.

6. As pointed out by Mr. Krishna Rao, the District Reserve is quite unable to cope with the various duties which it is called upon to perform; more especially since the withdrawal of the Special Reserve Force orginally stationed at Tumkur and now at Bangalore which carried out much of the work that the present District Reserve has to do. I have therefore proposed that the District Reserve should be brought up from 31 to 60. In the smaller Districts of Hassan and Kadur the District Reserves, as recommended, will be 50 strong; but considering the importance and area of the Tumkur District, its extensive borders, and looking to the fact that it, and the neighbouring Chitaldrug District, are annually over-run with criminal gangs from British Territory, the extra 10 men are absolutely necessary.

Since altered Vide para 4 of my letter No. dated July 1907. F. C. Corr.

7. Ten Drill Instructors on pay of Rs. 10 each are provided for all Taluks.

8. The increase in cost of these proposals, with regard to the Tumkur District comes to Rs. 169 per mensem or Rs. 2,028 annually. The District is an important one, and it would be a very dangerous policy to allow it to continue so under-

manned as it is at present. The extra cost asked for is necessary, and cannot, I consider, be avoided.

Letter No. 468, dated 2nd April 1906 From K. Dorasami Iyer, Esquire, Deputy Commissioner, Tumkur District, to F. E. C. Carr, Esquire, Inspector-General of Police in Mysore.

With reference to your letter No. 1788—P. C. 82, dated 19th September 1905, requesting that proposals for the redistribution and reallocation of the Police Force of this District may be submitted, I have the honor to enclose herein the report of the Superintendent of Police on the subject together with my views thereon.

MEMORANDUM.

In accordance with Inspector-General's letter No. 1788—P. C. 82, dated the 19th September 1905, the question of redistribution of the Tumkur District Police Force was taken up and discussed during the Inspector-General's recent visit to the District; and in the proposals now submitted after mature consideration the suggestions made by the several Taluk Heads of Police have as far as possible been kept in view with due regard to local conditions and requirements.

2. The scheme sanctioned for the Shimoga District (*vide* Government Proceedings No. J. 254—Police 171—3 dated 22nd July 1905) serves as a model in some respects; but bearing in mind the broadly distinguishing features of the Tumkur District as regards situation, area, population and the number of inhabited villages it is not convenient to keep strictly to the parallel line in point of detail. The area of the Tumkur District is more extensive. The District has no ghat barrier as in the case of Shimoga District; the population shows an excess of 147,426 over that of Shimoga as per last Census, and the number of populated and unpopulated villages is also considerably larger, being 2390 and 381 respectively in Tumkur District as against 1794 and 235 as shown in the Census Tables for the Shimoga District. The results of the later quinquennial Census are more markedly favorable to Tumkur than to Shimoga, though in respect of the incidence of crime, Shimoga District claims precedence when ten years average is taken into consideration. This disparity is however to be explained not merely by more vigilant supervision exercised over the criminal classes of the Tumkur District but also to certain adventitious causes that have contributed to the decrease in crime from over 650 in 1900-01, to 400 in 1904-05. The current year's crime record shows dicidedly an upward tendency; and with dearth and drought staring us in the face, there is no prospect of any appreciable diminution in the volume of crime in the near future.

Note:—These figures do not take into account the number of Dakhale villages or hamlets attached to principal or Asali villages shewn in the Census table.

3. The reasons for the increase or decrease, in the number and cost of officers and men, entailed by the proposed reallocation are explained below in the Talukwar statements appended to this memo. Statement A represents the abstract of the "Present" and the "Proposed" scales and shows at a glance the figures for the several Taluks and for the District Reserve.

The necessity for improving the status and quality of the investigating staff has led to the increase of jamadars from 14 to 23—the first and second grades being evenly distributed as in the Shimoga District according to the importance of the ranges. The total number of dafadars of all grades has been decreased from 70 to 51, provision being made to retain dafadars of higher grades in charge of selected Sub-Stations. The total number of constables is proposed to be increased for the whole District (including the District Reserve) from 571 to 592. The relative proportions of 1st class and 2nd class constables will be maintained, as at present with a view to provide one 1st class constable for the charge of each outpost and to leave a few at each of the other stations as well as in the District Reserve for the normal flow of promotion from one grade to another. Moreover the existing number of dafadars and men in the senior grades have to be provided for.

4. The town of Tumkur is at present very much underpoliced and with its

extensions and rapidly developing trade, the present population of 12,000 is likely to increase still further. The addition of one dafadar and 10 men to the strength of the Tumkur Town Police is therefore urgently called for to meet the immediate requirements. I intended to propose an increase of 20 constables but I had to give up the idea for fear of adding to the cost.

The District Reserve Force exists only in name at present, as most of the men are now distributed as orderlies. Escort of prisoners to and from courts and to the Central Jail, extra men required for guarding undertrial prisoners when the lock-up guard is found insufficient, frontier patrols and jatra special duties for several months during the year, and the watching of gangs, are all duties properly devolving on the District Reserve, not to speak of other miscellaneous duties connected with the prevention and detection of crime and the relief of officers and men going on leave or required to be placed on special duty. The District Police School, the Stores and records take up the whole time of a jamadar and a dafadar. One jamadar ought to be in charge of the whole District Reserve ready to march with a body of men to distant places at a short notice on urgent duty; and an extra jamadar is needed to be in charge of work connected with the registration, movements and settlement of criminal gangs and to be available for being sent out to relieve an officer going on leave etc. It is for these reasons that the strength of the District Reserve is proposed to be increased by 2 jamadars, 2 dafadars and 29 men. The demand cannot be regarded as unreasonable when it is remembered that the withdrawal of the Special Reserve Force which was originally organised in this District as an armed and trained auxiliary body of the District Reserve has deprived this District of the services of 1 Inspector, 1 dafadar (havildar) and 30 men for the duties specified above.

Vide Government Proceedings No. 7399-400—J. 851 dated 28th December 1897.

1 Inspector on Rs. 40 + 15		55
1 Sergent ,, 15		15
10 First class Constables at Rs. 10 each	...	100
20 second class do ,, 9 each	...	180
Total	..	350

5. The scheme of revision of Investigating Centres as adopted in British Territory in accordance with the suggestions embodied in the Report of the Police Commission has entailed a heavy item of increased expenditure, which is regarded as inevitable when the Government aims at improving the tone and morale of the investigating staff without unduly weakening the strength of the Police Force. The scheme as worked out in this District has added 9 officers to the superior investigating staff (jamadars) and 21 men to the constabulary by reducing the number of petty officers (dafadars) by 19. Any attempt at cutting down the strength of the District Police still further would very much weaken the Force.

6. It may be observed here that considering the area and population of Sira, Gubbi and Pavagada Taluks, the provision made for purposes of investigation is rather inadequate. I intended to give three Investigating Ranges to each of these taluks which are larger in area, population and incidence of crime than the Madaksira Taluk which has three Investigating Centres; though in the matter of holding inquests etc., the village Magistrates in British Territory relieve the Police of a large share of the preliminary investigation work. In the Mysore Province all inquests are required to be held by the Police, and it was for this reason that Sub-Stations were opened at convenient centres. Now that the number of Sub-Stations is considerably reduced, it is open to question whether in the larger ranges of these Taluks a single jamadar would be able to cope with the work. It seems to me to be undesirable to empower the dafadars to hold inquests; and if this view is accepted, I consider that for each of three Taluks named above, another jamadar may be added by a proportionate deduction in the number of dafadars. This is a suggestion deserving of favourable consideration.

The total number of inquests held annually in each Taluk;—

Tumkur	..	45
Pavagada ...	...	20
Maddagiri ..	...	40
Koratagere Sub-Taluk	..	10
Chikanayakanhalli	..	24
Sira ...	...	43
Kunigal ..	...	31
Gubbi ..	..	27
Tiptur ...	...	22
Turuvekere Sub-Taluk	...	9
Total	..	271

On further consideration and after having had 1½ years' experience in Shimoga, I have come to the conclusion that 1st class dafadars are quite competent to hold inquests and preliminary inquiry in small and unimportant criminal cases.

Superintendent of Police, Tumkur District.

30th March 1906.

Judicial and Legislative (Police), dated 27th March 1908.

I approve of Mr. Krishna Rao's memorandum generally.

The present jamadars are mostly those who have risen from the ranks of constables and dafadars and these men are not likely to help us in gaining the improvement that is sought in the investigation of crime. I would propose to call them Head Constables and put them in charge of the Sub-Stations and have another grade of Police officers to be called Sub-Inspectors for charge of the Investigation Centres. Their salary might be put at Rs. 30 and Rs. 40 in 2 grades and the last grade of Inspectors on Rs. 40 may be abolished. The existing staff of jamadars may be absorbed in the Sub-Stations that are now proposed and they may be specially empowered to hold inquests. The dafadars should be put in charge of outposts instead of the ordinary constable who commands no respect. The salary of the dafadars can be considerably reduced by abolishing the two higher grades on Rs. 14 and Rs. 16 and adding a new grade on Rs. 10. Then we shall have two grades only of dafadars on Rs. 10 and Rs. 12. The dafadars will not be eligible for promotion to the grade of jamadar or Head Constable which should be recruited exclusively from the Police Training School and no jamadar will be qualified for promotion to the post of Sub-Inspectors unless he has passed the Inspectors' examination and has proved himself otherwise eligible.

* This is the Madras scheme, which is no doubt a good one, but unfortunately too expensive to be adopted in Mysore. F. C CARR.

Deputy Commissioner, Tumkur District.

NOTE.

Tumkur Taluk.—The main feature of the scheme for the Tumkur Taluk is the increase of 1 Lance dafadar and 10 constables to the strength of the Town Police Force which at present is found inadequate for the satisfactory performance of town beats. The town is extending in all directions and the new extensions are at present inefficiently guarded. Compared with the Shimoga Town which has a population of 6,240 and an area of 14 square miles the town of Tumkur is more thickly populated, showing an area of 10 square miles with 12,000 population. There are no correct data for instituting a comparison between the two towns as regards the average number of cases reported; because prior to the formation of new extensions the town cases used to be dealt with both by the Kasba and Town Stations. Yet the strength allowed to the Shimoga Town is 1 dafadar in excess of the strength proposed for the Tumkur Town. There are 21 palyas attached to Tumkur Town and they are scattered in all directions. Thus it will be seen that the strength now proposed barely meets the requirements of this growing town.

As regards the proposals relating to the adjustment of the Taluk Police Force, the physical peculiarities render the location of one Investigating Centre at Urdagere and another at Nelhal, in addition to the Kasba, necessary. The population of this Taluk excluding the Tumkur Town is 95,625 while that of Shimoga Taluk is only 66,772, the total number of populated villages in Tumkur Taluk being 483 as against 305 of the Shimoga Taluk. The number of cases reported in Shimoga Taluk is however shown as 80 while that for Tumkur Taluk works out an average of 49 cases. But owing to the varying methods of registration and to the fewer number of petty cases dealt with by the Tumkur Taluk Police in past years, this difference is almost inappreciable. An outpost is proposed to be located at Kora between Nelhal and Tumkur. The outpost at Solhunse (Nagenhalli) will be converted into an Ookad with 2 talawars, 2 out of the 3 Police constables now stationed there being posted to Tammenhalli outpost proposed to be newly opened midway between Koratagere and Urdagere. The result of these local adjustments will be to provide 3 Investigating Centres for the Tumkur Taluk with a jamadar in charge of each.

Pavagada Taluk.—The Taluk of Pavagada is surrounded almost on all sides by British Territory. The area is 532 square miles and the population is scattered in exposed villages along the frontier. The Police Force of the Taluk has heavy preventive work thrown on it; and the stations being far apart, I had thought of proposing 3 Investigating Ranges for the Taluk but in view of the increased

expenditure it would entail, I have divided the Taluk into only two Investigating Ranges maintaining the Sub-Stations at Tirumani, Arsikere, Bettadakelaginahalli and Bellibatloo There are pukka built stations and lines at Arsikere and Tirumani and decent stations at the other places. Bellibatloo station is about 9 miles from Hosakote and guards the tracts exposed to gangs from Parasurampur and Amrapur. Hosakote is an important trading place and it is the largest village on the frontier of Kalyandrug Taluk. I therefore propose to place a 1st class jamadar in charge of Hosakote range. No further curtailment of the Police Force of the Taluk is feasible with due regard to the interests of public safety . At present the Police is assisted in road-patrol duties by 12 Silledars. The roads to Madaksira, Roddam (Penukonda Taluk), Kambadoor (Ananthapur District), and Parasurampur (Challakere), are now patrolled by the Silledars; but these duties are so indifferently and irregularly performed by them, that it is better to convert them into mounted Police and bring them under the control and discipline of the Police Department. The Police have heavy calls on their resources in escorting Treasury remittances and prisoners to and from Maddagiri as the road passes through 10 miles of British Territory. The watching of gangs and bad characters is also of primary importance.

An excellent suggestion (Intd.) F. C.

Maddagiri Taluk.—Maddagiri is the Head-Quarters of a Revenue Sub-Division and the court of a Munsiff and 2nd class Magistrate is also located there. All the undertrial prisoners from Sira, Pavagada and Koratagere are brought up to Maddagiri lock-up where they have to be watched and escorted to Bangalore Central Jail after conviction. The short term convicts have also to be guarded at Maddagiri. Two extra men are required as court orderlies. The town has no separate Police. The proposal therefore makes the necessary provision for these extra duties.

The total increase is one 1st class dafadar and 8 men for Maddagiri Town.

The Taluk boundary marches in a line with that of Ananthapur District and the positions of frontier stations and outposts do not admit of alteration. The town of Maddagiri has a population of 4,060. One dafadar and 3 men are provided for town duty. The saving of men at some of the outposts is proposed to be utilized for strengthening the Kasba station by 2 constables, so as to enable the Head Station to meet the requirements as detailed above.

An extra Investigating Centre has been made at Midagesi with a jamadar in charge. The range includes Sub-Station at Ittikalibbanhalli and Kodigenhalli and an outpost at Chendrabhavi.

Koratagere Sub-Taluk.—These proposals provide for the requirements of the Koratagere Town and Taluk by the saving effected in the number of constables employed on village beats.

Tovinkere is a little out-of-the-way and a 1st class dafadar is left in charge of that Sub-Station to facilitate the holding of inquests and to provide at the same time for the supervision of Edigithi, Turhunse and Neglal outposts which are specially needed for the watching of gangs.

Saggere is converted into an outpost as the dafadar available at Holavanhalli may easily look after that outpost; the men left there can watch the gangs as well.

Chiknayakanhalli Taluk.—The Taluk of Chiknayakanhalli includes the abolished Sub-Taluk of Huliyar which was once a Taluk Kasba by itself. The physical peculiarities of the Taluk afford shelter to numerous gangs of Lambanies, Koracheis and Wodders who are related to gangs of doubtful repute residing in the adjoining Taluks of the Chitaldrug and Hasan Districts. It is therefore necessary to maintain a sufficient number of outposts with armed Police in ghat passes, etc.

The Investigating Centres will as at present continue to be maintained at Kasba and Huliyar with a jamadar in charge of each. Provision is made for giving 1 dafadar and 6 men for town duty at Chiknayakanhalli and 1 dafadar and 4 men are deemed necessary for guarding the Huliyar Town which is the favourite resort of several bad characters and professional thieves.

The mining operations now in progress near Bellara and Ajjigudde and the impetus given to the extension of wet cultivation since the construction of the big

tank at Borankanve, have attracted a large number of coolies from all parts. There are also several gangs to be carefully looked after by the Police at Bellara. It is therefore retained as a Sub-Station with a 1st class reliable dafadar in charge. Several of the outposts will be kept on as Ookads and manned by talwars only. Those that are retained as outposts are considered absolutely necessary for the safety of road traffic.

Sira Taluk.—The Taluk of Sira with an area of 597 square miles and a population of 77,604 is bounded on the north-eastern side by Madaksira Taluk of Anantha-pur District. The most important feature of the Police work of this Taluk consists in maintaining a vigilant watch over the movements of criminal gangs. There are several gangs of Korachers, Lambanies and Wodders settled all over the Taluk and their interrelations with the members of the criminal gangs residing beyond the frontier make it necessary to exercise constant supervision over their settlements.

The town of Sira is made up of several clusters of houses scattered apart. It has a population of over 4,000. The town should be adequately guarded. The strength of the Kasba Station receives an addition of only one constable. There is a saving of 3 men effected by the amalgamation of road and village beats and with 3 men taken from the Kasba Station as at present the town will be able to command the services of six men. The Kasba dafadar will look after both the lock-up and the Kasba Station and the other dafadar will look after the town duties etc.

Provision has been made to give two investigating officers to the Taluk with Head-Quarters at Sira and Hulikunte. It is in contemplation to remove the Hulikunte Station to the road-side near the 19th mile stone not far from Chik Hulikunte. Patnaikanhalli Station may well be removed to Kerevagalahalli which is midway between Hulikunte and Sira on the road to Amarapur.

Kunigal Taluk.—Huliyurdrug being an important central place and an old Taluk Kasba, will be raised to the position of a Head Station with a jamadar in charge. The 3 outposts attached to this station serve to ensure the safety of the ghat. There are several gangs to be watched. An investigating officer is also needed in the Amrutur Hobli to hold inquests, etc.

The Kasba range includes Yediyur Sub-Station and Nittur which will be hence-forth maintained as an outpost. The town of Kunigal has a normal population of 4,000 though owing to the appearance of plague the population has been shown in the last Census returns as 2,533. The Stud Farm maintains a large establishment at Kunigal and the town being situated along the Maddur-Mysore road at a point where the Tumkur road also joins it, the weekly market is well attended. The cart traffic is also heavy. The other dafadar given to Kasba Station will be available to lock-up charge and other miscellaneous duties.

Gubbi Taluk.—Gubbi Taluk has an area of 534 square miles and a population according to last Census of 87,468; including hamlets it has 520 villages. The present strength is redistributed so as to provide for one extra jamadar and a separate Town Police consisting of 1 dafadar and 7 constables. The population of Gubbi Town is about 6,000 and being a trading centre connected by Southern Mahratta Railway it is rapidly growing in importance.

Two Investigating Centres at Kasba and Chelur have been fixed for the Taluk. Kadaba being allowed a 1st class dafadar to aid the jamadar in holding inquests in villages a little far away from the Investigating Centre. Dodguni and Nittur are adjacent to the Railway line and are within convenient reach of the Kasba Station.

There is no need for a dafadar in each of these places. They are therefore converted into outposts.

Chittanhalli will be regarded as an outpost attached to Kadaba Sub-Station with Dandinasivara as its outpost nearer the Railway line.

The Chelur range will have Hagalvadi Sub-Station attached to it with the intermediate outposts at Puradaghatti and Kenchanhalli. The location of the Investigating Centre at Chelur is influenced by the important consideration that the Koracher settlement at Chelur has to be carefully looked after. It is also midway between Gubbi and Hagalvadi—a distance of 26 miles by road.

Tiptur Taluk.—Tiptur is a large trading centre connected by Railway. The weekly market is so popular that it is held for 3 days in succession. The population of the town is nearly 4,000 and it is necessary to provide a sufficient number of men under a dafadar for the satisfactory performance of town beats. The present strength of the Kasba Station is 22 and this strength is maintained in the proportion of 6 first class to 16 second class constables. One dafadar and 6 men will always be available for town Police duties.

The Amildar's proposal is for locating a jamadar at Honnavalli, but as Honnavalli is so close to Kasba and there is not much crime reported there, it is proposed to make Kibbanhalli an Investigating Centre. The roads from Chiknayakanhalli to Turuvekere and from Gubbi to Tiptur join near Kibbanhalli. The Railway Station at Banasandra is 4½ miles from Kibbanhalli and the safety of the traffic requires to be particularly attended to by the Kibbanhalli Station. For these reasons, it is desirable to keep a jamadar at Kibbanhalli rather than at Honnavalli which is easily accessible from Konehalli Railway Station to one or the other officer always available at the Kasba Station.

Turuvekere Sub-Taluk.—The Sub-Taluk of Turuvekere like that of Koratagere ought to be placed in charge of a 1st class jamadar and by the saving of men due to the amalgamation of road and village beats 4 men have been made available for town duty.

Mayasandra is a large village and being nearly 10 miles from Turuvekere and 12 miles from Yediyur of Kunigal Taluk, it is retained as a Sub-Station.

Dabbeghatta was added on to Turuvekere from Tiptur Taluk during the recent revision of the Revenue Hobli Circles. It guards the way frequented by gangs from Channarayapatna direction and may be continued as an outpost.

Proceedings of the Government of His Highness the Maharaja of Mysore,

HASSAN DISTRICT REORGANISATION SCHEME.

1. *Proposals.*—The proposals for the reorganisation and reallocation of the police force of the Hassan District, are clearly set forth in the memorandum of objects and reasons and the various statements of present and proposed scales, sub mitted by the Assistant Superintendent through the Deputy Commissioner.

2. *Opinions of all responsible officers.*—I toured through different parts of the Hassan District both in 1906 and during the current year, to acquaint myself with all localities; and when at District Head-Quarters last February, I consulted the Deputy Commissioner and the Assistant Superintendent, with regard to each and every change, which has now been proposed in the reallocation of the district force. All the Inspectors of taluks were also called in to Hassan, and were encouraged to give their opinions freely as to the needs of their respective charges.

The scheme now submitted to Government embraces the combined opinions of all these officers.

3. *Scheme.*—The scheme follows closely the lines indicated in the Shimoga scheme, which has met with the approval of Government.

4. *Reallocation in taluks.*—Every taluk, with the exception of Hole-Narsipur Taluk and the Alur Sub-Taluk, has been given two Investigating Centres instead of one, with a responsible jamadar in charge. The above named Taluk and Sub-Taluk are too small in area to require more than the present Investigating Centres.

As Government are aware, the Manjarabad Taluk has during the past few years earned for itself an unenviable notoriety in respect to murders and heinous crime. The area of the taluk also is large and means of communication difficult during the monsoon months. I have therefore proposed the location of a Sub-Inspector at Yeslurpet.

5. *District Reserve.*—The District Reserve has been strengthened and brought from twenty-three up to fifty men. This is absolutely necessary, to meet casualities, to escort prisoners, for patrol of high roads during the dacoity season, to attend jatras and to meet urgent calls of any kind.

6. *Office establishment.*—The office establishment also requires strengthening. Provision therefore is made for two extra jamadars and two dafadars for clerical work, one jamadar to be in charge of stores, and another to command the District Reserve.

7. *Drill Instructors.*—Provision is made to locate drill instructors at each Taluk Head-Quarters, (since altered *vide* para 4 of my letter No. dated July 1907) and one for the district reserve, on pay of Rs. 10 and Rs. 16 respectively.

8. *Scale.*—The increase and decrease between the present and proposed strength work out as follows:—

Present scale.	*Proposed scale.*
12 Jamadars, 50 Dafadars and 386 men.	2 Sub-Inspectors, 16 Jamadars 42 Dafadars, 8 Drill Instructors, and 384 Constables.

9. *Cost.*—The total extra cost entailed by these proposed changes, inclusive of the extra pay suggested for a Sub-Inspector, comes to Rs. 166 per month or Rs. 1,992 per annum.

Considering that since the first organisation of the Police in 1874, no increase has been made in the force stationed in the Hassan District; and considering the fact that the proposals made will doubtless tend to greater efficiency; and taking further into consideration the enormous sums which are now being allotted in British India for the improvement of the police generally, I think the Government may view the slight increase of allotment asked for with equanimity, if not satisfaction.

F. E. C. CARR,
Inspector-General of Police.

Judicial and Legislative (Police), dated 27th March 1908.

Letter No. 14, dated Camp, Gandasi, 4th April 1907, from P. R. W. Wetherall, Esq., Deputy Commissioner, Hassan District, to F. E. C. Carr, Esq., Inspector-General of Police in Mysore.

1. In forwarding herewith revised proposals *re* the Investigating Centre Scheme, I have the honor to state briefly as follows:—

2. The general features of the scheme are, that no crime shall henceforth be investigated by an officer below the rank of a jamadar and that the petty officers known as dafadars shall confine themselves only to routine duties. If at all, the dafadars will investigate unimportant and insignificant crime in which the property involved is not more than Rs. 10 or Rs. 20 in value. They will also arrange beats, hold inquests now and then, collect evidence and render all active help to the investigating officers.

3. By transferring all investigation work to highly paid officers, we may hope to put down to a very great extent corruption and inefficiency which are frequently hurled against the police, and which reproaches find distinct utterance in the last Indian Police Commission Report. The interest of the Government and the public alike will therefore be better served and secured.

4. With the exception of Hole-Narsipur Taluk and Alur Sub-Taluk which are too small and in which crime is comparatively light, all the taluks get an additional jamadar or in all, two jamadars each, under the new scheme as now put forward.

5. Having regard to the importance of the Manjarabad Taluk, the coffee industry and the frequent representation of the planters, it is proposed to create a new appointment by raising the post of jamadar to that of a Sub-Inspector on a salary of Rs. 30+16 and locate him at Yeslur. The proposal does not involve any extra cost to the State, it being only 30+16 in the place of 25+16. To many a deserving jamadar the appointment must be a stepping stone to Inspectorship, while it cannot fail to satisfy to some extent the demands of the planting community. The proposed Sub-Inspector will be a great relief to the Inspector at Taluk Head-Quarter.

6. Five extra jamadars are proposed for the district. The number of dafadars is reduced by eight.

7. The District Reserve has been strengthened from twenty-three to fifty men. All special duties such as patrolling high roads during the dacoity season, meeting casualties, escort, jatras, etc., will be undertaken by them. Three jamadars and six dafadars are allowed for the district reserve as against one jamadar and four dafadars.

8. Correspondence has increased by leaps and bounds. Every reform brings with it additional duties and responsibilities without any corresponding additional esblishment to cope with the ever increasing work. It looks as though the present establishment of four clerks was sanctioned for all time to come. Efficiency demands additional hands. Provision has therefore been made for one jamadar and three dafadars for clerical duties, one jamadar to be in charge of stores and a third the district reserve. These officers will also be available at times for the extra executive duties above described.

9. Drill is not every thing in the Police Department. But if efficiency and discipline, the end and aim of every reform and innovation, have to be enforced and maintained, drill must enter largely into the every day life of a Police officer. While it creates manliness and fosters *esprit de corps*, it does away with all slovenly habits, etc. There is no hope of improving drill, unless and until a competent Drill Instructor is given to every taluk. With this view, an instructor on Rs. 10 for each taluk and one on Rs. 16 for the District Reserve or, in all, nine Instructors have been provided.

10. The proposals involve an additional expenditure for the district of Rs. 221 per mensem or Rs. 2,652 per annum. Hassan, it will be observed, has received no extra police since the first organization. Considering its importance as a coffee growing district and safety of person and property we need not grudge to bear the extra cost.

11. The local conditions brought forward and urged by the Inspectors of the several Taluks have all been duly weighed and considered. Bearing in mind that the *pros* and *cons* of the scheme were threshed out threadbare during your recent tour in this district, there is hardly anything for me to add. I do not mean to suggest that our proposals are perfect. What our exact future requirements are likely to be, it is difficult to predict. Modification or revision, if any, must largely depend upon the exigencies of the service, the circumstances of each particular locality, and above all the signs of the times. In the conviction that investigation work will considerably be improved and good results would thereby accrue, I recommend the adoption of the scheme and its speedy introduction into this district.

12. The increase or the decrease in each Taluk and the District Reserve is explained in the objects and reasons attached hereto for favor of perusal and ready reference. A proposition statement together with subsidiary similar statements for the Taluks is also enclosed.

MEMORANDUM.

Objects and reasons.

Hassan Town.—The Town of Hassan though not so extensive in area as other District Head Quarter Towns, is fairly important and prosperous. More than 8,000 souls find permanent shelter in its narrow streets and still narrower lanes. The present strength of 12 men is barely sufficient to do the patrol and other duties in the town effectively. It is, therefore, proposed to increase the number by four men. Being a Head-Quarter Town a more responsible officer than a lance dafadar is called for. So a second class dafadar is proposed to help the jamadar in arranging the beats, etc.

Hassan Taluk.—Head Station: Hassan is centrally situated and commands no less than seven roads. The Kasba Head Station has now five stations attached to it and many villages are far removed. One jamadar cannot do justice to the investigation work, which under the new scheme will vest entirely in the hands of jamadars and officers superior to them. Having regard to the distances, and convenience of the people who resort to the Police for redress of grievances, it is proposed to give an additional Investigating Centre at Grama, which is an important village and on the high road to Bangalore. The Sub-Stations at Kattaya and Salgame will be attached to Kasba Hassan which will have also an outpost at Bylahalli, where there seems to be no necessity now, to maintain a Sub-Station. Grama will have Dudda attached to it. The strength of Kattaya will be reduced by 2 constables, and that of Dudda by 1 constable, and Bylahalli by 1 dafadar and 1 constable. The 4 men thus released will be given to the town of Hassan which requires an increase as already explained. By these arrangments the Taluk of Hassan, will have *two* Investigating Centres instead of *one* as at present the one at Kasba, and the other at Grama; both of which are centrally situated and are easily accessible to the Sub-Stations and villages attached thereto.

Alur Sub-Taluk.—There is only one change worth noting in this Sub-Taluk *viz.*, the conversion of the Sub-Station at Palya into an outpost, which reduces the strength by one 2nd class dafadar. There will be a corresponding increase of one man in Alur Kasba Head Station. Palya is only 4 miles from Alur and there is therefore no necessity to maintain a Sub-station there.

Manjarabad Taluk.—Of the two Malnad Taluks *viz.*, Belur and Manjarabad, the latter is certainly the more important. Only a few villages can boast of a large number of houses. Many of them are villages but in name. The geographical and physical features, the want of communications, the difficulties of locomotion, the important coffee industry with its European population and many other circumstances all require consideration from the standpoint of Police-administration. During the monsoon it is almost impossible to reach certain points and deal with crime. The incidence of crime in this Taluk is heavy. For many days there may be a lull, but all at once one gets a good crop to harvest. That has at any rate been our past experience in this Malnad Taluk. No drastic changes are however contemplated.

Judicial and Legislative(Police), dated 27th March 1908.

The Sub-Station at Byagadahalli will be converted into an outpost as the incidence of crime is comparatively light. Experience shows that it is difficult for one Inspector and two jamadars to deal with all the work of this taluk promptly and effectively. In the place of a jamadar at Yeslurpet, it is proposed to locate a more responsible officer *viz.*, a Sub-Inspector on Rs. 30+double horse allowance. The latter will relieve the Chief Inspector at Saklespur of inspection and other minor duties. The planting community have been pressing for an additional Inspector in this taluk. The appointment of a Sub-Inspector as proposed will satisfy their demands. The redistribution of charges and stations will give the Sub-Stations at Hanbal, Marnahalli, Belagode, and the outpost Ballu to Kasba Saklespur; while the outpost of Sukravarasante and Magge and the newly created outpost at Byagadahalli with the Sub-Station at Kenchamna Hoskote will go to Yeslur, the Head-Quarter of the present jamadar and of the proposed Sub-Inspector.

The Sub-Inspector at Yeslur will be subordinate to the Chief Inspector, as it is not, for obvious reasons, desirable to make the former wholly independent of the latter.

There is a great strain on the Police of Kasba Saklespur, who have a lot of work to do in guarding and escorting prisoners. For this additional duty four more men have been proposed for Kasba Saklespur. With these additional men it will be the duty of the Police of Kasba Saklespur, to escort all convicted prisoners direct to Hassan, without being relieved at intermediate stations as at present.

Belur Taluk.—As a malnad Taluk, Belur takes its rank after Manjarabad. There are in the Taluk many coffee plantations owned and managed both by European and native planters. These are mostly in the limits of Bikkode, Arehalli, Cheekanahalli and Tholal Sub-Stations. These stations are close to one another. Of these Bikkode and Arehalli alone can boast of pukka station houses and lines. The outpost at Cheekanahalli is in the building owned by Mr. Thammiah, a neighbouring coffee planter, and that of Tholal in a rented building.

The opening of the Gonebede road has increased the importance of Cheekanahalli, as it has correspondingly decreased that of Shanivarsante. Traffic has been considerably diverted towards Cheekanahalli, which will be converted into a Sub-Station. Not far off as it is from Cheekanahally there seems to be no longer any necessity to maintain another Station at Tholal, which will be converted into an outpost with two constables. Shanivarsante will similarly be converted into an outpost with three constables. Having regard to planting and other interests, Arehalli should be made into an Investigating Centre with a jamadar, who will look after the Sub-Stations at Bikkode and Cheekanahally and the outpost of Tholal. The Kasba Head Station will have under it the Sub-Stations at Halebede and Hagare and Shanivarsante outpost.

The Town of Belur requires some additional men to look after the fort and petta. The people have been complaining about the insufficiency of Police for night patrol duty. The Police have already enough to do in the way of guarding and escorting prisoners. Kasba Belur will therefore be strengthened by three men and one dafadar.

Arsikere Taluk.—This Taluk is conveniently divided into two ranges one at Arsikere, to take in the southern half of the Taluk; and the other at Banavar to take in the northern half. As there are a large number of gangs in the Taluk, and as the Taluk is also important being as it were the gate of the District no decrease in the establishment is possible. By reducing Javagal into an outpost it has been found possible to allow more men for Arsikere Town. Four extra men have been given to the Town for escorting prisoners sent from all parts of the District to Bangalore. The Sub-Stations at Gandasi and Harnahalli will, as before, continue to be Sub-Stations as they are on important roads. A pukka Station is necessary at Gandasi, as the present Station is located in an old building. There are no lines at Banavar. The Station house is located in an old Taluk Cutchery building. Instead of allowing the old building to go to ruins it would be well to spend some money on it and convert part of it into lines for the men. This has already formed the subject of a separate communication.

The village of Bagade is almost midway between Hassan and Arsikere on the high road. For the better protection of the road and having regard to the jungly character of the surrounding country an outpost will be located at Bagade with two men.

The Investigating Centre at Kasaba Arsikere will have the Sub-Stations at Harnahally and Gandasi and the outposts at Karikalwarti and Halkur attached to it. Similarly Banavar will look after Javagal, Garudangiri and Kankatte.

Channarayapatna Taluk.—This is one of the most important Taluks in the District. The Town is divided into two parts. It is under-policed. There are not enough men to patrol the town, roads, or to guard lock-ups or for other duties. The force should be strengthened by at least four men. Nuggihalli, Sravanabelagola and Hirisave are important villages. Sravanabelagola is noted for its huge image of Budha and a place of Jain pilgrimage. A large concourse of devotees wend their way thither. The Jain merchants here trade largely in copper and brass vessels. Stolen copper and brass utensils are suspected to find their way to this place. There is a road, which connects Channarayapatna and Sravanabelagola. Hirisave is another important village on the Bangalore road. So also Nuggihalli on the Tiptur road. People from remote villages must certainly find it inconvenient to go all the way for redress to Taluk Head Quarters. By converting Nuggihalli into an Investigating Centre, a long felt want will be supplied. There is no crime in Bagur which may be converted into an outpost and located at Muddanahalli on the Channarayapatna-Arsikere road with four men. Dandiganahalli will be converted into an outpost and the Sub-Stations at Karehalli and Hirisave will remain as heretofore. Dandiganahalli and Muddanalli will be attached to Kasba Head Station; and the Sub-Stations of Sravanabelagola, Hirisave and Karehalli to Nuggihalli, which is badly in need of a pukka Police Station with lines, for men.

Hole-Narsipur Taluk.—The importance of Hole-Narsipur is due mostly to its weaving industry and wet cultivation. The town has a fairly large population and is divided into two parts, petta and fort. The present strength of the Kasba Station is not enough to do the patrol duty or guard and escort of prisoners. During the monsoon the traffic to Arkalgud passes mostly through Hole-Narsipur as the river Hemavathi is bridged here. There is no bridge between Hassan and Arkalgud at Gorur, where there is a ferry and a boat. Leaving aside Hole-Narsipur there is not much to say about the other Sub-Stations, *viz.*, Halekote, Kabbur and Gubbi. Of these Sub-Stations, Halekote is important as it is on the Hassan-Hole-Narsipur road. Kabbur and Gubbi are far removed from Hole-Narsipur. Dodkadnur is a pretty large village. It will be better to remove Kabbur Station to Dodkadnur. Till, however, funds are available to build a station, the Station may be allowed to continue at Kabbur. There is no necessity to maintain another Station at Gubbi, which will be converted into an outpost with four men. Kabbur will have instead of 1 second class dafadar and 6 men, 1 second class dafadar and 5 men. The strength of Halekote will be reduced by 2 men. Out of the men set free by these reductions, Kasba Hole-Narsipur will be given 1 dafadar and 3 men in addition to the existing strength, which should be sufficient to do the duties named above. The Taluk of Hole-Narsipur will lose one man.

Arkalgud Taluk.—The town of Arkalgud is a trading centre with a number of Vaishyas, etc. It is divided into two parts, *viz.*, petta and fort. Besides Arkalgud, there are three other important villages, *viz.*, Konanur, Basavapatna and Ramnathpur. Konanur is contiguous to the Coorg frontier and the road leads to Fraserpet. Considering its proximity to the Coorg frontier, it is desirable to have an Investigating Centre at Konanur. If this be done there is no necessity to have a Sub-Station at Basavapatna which is close to Konanur. Basavapatna may be converted into an outpost with two men. This and the outpost at Gangur which will be located on the other side of the Cauvery at the junction of the Hassan and Yedatore roads, will be attached to Konanur, which is not far from Ramnathpur where there are important temples, and where a "jatra" lasting for some weeks is held annually. The present Station house at Konanur is located in a Chattram. It has no lock-up or other accommodation. As a temporary measure necessary alterations have been made. As Konanur becomes, under the new scheme, an Investigating Centre, a

pukka station with lines is absolutely necessary. The present Sub-Station at Mallipatna on the road to Kodlipet will remain as it is. A musafirkhana has also come into existence lately at this village. There is also a good drinking-water well. Accommodation is not easily had. The present building is enough for all our purposes. Lines for the men which may be of the stone mantap pattern or a tiled roofed building are required. The Station will be in the Kasba Range.

Proceedings of the Government of His Highness the Maharaja of Mysore,

Note on the Kadur District.

The memorandum of the Assistant Superintendent, Mr. Ramaswamaiya, sufficiently explains the objects and reasons which he, in consultation with the Deputy Commissioner and myself, made in 1906. Since then, however, I have been enabled to visit all the Taluks of the District again on tour, during the current year, when I again went through the new scheme with the local authorities, with the consequence that I have made certain modifications in the former proposals. These are not however of a very important nature and merely refer to details. The amendments we now propose are clearly defined in my notes on the Assistant Superintendent's memorandum.

It is with great satisfaction that I would call the attention of Government to the fact that although I propose to considerably increase the number of officers and men of the District Reserve, to add to the number of jamadars as responsible officers in charge of Investigating Centres and have reallocated the men all over the District, so as to make their work more useful and efficient, I have been able to do this with a total savings to Government of some 79 rupees per month or nearly 950 rupees in the year.

Letter No. 6737—Mis. 830, dated Bangalore, 26th March 1907, from F. E. C. Carr, Esq., Inspector-General of Police in Mysore, to Lt.-Col. J. Desaraj Urs, Chief Commandant, Mysore State Troops, Bangalore.

I have the honor to state that during my inspection of the Chikmagalur Head-Quarter Police Office, it was brought to my notice that four constables are being daily deputed for guarding the Taluk Treasury at Chikmagalur. I was informed that the Barr contingent refused to furnish the necessary guard as it was not customary.

I cannot say how this has come about but I would point out that there is a full company of the Barr at Chikmagalur, and that all other Taluk Treasuries are guarded by them.

As Police guard cannot be furnished without detriment to their other duties, I request the favor of your kindly providing a barr guard for the Chikmagalur Taluk Treasury as in the cases of all other Taluks.

Letter No. 3830, dated 17th June 1907, from Lt.-Col. J. Desaraj Urs, M. V. O., Chief Commandant, Mysore State Troops, to F. E. C. Carr, Esq., Inspector-General of Police in Mysore.

In acknowledging receipt of your letter No. 6737—Mis. 830 of the 26th March last, I have the honor to state that the Regiment at Shimoga, a detachment of which is sanctioned at Chikmagalur, is much short of strength and cannot therefore take up the Treasury Guard duty at Chikmagalur Taluk at present.

Orders will however be issued to take up this duty when the Regiment comes up to the full strength.

Letter No. 418, dated Chikmagalur, the 25th March 1906, from M. Chengiah Chetty, Esq., B.A., Deputy Commissioner, Kadur District, to F. E. C. Carr, Esq., Inspector-General of Police in Mysore.

As called for in your letter No. 1788—82, dated 19th September 1905, I have the honor to submit herewith for sanction my proposals in the prescribed forms I to V for the reallocation and redistribution of the District Police Force in forming the Investigating Centres.

2. Having regard to the extent, population and the average occurrences of crimes in the several Taluks, 14 Investigation Centres have been formed in the District and the force has been redistributed effecting a monthly savings of Rs. 38.

3. In the Tarikere Taluk, a Sub-Station at Ghantekanve and an outpost at Germudi have been abolished as they are considered no longer necessary for the reason that these are situate very near Tarikere on the road side, the traffic on this road being considerably lower after the opening of the Birur-Shimoga Railway line.

Judicial and Legislative (Police), dated 27th March 1908.

The Karehalli outpost of the Shimoga District is besides within a mile and a half of the Ghantekanve station.

4. The District Reserve has been strengthened by the addition of one jamadar, one dafadar and eight constables to the existing number. The jamadar and dafadar will be used as relieving officers and also to meet other exigencies in the several Taluks.

5. The constables hitherto detailed from the Special Reserve, Bangalore, for guarding the Sringeri Matt having been withdrawn, provision has been made for getting this duty performed by the District Reserve men. This arrangement not only removes the inconvenience of sparing men from the Special Reserve every now and then but also avoids unnecessary expenditure hitherto being incurred for them.

6. The supervision of the Sub-Station at Antaragatte in the Kadur Taluk, will be given to the jamadar of Ajjampur Range of Tarikere Taluk, as the Station is conveniently connected by a road and is nearer to Ajjampur than Kadur.

7. A tracing of the District map showing the proposed Investigating Centres, Sub-Stations and Outposts is also enclosed for reference.

8. From statement III enclosed it will be observed that under the proposed scale, each Sub-Station will have a 1st class dafadar empowered to hold inquests, etc., and each of the Taluk Kasba Stations is provided with a 2nd and 3rd grade dafadar, the last grade man being meant to be a trained Drill Instructor.

9. A memo of the Assistant Superintendent is enclosed for kind perusal.

MEMORANDUM.

In submitting proposals for constituting Investigating Centres and in redistributing the Police in the Kadur District, the changes made in the present allocation, etc., are explained below :—

Chikmagalur Taluk.—There are two Head Stations for the present, one in the Kasba and another in the Chikmagalur Town. This is a very extensive Taluk with a greater part of its west and north as Malnad with high hilis. The longest radius from the Taluk Kasba is in the western direction. It is therefore found necessary to have an Investigating Centre in this direction.

Aldur which is now a Sub-Station is an important village at a distance of eleven miles from Chikmagalur. It is at the junction of three important roads and has a fairly large market. There is plenty of police work too. The station and lines are well-built. It is therefore proposed to make it an Investigating Centre.

Kanathi which is nine miles from Aldur on the Koppa road, is a very insignificant place. It has only one road to beat and some malnad hilly villages to look after. Very few cases are reported from here. Thus it is proposed to be reduced to an outpost.

Lingenahalli which is nine miles from Chikmagalur on the Tarikere road, is now a Sub-Station. There is only one road to beat and a few coffee estates to be visited. There is not much crime reported. It is therefore proposed to be reduced to an outpost under the Kasba Investigating Centre.

*Attigundi which is a small village on the Bababudan hills has a Sub-Station now. There is very little to be done and that little too cannot be looked after satisfactorily during the rainy season. Only a few coffee estates have to be visited occasionally during the picking season. Very little crime is reported from here. Thus it is also proposed to be reduced to an Outpost as it practically stands now. Although it is fourteen miles from Chikmagalur by the zig-zag ghat road it is only nine miles from the footpath.

*NOTE.—On reconsideration, and seeing what a wild hilly country is in the Attigundi jurisdiction, it is proposed to keep a dafadar here, and retain it as a Sub-Station. F. C.

These are the only changes proposed for this Taluk, The other Sub-Stations and outposts are left intact. The allocation of men is also adjusted according to the actual requirements.

Kadur Taluk.—Yagati the most central of the existing Sub-Stations lying to the east of Kadur is proposed to be made an Investigating Centre. This is twelve miles from Kadur by cart-track.

Kunkanad is retained as a Sub-Station owing to its long distance from Yagati, besides being on an important route for criminal gangs from Tumkur, Hassan and Chitaldrug Districts on their way to the Malnad during the hot season. Antaraghatta is called a Sub-Station but is practically treated as an Outpost. It is only seven miles from Ajjampur on the high road to Hosdurga. Very few crimes are reported. But being on the route march for gangs going towards the Malnad and having a few Kormar settlements in the vicinity, its retention as an *outpost* is considered desirable. Being the last village in the Kadur Taluk the supervision of this outpost is best left to the jamadar of Ajjampur.* It is too far from either Yagati or Birur Sub-Stations.

*NOTE.—Being in the Kadur Taluk and in the Yagati Investigating Circle it will be worked from Yagati.

The other Sub-Stations and outposts remain as they are. The allocation has been adjusted according to the amount of work to be attended to. The present strength being rather too much it has been cut down to the extent necessary.

Tarikere Taluk.—The two Head Stations of Tarikere and Ajjampur are made Investigating Centres. The Town of Tarikere had a Sub-Station of its own. This being unnecessary for a small town like this it has been changed to an outpost retaining its usual strength for beats, etc. The outpost of Germardi is only three miles from Tarikere on the Birur road. As it is arranged to send two men from the Kasba to patrol this road every day this outpost is deemed unnecessary and is to be abolished. So is the Sub-Station at Ghantekanve on the Shimoga road. It is only five miles from Tarikere and one and a half miles from the Karehalli outpost of the Shimoga Taluk on the same road. This will be retained merely as an outpost. Two constables from the Tarikere Kasba will be sent every day to patrol this road and to take rest in the present Station building. The traffic on this road is very low after the Shimoga Railway line was opened.

Jodakatte is a Sub-Station now. It is between Birur and Tarikere on the road side. Hardly any case is reported in a year in this Station. A part of an old musafirkhana is used for Station and lines. It is therefore proposed to reduce it to an outpost under Ajjampur which is only six miles from Jodakatte by a short cut.

This Taluk having been found slightly overpoliced a reduction in the total number of constables and dafadars is effected according to actual requirements.

Yedahalli Sub-Taluk.—Although the number of cases reported here is low, the long distances and other inconveniences peculiar to the Malnad render it necessary to have another Investigating Centre at Balehonnur, besides the one at Yedahalli. Balehonnur is twenty-four miles from Yedahalli, and is on the main roads to Koppa, Kalsa and Mudgere. It has a number of rich coffee estates all round, and a good market.

Hipla is now a Sub-Station between Yedahalli and Muthodi. Although it is situated just on the borders of the Chikmagalur Taluk, its supervision is given to the Yedahalli Sub-Taluk as it is only eleven miles from Yedahalli, while it is twenty-eight miles from Chikmagalur. There is only one road and a few unimportant coffee estates to be looked after. A dafadar is simply wasted here. Very little crime is reported being in the heart of the Jagar valley with a sparse population. It is therefore proposed to reduce it to an outpost. The same applies to the Sub-Station at Magundi. It is only seven miles from Balehonnur on the Kalsa road. Very few cases are reported. There is no work for a dafadar. It will be reduced to an outpost. The other outposts stand as they are. The total number of men is reduced by two constables.

Koppa Taluk.—The Head Stations at Koppa and Sringeri are made the two Investigating Centres. Each of these being at one end of the Taluk and the outpost of Basarikatte and the Station of Sollebyle being out of reach from either of the aforesaid two centres, it is proposed to have an Investigating Centre at Sollebyle.*

*NOTE.—Sollebyle is within easy reach of Koppa (Balgaddi); on reconsideration, and on again consulting with the District officers, it is found that Sollebyle can be worked as a Sub-Station in charge of a 1st class dafadar.

Judicial and Legislative (Police), dated 27th March 1908.

This place is on the high road to Koppa, Sringeri and Agumbe. It has a large weekly market and is in the midst of several important coffee estates. The number of cases usually reported from this station is also fairly large. The outpost of Agalgandi will also be added to it. The following Sub-Stations are proposed to be reduced to outposts :—

(*a*) Kigga is only six miles from Sringeri and hardly any case is reported from here. There is only one road to be looked after. Only a 1st class constable has all along been in charge of this Station. Thus it is proposed to reduce it to an outpost. Kigga is a large village and has a celebrated temple. Some sowkars live all round. Korchar and Vaddar gangs visit these places during the hot season for trade. Hence the necessity to keep on this outpost.

(*b*) Begar is only eight miles from Hariharpur on the Agumbe road. The constables have three roads to look after. There is not much crime reported from here.

(*c*) Agalgundi which is a Sub-Station now is only five miles from Sollebyle. There is no work for a dafadar. It will therefore be reduced to an outpost with three men.

Excepting the above changes the rest remain as they were. The allocation of men has also been regulated by the work they have to do.

Mudgere Taluk.—Kalsa is nearly forty miles from Mudgere. It is a place of pilgrimage and has a large market. There are numerous coffee and arecanut estates all round. The number of cases reported is fairly large. It was once the Head-Quarters for a peshkar and latterly a jamadar has been located here. Hence it is now proposed to make it an Investigating Centre with Javali as a Sub-Station and Herebalalu outpost attached to it.

Banakal which is seven miles from Mudgere on the Mangalore road is now a Sub-Station. This appears to be unnecessary. It can be well reduced to an Outpost * with three constables to look after the road beats and the weekly market that is held there.

* NOTE.—On reconsideration and seeing that a very important market is held here, *Banakal* has been retained as a *Sub-Station*. F. C.

Two constables of the Banakal station are now being deputed to watch the traffic at the Boondghat Toll-gate near Kottigehar. This will be hereafter recognized as the Kottigehar outpost under the Kasba Investigating Centre. The rest remain as they are.

District Reserve.—This is very inadequate. Besides the men deputed for orderlies, there are very few left to look after the following duties :—

(1) Treasure escort :—

There is a constant demand for policemen for this work. Almost every month remittances are received from Kadur to Chikmagalur and sent on from Chikmagalur to Koppa and Mudgere. Sometimes remittances are started simultaneously in different directions and on such occasions the District Reserve has to be supplemented by withdrawing men from Taluks. Policemen* are very frequently asked for to supplement even the Barr Guard at the District Treasury.

* NOTE.—The fact is the Barr Guard stationed at Chikmagalur are wholly inadequate to carry out half their duties: hence the constant demand for help from the Police. F. C.

(2) Lock-up guard and escorting prisoners to Courts and to the Bangalore Jail.

The District Lock-up having only six men as warders, the Reserve Police are often asked to supplement the guard when the number of prisoners runs high or when dangerous criminals are kept there. *One dafadar and from 4 to 6 men are very frequently required to escort prisoners to the Central Jail at Bangalore to prevent* over crowding in the District Lock-up. The duty of taking prisoners to court every day for trial devolves on the District Reserve.

*Thus no men are left to take up special road and jungle patrols when dacoities etc., occur in the District or when the movements of criminal gangs are to be more efficiently watched to prevent serious crimes.

* NOTE.—Besides this we have no men to meet casualties; such as men on leave, sick, absent, etc., nor men ready for emergencies such as riots, plague, etc., etc. Being a Malnad District casualties are exceptionally numerous. F. C.

Proceedings of the Government of His Highness the Maharaja of Mysore,

*Hence the District Reserve is proposed to be strengthened in the way shown in the accompanying statements. One extra jamadar and one extra dafadar are given to the District Reserve.

*The District Reserve has been strengthened by two jamadars, two dafadars and twenty-two men. F. C.

A separate staff of one dafadar and six men have to be maintained for watching the Sringeri Matt and all these men will have to be taken from the District Reserve. This is found necessary from the large area covered by the Matt premises and the numerous Tottis or halls which are to be watched. A few Barr Sepoys guard only the Treasury and the jewel room. The Police guard the Motikhana, Library, and Sri Saradamba Totti, where a lot of valuables will be kept for every day use. The everstanding dread of the Matt being an object of depredation by the Kandaries, who very frequently appear in these parts on pretensions of selling asafœtida, shawls, etc., has necessitated this special guard from a long time.

Judicial and Legislative (Police), dated 27th March 1908.

Note by the Inspector-General on the Investigating Centre and Reallocation Scheme of the Kolar District.

1. Having been Deputy Commissioner of this District for four years, I am intimately acquainted with all local conditions and requirements.

2. *Investigating Centre.*—The proposed scheme gives us 15 Investigating Centres, 21 Sub-Stations, and 12 Outposts for the District, as against the present 11 Head Stations, 31 Sub-Stations and 3 Outposts I consider the Investigating Centre at Irgampalli in the Chintamani Taluk unnecessary, as Chintamani Town is in the centre of the Taluk and crime in the Taluk is light. The area of the Taluk is 271 square miles but the northern part of the Taluk is sparsely populated and barren. A first class dafadar at Irgampalli, empowered to hold inquests is quite sufficient. This is the only modification I have made in the scheme as proposed by the Assistant Superintendent and Deputy Commissioner, except that I have added one 1st class jamadar and one 2nd class dafadar to the District Reserve, as I consider both these extra hands are necessary to enable the Head-Quarter office to cope with the increasing correspondence and returns, and to give one extra officer for charge of the District Reserve.

3. *District Reserve.*—The District Reserve has been strengthened by 18 men, bringing it up to 40 men in all. This is less by 10 men than the Reserves proposed for Hassan and Kadur, and 20 less than for the Chitaldrug, Shimoga and Tumkur Districts: but the Kolar District (excluding the Gold Fields Range) is small in area and the District Reserve has fewer calls on it than in any other District. Furthermore the Gold Fields Force, which is under the orders of the same Deputy Commissioner, is a very strong one, armed with breech-loading muskets, and stationed only 20 miles from Kolar Town. There is also a permanent detachment of the Special Reserve Police of 10 men and a Havildar at the Gold Fields.

4. *Drill Instructors.*—The scheme makes provision for Drill Instructors for all Taluks on pay of Rs. 10 each.

(Since altered: vide para 4 of my letter No. dated July 1907. F. C. Carr.)

5. *Scale.*—The present scale is 12 jamadars, 49 dafadars and 358 men. The proposed scale gives the District, one Sub-Inspector, 17 jamadars, 38 dafadars, 8 Drill Instructors and 353 men.

6. *Town Police.*—Extra men have been allotted to the towns of Goribidnur, Bagepalli, Srinivaspur, Sidlaghatta and Chikballapur, as these towns are rather undermanned at present.

7. *Cost.*—The new scheme will cost Rs. 101 per mensem more than the present sanctioned allotment.

Letter No. C. 261, dated 16th March 1907, from C. Srikanteswara Iyer, Esq., B.A., B.L., Deputy Commissioner, Kolar District, to F. E. C. Carr, Esq., Inspector-General of Police in Mysore.

In forwarding herewith, letters Nos. 105, dated the 4th February, and 565, dated the 4th March 1907, from the Assistant Superintendent of Police, Kolar District, and the District Superintendent of Police, Kolar Gold Fields respectively, together with their enclosures, *anent* the Investigation Centre Scheme, I have the honor to state that I am in full accord with the proposals made by the District and Assistant Superintendents of Police, and consider that the scheme has been thoughtfully worked out and may be adopted subject to retaining Dodkurgod as a Sub-Station, for reasons I have mentioned in the report, or with such modifications as may commend themselves to you.

2. Considering the importance and utility of the scheme, the net increase in expenditure of Rs. 1,248 per annum, practically for the whole District, I consider, is very moderate, consistent with the safety and requirements of this somewhat criminal District.

Rs.
1,176 for Kolar District proper.
72 for Gold Fields Circle.
1,248

3. I regret the delay in submitting the proposals, as I was anxious to study for myself the local conditions during my tours, and deferred expedition to allow my Superintendents requisite time to get themselves acquainted with the local needs and to permit of discussions between them and me.

Proceedings of the Government of His Highness the Maharaja of Mysore,

Docket No. 105, dated 4th February 1907, from M. P. Viswanatha Rao, Esq., Assistant Superintendent of Police, Kolar District, to F. E. C. Carr, Esq., Inspector-General of Police in Mysore, thro' *the Deputy Commissioner, Kolar District.*

In obedience to your personal instructions to me and in continuation of this office No. 146, dated 18—19th September 1906, submitting proposals of the Investigating Centres, I have the honor to state that I read carefully the proposals submitted by Mr. Vedantadesigam Iyengar who has taken great pains in drawing up a scheme for the District and I have also taken similar pains in modifying some of his proposals.

2. Accordingly the scheme gives us 16 Investigating Centres, 18 Sub-Stations and 14 outposts for the District as against the present 11 Head Stations, 31 Sub-Stations and 3 outposts.

3. *Kolar.*—The Kolar Taluk will have 3 Investigating Centres, one at Kolar for the town, the other for the Kasba and the third at Sugatur. The present Tambehalli and Patna Sub-Stations will be tacked on to the Kasba centre. Tambehalli will remain a Sub-Station, but Patna will be converted into an outpost and another outpost will be opened in addition at Vakkaleri. This place is about 9 miles from Kolar and an important one too. There are also many big villages near by and the Malur frontier is within 3 miles of it. So it is desirable to open an outpost here. All these will be under the charge of the Kasba centre jamadar. In any case this officer will not have more than 10 miles at a stretch to travel over. Many important villages such as Manighatta, Patna, Hottur and Vakkaleri will be under his jurisdiction.

4. Sugatur is at present the last village on the southern side of the Madamangala Sub-Station, and a big one being rather near to Kolar within 6 miles. When it becomes the Head-Quarters of the 3rd centre in the Taluk, the present Sub-Station at Madamangala will have to be abolished. The present Sub-Stations at Muduvadi and Vemgal and the Kyalnur outpost will be tacked on to its jurisdiction. Similarly to the Kasba centre; the jamadar then will have the maximum distance of 10 miles to travel through. He will have also the important villages of Vemgal, Holur, Kyalnur and others to look to.

5. The Kolar centre will have jurisdiction over the Town. Being the District Head-Quarters it is important in very many ways. Many roads radiate from this place in different directions passing through many of the Taluk Head-Quarters of this District and Province and is also on the high road to Madras. The Gold Fields being so very near attracts also many an undesirable character. Hence the local investigating officer will have no easy time throughout.

6. *Srinivaspur.*—Srinivaspur Taluk is a comparatively compact Taluk and oblong-shaped. The Taluk Head-Quarters is more on the southern side of it. Rayalpad is 18 miles distant on the north-east corner along the road. It is proposed to have 2 centres here one at each place respectively.

7. The present Sub-Stations of Tadgol and Yeldur will be converted into outposts respectively and attached to the Kasba centre. The jamadar here will have ample work to do as the populous villages of Dalsanur, Yeldur, Edarur, Ronur, Tadagol and others are within this jurisdiction.

8. The present Sub-Stations at Gownpalli and Pulgurkote having the important villages of Yerkalne, Adagal, Nelvanki and others, will be added on to the Royalpod centre. A long chain of hills passing from north to south is roughly the boundary between this Taluk and the Madras Presidency. Naturally it attracts many roughs giving trouble to the Police. The troublesome Sunnakal comes within this range. Hence a centre is proposed to this tract and to be located at Royalpod.

9. *Chintamani.*—Chintamani is an important Taluk and is inconveniently shaped. The northern portion coming under the jurisdiction of Iragampalli Sub-Station and the Murganahalli outpost forms an isosceles triangle fitting its southern base with that of the Chintamani Head Station. The Chintamani Kasba Station and Talagavar Sub-Station form a compact tract of country. Talagavar being near to Jangamkote Sub-Station has to keep watch on the *santhes* and the troublesome

characters who frequent Hindeganal and Sulebele of the neighbouring Bangalore District and Chintamani is a big trading Centre. Therefore the jamadar in charge of the Kasba centre will have a good deal of work.

10. The other centre is to be located at Iragampalli with the outpost attached to it. The officer here will have ample work in looking to crimes in his jurisdiction and to watch the British border in the north.

NOTE.—I hardly think this Investigating Centre is required—the Chintamani Taluk is a small one—and Iragampalli is quite close to Taluk Head-Quarters. It will be continued as a Sub-Station in charge of a 1st class dafadar. F. C.

11. *Sidlaghatta.*—Sidlaghatta is an important and a narrow strip of a Taluk, dividing the District into a northern and a southern half respectively standing as a buffer between the two. It has got 4 main roads dividing it vertically. One is the Chelur-Chintamani road passing through the eastern portion. The Chintamani-Bagepalli road cuts in the west at some distance. The Kolar-Chikballapur road passes through the Kasba while the narrow bit of a road to Jangamkote intersects it in the south. But the country between these roads is barren and rough except bits under the tanks. The Kasba centre with Jangamkote Sub-Station comprises many villages in the middle and southern portions of the Taluk.

12. I want to propose a centre at Burudukunte as the country around is fit to harbour criminal tribes on account of its rugged nature. Burudukunte is so situated as to command the Stations of Dibburhalli, Ganjigunte and Sadali at convenient and equal distances each and is also within easy reach of Chilkalnerpu adjoining the British border. To crown all, this place is over 25 miles distant from Sidlaghatta. Hence its importance as the second centre for the Taluk.

13. The present Sub-Station of Ganjigunte is midway between Chintamani and Dibburhalli, and Chintamani is only 7 miles distant from Ganjigunte. This may be converted into an outpost and attached to Burudukunte along with Dibburhalli and Sadali outpost.

14. *Chikballapur.*—Chikballapur is the smallest but an important Taluk. It is also a compact one like Srinivaspur. The town is the second largest in the District after Kolar and even more important. So we should have a town centre separately just as we have at present in the Kolar Head Station.

15. The other centre comprises the whole of the Taluk except the town according to the proposed scheme. The present Sub-Stations will be attached as at present to this centre. The only changes will be the abolition of the Nandi Sub-Station which will be converted into an outpost as it is only within 4 miles from Chikballapur and is only important during the jatra towards the end of February, "Magha Masam". (Virathimanaghatti) Mandikal and Pyalgurki Sub-Stations should continue as they are, situated at convenient distances, and having jurisdiction over important villages of the Taluk. The officer in charge will not have any great distances to travel. Virathimanaghatti commands the ghati portion of the chain of hills forming the western boundary of the Taluk. There are hamlets lying scattered over hills and dales which can be used by criminal gangs as a good cover. So it is important at least as an outpost.

16. *Goribidnur.*—Goribidnur is a large and populous Taluk. This is the only Taluk traversed by railway on this side of the District. It has also a large frontier in its northern boundary. I propose to have two centres here—one for the Kasba and the other at Manchenahalli. The Kasba centre will have the Hosur, Vatadahosalli and Dodkurgod Sub-Stations to control. Dodkurgod being so very near to Goribidnur, being only 5 miles distant and commanding a comparatively small number of villages may as well be turned into an outpost. The only consideration against this step may be that Vidarasvatham is rising in importance and invites large number of devotees from different parts. Again its being so very near Hindupur and the British frontier will be an argument against this step. The outpost controlled by the Kasba Station will contribute effectively towards prevention and detection of crime.

I would retain this as a Sub-Station for these reasons and also because we have lately opened a "Golaka" or a sort of charity box wherein a large number of devotees drop in their mites for the benefit of the institution which has to be efficiently protected—and prevention is better than cure, (Id.) C. S.

I concur.

1 dafadar can be spared from Head-Quarters, Kolar.

(F. C. Carr)

17. The other Investigating Centre is proposed to be located at Manchenahalli. This will command all the villages forming the southern portion of the Taluk and comprise within its limits Namagondlu and Tondebhavi Stations. As Namagondlu is very near Goribidnur, Vatadhosahalli and Manchenahalli, it can be conveniently turned into an outpost and attached to the Manchenahalli centre. Manchenahalli is an important and troublesome village and there are about a dozen similar villages surrounding it. Hence this is proposed as a second centre.

18. *Bagepalli.*—Bagepalli is the northernmost Taluk of this District commanding the largest mileage of British borders. A chain of hills divides the Taluk into an eastern and western portion respectively. It has already two Head Stations at Bagepalli and Pathapally. These will be converted into two Investigating Centres. The Kasba centre will be divested of the Guttapalya Sub-Station as it is on the other side of the chain of hills. The other Sub-Stations of Marganakunte and Mittemari will be attached to Kasba as at present.

19. The Pathapalya centre will have Guttapalya, Chakvel Sub-Stations under it. The only change proposed is to convert the Palyakere Sub-Station into an outpost and have Chelur as an additional outpost. Having two such outposts will effectively check the inroads of criminal gangs from outside into the Taluk. Chelur is in the south-eastern corner of the Taluk near the British frontier. An outpost is very essential. The most northern village is not more than a dozen miles distant from Pathapalya which on this score simplifies the investigating officer's toils to a great extent.

20. *Gudibanda.*—The Gudibanda Sub-Taluk is a small bit of 80 and odd square miles in extent. Its villages are very inconveniently situated giving the Sub-Taluk a very irregular shape. This means the distances between villages are often very great. Under the proposed scheme it will have only one centre at the Taluk Head-Quarters and the Sub-Station at Varalkonda attached to it.

21. *Increase of constables in Taluk Head-Quarters.*—In some of the Taluk Head-Quarters the number of constables allotted for town duty is inadequate. Thus Chintamani has between 2 and 3 men for this duty. In Goribidnur I learnt that 1 constable was detailed for beat duty for the first half of the night and 2 for the other half. Therefore a small addition of a couple of men each for Goribidnur, Chintamani, Bagepalli, Gudibanda, Srinivaspur and Sidlaghatta is necessary and proposed accordingly *vide* appended statement.

22. *District Reserve.*—The District Reserve requires additional men. The present staff of 2 jamadars, 4 dafadars and 22 men is insufficient for our present purposes. There are many Magistrates' Courts located in Head-Quarters; the Sessions Judge has to come for every Sessions. The escort and guard of prisoners during and after trials demand a large number of constables for guard duty as well as escort. This is in addition to guard and patrol duty during the many jatras for which the District is famous. Besides we have to help the Gold Fields Superintendent in his occasional requisitions. The orderly duty, and scriptory work, sickness and casuality always form the normal state of affairs. An addition of 18 men more and a dafadar is most essential.

23. The proposal if sanctioned would not entail a particularly heavy burden financially and would contribute more to efficient work which is the chief end to be aimed at in any scheme.

As per Police Inspector-General's D. O. of 4th March, in the statement "B" enclosed herein, provision is made for a Drill Instructor on Rs. 10 for each Taluk and a Drill Instructor on Rs. 16 for the District Reserve. This is not an extra item for each Taluk as a 1st class constable from each will be given 2 rupees more in addition to his salary and made a Drill Instructor.

NOTE OF INSPECTOR-GENERAL OF POLICE ON THE INVESTIGATING CENTRE SCHEME OF THE KOLAR GOLD FIELDS RANGE.

1. *Bowringpet Taluk.*—I concur with the proposals of the Superintendent with regard to Bowringpet Taluk. This allows for 2 Investigating Centres—one at Bowringpet and one at Bethamangala. Bowringpet Town will be worked as at present by the Kolar Gold Fields Police.

2. *Malur Taluk.*—Malur is a small taluk as regards area and population, and crime is light. Three Investigating Centres are therefore absolutely unnecessary. One Investigating Centre at Malur as at present with one Inspector and one jamadar, and another Investigating Centre at Masti will be in my opinion quite sufficient. Malur Centre will include Narasapur and Tyakal: the latter is on the Railway and is an important Station requiring a second class dafadar. Masti having charge of Lakkur and Chik Tirupati. This distribution will be more convenient than that proposed by Mr. Thomas. The cost of the proposed and present scales is the same.

3. *Mulbagal Taluk.*—I consider that Mulbagal Taluk also is not in need of any more than 2 Investigating Centres, one at Mulbagal Kasba and the other at Tayalur. Tayalur Investigating Centre might be given the half of the taluk south of the main road and Mulbagal the northern half. Gudipalli and Nangali might continue in charge of 2nd class dafadars empowered to hold inquests. I would continue the jamadar at Mulbagal Kasba instead of moving him to Gudipalli as recommended by Mr. Thomas.

4. *Drill Instructors.*—Drill Instructors of each taluk will have to be provided for at an extra cost of Rs. 10 per taluk.

(Since altered vide para 4 of my letter No. , dated th July 1907).

F. C. CARR.

5. *Cost.*—The extra cost of the proposed over the present scale will come to Rs. 45 a month or Rs. 540 per annum.

6. *Kolar Gold Fields.*—I do not approve of Mr. Thomas' suggestion to cut down the Gold Field strength by abolishing one Chief Constable on pay of Rs. 60 *plus* 20. The Gold Fields' office requires strengthening and we can utilize the services of this Chief Constable (or Inspector as he is now called) as a Head-Quarter Inspector.

This leaves the Kolar Gold Fields' strength exactly as it stands at present no change being necessary.

From P. B. Thomas, Esq., District Superintendent of Police, Kolar Gold Fields, to F. C. Carr, Esq., Inspector-General of Police in Mysore, through the Deputy Commissioner.

With reference to the instructions contained in your letter No. 6746—P. C. 332, dated 27th May 1905, I have the honor to submit the following proposals regarding the constitution of the Investigating Centres in the Kolar Gold Fields Circle.

With reference to the Bowringpet Taluk, I propose to provide for two Investigating Centres, one at Bowringpet and one at Bethamangala. I consider that the taluk can easily be worked from these two Centres, by the Inspector at Bowringpet and a jamadar at Bethamangala. The cases in Bowringpet Town can be investigated by the Head Constable in charge of the Station who draws the same pay and is of the same status as a jamadar. The Bowringpet Town being policed by Gold Fields Police and their officers, this will leave the Inspector only 3 Stations-Budikota, Kamasandra and Bowringpet Taluk Kasaba to investigate in. The two former Stations are close together and Kamasandra is connected with Bowringpet by rail. The jamadar will have the investigation in Bethamangala and Sundrapalya.

I propose to provide for a 1st grade jamadar by the abolition of a second grade Chief Constable's appointment on the Gold Fields. Part of the savings under this scheme will be used in Mulbagal and Malur as explained lower down. I propose to abolish a dafadar at Sundrapalya and convert that Station into an outpost. Rs. 14 per mensem saved under this head, I propose to apply to the appointment of two

extra 2nd class constables, one at Bethamangala and one at the Kasba Station. It will be seen that the only change that will be made in the existing establishment will be the conversion of one dafadari into two constables' appointments. The Amildar agrees with me in considering two Centres sufficient under the circumstances. The Inspector wants 3 Centres; but in common with the Inspectors of other Divisions his proposals are calculated to relieve the Division Inspector of even the very light duties which he has at present and leave him practically nothing to do.

This is as per my own view. (Id.) C. S.

In Malur, the Amildar and Inspector both propose to establish 3 Investigating Centres, one at Malur, one at Masti and one at Narsapur. There is already one jamadar in the Taluk who would be posted at Narsapur. They propose to provide for another jamadar to be posted at Masti by the abolition of two dafadars' appointments (at Lakkur and Tyakal) and one constable's appointment (at the Tirupathi outpost.) I approve of the establishment of 3 Centres but doubt the advisibility of having no dafadar at Tyakal which is an important place.

I therefore propose to abolish one 2nd grade dafadar (at Lakkur) and to apply 14 per month of the money saved by the abolition of a 2nd grade Chief Constable's appointment on the Kolar Gold Fields towards the appointment of a jamadar on Rs. 20 *plus* 8 at Masti. The work in Malur Taluk is very light but there are long distances between Stations. Lakkur will be the only station left without a dafadar and will become virtually an outpost; but it is only 4 miles from Malur and can easily be reached in a very short time by the Inspector from Malur; and the Tirupathi outpost is near Lakkur.

Quite right. (Id). C. S.

With reference to Mulbagal Taluk, the proposals of the Amildar and Inspector are to create two new Investigating Centres, one at Gudipalli and one at Tayalur, and to provide for the appointment of the one extra jamadar necessary to the scheme by abolishing two dafadars' appointments (at Gudipalli and Tayalur).

Yes. (Id) C. S

The Amildar however remarks with justice that the Mulbagal Taluk is in a very unsatisfactory state. It is underpoliced and the existing Stations do not provide for the proper protection of the taluk.

The taluk is one in which I should consider it dangerous to recommend any reduction in strength at present. It is not usually very criminal but it might very easily become so and it is much over-run with gangs. It is a big taluk and parts of it are not very accessible. The existing strength of Police is less than in Malur which I consider a far easier taluk as far as Police work is concerned.

I therefore propose to make no abolition of appointments and to convert no stations into outposts but to provide for an extra 1st grade jamadar by part of the money saved by the abolition of a Kolar Gold Field Chief constable as explained in the Bowringpet scheme.

I agree. (Id). C. S.

The existing Jamedar will be placed in charge of an Investigating Centre at Tayalur and the new Jamadar provided for at Gudipalli, thus making three Investigating Centres.

Under this arrangement there will be no cost to Government at all and there will be a strengthening instead of weekening of the Force at Mulbagal. The abolition of the post of one 2nd grade Chief Constable effects a saving of 80 per mensem which will be divided as follows:—

		Rs.	
1st grade jamadar in Bowingpet	... ...	33	per mensem
1st grade jamadar in Mulbagal	... ...	33	do
2nd class constables in Malur	... ...	14	do
	Total ...	80	

If the Drill Instructors have to be given an allowance of Rs. 2 each as provided for in Kolar Division, we shall incur only a small extra cost of Rs. 6 per mensem for three taluks, or Rs. 72 per annum net.

Judicial and Legislative (Police), dated 27th March 1908.

Unofficial note dated the 9th December 1907 by Mr. Carr on the same subject.

No. J. 2968-77—Police 14-07-2, dated Bangalore, 27th March 1908.

Order thereon.—The scheme of Investigating Centres, sanctioned for the Shimoga District in the Government Order read above, having been found to work satisfactorily, the Inspector-General of Police, in his letter No. 5143—565, dated the 23rd January 1907, submitted proposals for the redistribution and reallocation of the Police Force in the Chitaldrug District on similar lines. The matter was, however, at the Inspector-General's own request, deferred for consideration along with the schemes for the Tumkur, Hassan, Kadur and Kolar Districts, which are now submitted for sanction.

2. A very important feature of the present proposals is the strengthening of the District Reserve. The Indian Police Commission have laid special stress on the desirability of having a well equipped and, if possible, armed force at District Head-Quarters. Accordingly the District Reserves, including that of Shimoga, are proposed to be sufficiently strengthened to provide for all orderly duty in towns and to meet the innumerable calls for extra men which the districts are experiencing at present and to be properly drilled and equipped to cope with such emergencies as dacoities, riots, unlawful assemblies, fires, etc. Each District Reserve is to consist of three jamadars, 6 or 7 dafadars, and 60, 50 or 40 men. As the 40 men already sanctioned for the Shimoga District are found insufficient, 60 men are now proposed for that district as well as for the frontier districts of Tumkur and Chitaldrug, 50 each for the smaller districts of Hassan and Kadur, and 40 for the Kolar District proper.

3. Two questions that naturally arise in this connection are, whether, with the strengthening of the District Reserves as proposed, it is still necessary to maintain the Special Provincial Reserve at its present strength of 13 officers and 183 men, and whether, in the event of Government deciding to relieve the Barr Force of the duty of guarding the Treasuries, the same may not be taken over by the men of the Reserve Force. The Inspector-General of Police however is strongly of opinion that no reduction is possible in the strength of the Provincial Reserve, as the services of that Force are required in so many connections and it is so heavily worked, that he finds it most difficult to maintain it up to its full strength and in a state of thorough discipline and efficiency. He is, however, willing to spare 3 officers and 20 men out of this Force to guard the State Huzur Treasury at Bangalore. He also thinks that with the District Reserves, as proposed in his final schemes, it would be possible to arrange for the guarding of the District Treasuries in Shimoga, Chitaldrug, Hassan, Tumkur and Kadur by the District Reserves, and that a saving of more than Rs. 8,000 may be made in the cost of the additional Police proposed by him in connection with this same question of the transfer of Treasury guard duty from the Barr Force to the Police. These proposals of Mr. Carr commend themselves to Government and are accordingly sanctioned.

4. Another important feature of the present proposals is the creation of a new grade of Police officers, namely, Sub-Inspectors on Rs. 30+12. It is stated that all the sub-taluks, except Closepet and Harihar, are now in charge of jamadars who

perform almost the same functions as Inspectors perform in taluks, and that the creation of the proposed intermediate class primarily for the charge of sub-taluks, would improve efficiency and secure a better paid and more contented class of officers than at present. In view of the importance of the Yeslurpet Range of the Manjarabad Taluk, from a Police point of view, Mr. Carr suggests, in concurrence with the Deputy Commissioner, Hassan, that it should be constituted into a separate Sub-Inspector's charge; and this arrangement is better than the original proposal of locating an Inspector there only during the monsoon. This part of the Inspector-General's proposal, which involves an extra cost of Rs. 63 per mensem or Rs. 756 per annum as noted in the margin, is also approved.

Gudibanda	9
Turuvekere	9
Koratagere	9
Alur	9
Yedahalli	9
Kumsi	9

Total	63

5. Coming to the question of Investigating Centres and the increase in the number of jamadars, the detailed proposals for the redistribution and reallocation of the Police of the several districts are stated to have been formulated after full discussion with the District Officers concerned and after careful examination of the requirements of every district several times and on the spot. The total extra cost involved is estimated at Rs. 345 per mensem or Rs. 4,140 per annum, and considering the scale on which the reorganization of the Police is being effected in British India, in accordance with the recommendations of the Indian Police Commission, Mr. Carr states that his proposals are comparatively less expensive and that they are a decided advance in the right direction, and are well adapted to the needs of the Province.

6. The results of Mr. Carr's final scheme are, that against a subordinate staff of 85 jamadars, 342 dafadars and 2,844 constables, costing in all Rs. 27,833 per mensem, a force consisting of 7 Sub-Inspectors, 114 jamadars, 276 dafadars, 53 Drill Instructors and 2,768 constables, together costing Rs. 28,228 per mensem and distributed as shown below is proposed and that there is an increase of 23 officers and a decrease of 76 constables, the net increase of cost being Rs. 345 per mensem or Rs. 4,140 per annum exclusive of Rs. 48 per annum already sanctioned in Government Proceedings No. J. 3209-10—Pol. 139-06-6, dated 18th April 1907.

7. The several proposals of Mr. Carr are well considered and are calculated to improve the efficiency of the police in Mysore. Government are therefore pleased to accord their sanction to them especially as the strengthening of the District Reserves as proposed by Mr. Carr will result in an appreciable decrease in the cost of the additional police required for undertaking the work of guarding the Treasuries in all the districts in Mysore.

8. The extra cost involved during the current year will, as proposed by the Inspector-General, be met out of the savings in the pay of the District Superintendent of Police, Kolar Gold Fields. The Inspector-General of Police is requested to bring the new distribution into effect at an early date.

The following communications from the President of the Municipal and District Boards suggesting the proportions in which the pay of the clerks sanctioned in Government Order No. 8333-44—L. B. 422-05-12, dated 16th March 1907, for Local Fund work in the taluks may be debited to the Municipal and District Funds :—

No. 9064-72—ML. 452-06-21, DATED BANGALORE, 11TH MARCH 1908.

ORDER THEREON.—The Local Fund clerks in the Taluk offices at the District Head-quarters work under the Amildars who are not the Vice-Presidents of those Municipalities all of which, with the exception of those at Chitaldrug and Kolar, maintain separate clerical establishments exclusively for Municipal work. It is desirable that at Kolar and Chitaldrug also the Municipal clerical work should continue to be carried on as heretofore and that the newly sanctioned clerks for the District Head-quarter Taluks should be employed exclusively on work connected with the District Funds, no portion of their pay being charged to the Municipal Funds.

2. The President of the Kadur District reports that for the Tarikere, Koppa, Mudgere and Kadur Taluks, the employment of Local Fund clerks exclusively for District Fund work is absolutely necessary and that their pay will be met entirely from District Funds, the work connected with the Municipalities in these taluks being carried on, as heretofore, by the special establishments maintained for the purpose. At Yedahalli, however, the Municipal clerk is proposed to be entrusted with both the Municipal and District Fund work, his pay being raised from Rs. 10 to Rs. 15 per *mensem* and charged to the Municipal Funds of Yedahalli and the District Funds of Kadur in the proportion of two-thirds and one-third. These proposals are approved.

3. The President of the Kolar District reports that the Municipalities of Chintamani and Bowringpet are agreeable to contribute a moiety of the pay of the Local Fund clerks while those of Srinivaspur, Goribidnur, Gudibanda and Bagepalli plead inability to contribute their quota. The proposals of the Chintamani and Bowringpet Municipalities are accepted but the exemption prayed for by the Municipalities of Goribidnur, Gudibanda and Srinivaspur cannot be sanctioned as their financial condition is satisfactory. They should contribute their quota, *viz.*, one-third. As the closing balance in favor of the Bagepalli Municipality according to the Budget estimates for the year 1907-08 falls short of the prescribed minimum and the average income of the Municipality for the past three years is about Rs. 600 only, this Municipality will, as a temporary measure, be exempted from contributing towards the pay of the clerk.

4. The President of the Bangalore District states that the Municipalities of Hoskote, Dodballapur, Tyamagondlu, Closepet, Anekal, Devanhalli and Vadigenhalli are already maintaining mutsaddis for clerical work and that they cannot reasonably be asked to contribute towards the pay of the newly sanctioned Local Fund clerks unless the services of the existing mutsaddis are dispensed with. The Work Inspectors having been absorbed as Local Fund clerks and temporarily placed in charge of the duties of the Sanitary Inspectors, the mutsaddis referred to who are all employed primarily for the supervision of the conservancy staff, should be otherwise provided for as early as practicable and all the Minor Municipalities in the Bangalore District should contribute towards the pay of the Local Fund clerks employed in their respective taluks.

Local Fund and Sanitary (Municipal), dated 11th March 1908.

5. The proposal of the President of the Bangalore District to debit to the Municipal Funds one-half of the pay of the clerks in all but the Bangalore Taluk is sanctioned but the method suggested for calculating the quota payable by each Municipality, *viz.*, apportioning the aggregate Municipal quota among the several Municipalities in proportion to their receipts, does not commend itself to Government as it is complicated and unfair. The contribution payable on account of each clerk should be calculated separately and if there are two or more Municipalities benefited by the services of such clerk, the Municipal quota should be apportioned in proportion to their average income in the manner laid down in Government Proceedings No. 5219-27—Ml. 452-06-17, dated the 5th December 1907, for the distribution of the charges of the President's offices. The same rule will apply to the horse allowance sanctioned to the Local Fund clerks for looking after the duties of Sanitary Inspectors.

6. As the President of the Mysore District reports that pending the final orders of Government on his letter No. 168, dated 16th September 1907, regarding the absorption of Work Inspectors the Local Fund clerks have not been entertained, separate orders will issue in regard to the contribution payable by the Minor Municipalities in this district.

7. As regards the contribution payable by the other Municipalities, the Presidents propose that one-third of the clerk's pay in each taluk or sub-taluk may be debited to Municipal Funds. This is approved subject to the apportionment of the Municipal quota as indicated in para 5 *supra*.

Para 4 of Government Proceedings No. 1378-92—San. 93-06-8, dated the 10th August 1907, observing that regard being had to the advantages to be derived from the appointment of specially trained officers as Health Officers of the cities of Bangalore and Mysore and of the Kolar Gold Fields, Government had no doubt that the City Municipal Councils and the Sanitary Board would readily agree to bear the cost of the Health Officers from their funds, and requesting the Presidents of the Municipal Councils and the Sanitary Board to place this subject before their respective Boards and submit their resolutions for the orders of Government.

2. Letter No. 53, dated the 5th September 1907, from the President of the Mysore City Municipal Council, submitting a copy of the Municipal Council's resolution agreeing to pay a moiety of the cost of the Health Officer.

3. Letter No. 124, dated the 14th November 1907, from the President of the Bangalore City Municipal Council, expressing their inability to meet the cost of the Health Officer's pay but their willingness to pay his allowance of Rs. 50 and the cost of his establishment amounting to Rs. 86 a month.

ORDER THEREON.—Government observe that no uniform system obtains in regard to the audit of Municipal accounts and that, while in certain Municipalities, the Municipal Councils appoint auditors from among their Councillors to audit the accounts periodically and make a separate report of the results of such audit to the Municipal Council, the auditors so appointed in others usually only initial the account books maintained by the Municipality in token of having checked and found them to be correct. With a view to secure uniformity of practice in this respect, Government will be glad to see the following procedure adopted in future in all the Municipalities in the State:—

(i) At the meetings to be held in the last month of each quarter, two or three auditors should be appointed by each Municipal Council from among its own members who should hold office as such during the quarter following, their duty being to scrutinize the Municipal accounts every month and besides affixing their signatures in the account books examined by them submit a detailed report of the results of such scrutiny to the Municipal Council for consideration at their monthly meeting. A copy of the report will be forwarded to and recorded in the President's office.

(ii) In the case of the two City Municipal Councils and the District Headquarter Municipalities, the same procedure should be followed and a copy of the Auditors' report submitted to Government with the copy of the Councils' proceedings.

(1) Report on Public Instruction in Mysore for 1906-07, submitted by the Inspector-General of Education in Mysore with his letters Nos. 3631—227, 3830—236 and 3975—274, dated the 9th, 15th and 20th November 1907, respectively.

(2) Report on the working of the Central College, Bangalore, for the same year.

(3) Correspondence ending with letter No. 4360—269, dated 4th December 1907, from the Inspector-General of Education in Mysore, returning General Table IV of the Report after making certain corrections.

No. 9231-41—ED. (107-07)-8, DATED BANGALORE, 13TH MARCH 1908.

ORDER THEREON.—Though the large increase in the number and strength of institutions reported in 1905-06 was not maintained during the year under report chiefly on account of the wide prevalence of plague and other epidemics, yet the results show that good progress was made in many respects. The number of public institutions increased from 2,271 to 2,279 while there was a decrease in the number of private institutions from 1,822 to 1,645. The Inspector-General explains that the statistics of these private institutions are furnished by the Revenue Department and that he is unable to say how far they are correct. It is hoped that every endeavour will be made to obtain correct information and that the Deputy Commissioners of Districts will furnish the Inspector-General with full and accurate particulars showing variations in the number and strength of private institutions. Government attach great importance to the growth of private institutions, and the Education and the Revenue Departments should carefully foster their progress. The number of pupils also in both public and private institutions decreased from 123,057 to 117,951, the percentages of boys and girls under instruction to the male and female population of school-going age being 23·90 and 4·76 against 25·04 and 4·86, respectively in 1905-06.

2. The aggregate expenditure on education during the year amounted to Rs. 14,44,311 against Rs. 13,74,931 in 1905-06. The different sources of income and the proportion of expenditure borne by them are shown below:—

	Rs.	Percentage.
State Funds ...	8,12,876	56·28
Local ,, ...	2,68,882	18·62
Municipal Funds ...	27,207	1·88
Fees	1,52,938	10·59
Other sources ...	1,82,408	12·63
Total ...	14,44,311	100·00

3. The revision of the Inspectorate was fully carried out during the year. Government are glad to learn from the Inspector-General that the work of inspection was more satisfactorily performed than in previous years, the number of schools which remained uninspected being only 58 against 349 in 1905-06.

4. During the year under review, the new Regulations of the Madras University were passed and the question of making arrangements in the State Colleges to suit the new Regulations is under consideration, but steps have already been taken to adapt the High School classes to the new University Regulations.

Both the first grade Colleges made good progress during the year. The number on their rolls rose from 370 to 412. The results of the B. A. Degree Examination were satisfactory, except in the English Language Division in the Central College. The F. A. results were fair.

The Students' Homes attached to both the first grade Colleges were managed satisfactorily and exercised a healthy influence on the character of the resident students.

5. The account given of Secondary Education is encouraging. The number of High Schools increased from 15 to 16 and the number of middle schools from 273 to 280. The numbers of pupils in the High and Middle stages were 1,858 and 10,801 respectively against 1,839 and 10,569 in 1905-06. Of the 16 High Schools, 15 sent up students for the Matriculation Examination of 1906. The results of the Maharaja's College at Mysore and of the Chikballapur, Hassan, Shimoga and Tumkur High Schools and the Marimallappa's High School at Mysore were fair, and the percentage of passes was higher than that for the whole University. The other High Schools including the High School department of the Central College did not show satisfactory results and the Channapatna High School passed only 3 out of 18 sent up. It has also to be noted with regret that the aided Mission High Schools have not improved in efficiency.

6. Primary education suffered badly on account, of the wide prevalence of plague. The total number of primary schools, both public and private, decreased from 3,718 to 3,545 and the number of pupils in the primary stage of all institutions, from 107,214 to 102,230. In para 3 of his report the Inspector-General of Education strongly urges the necessity for improving primary education by increasing the number of schools and otherwise. Government fully recognise the necessity for such improvement and await definite proposals from the Inspector-General in that behalf. The recent abolition of school fees in the Upper Primary Classes of village Elementary Schools and the enhancement of the pay of Village School Masters will, it is hoped, help to make primary education more popular and efficient. It is a matter for satisfaction that most of the Village School Committees took an active interest in the welfare of their schools.

The Inspector-General observes that there has been no improvement in the interest taken by Revenue Officers in Village Schools. This is noted with regret and Government hope that Revenue Officers will pay attention to the subject and co-operate with the Education Department in bringing about an improvement in rural education both in point of efficiency and popularity. Government are aware that the remarks and suggestions of these officers on technical points may not always commend themselves to the Educational Department. But that need not be a reason for apathy on their part in respect of popular education. which these officers with their intimacy with the general public can do so much to foster.

7. The Normal School at Mysore did good work during the year and the results of the Teachers' Certificate and Lower Secondary Examinations were satisfactory. The Inspector-General refers to certain wants such as an annual grant for modern educational appliances and the opening of a practising school for Mahomedan teachers under training. These should have formed the subjects of a separate communication to Government. The number of unpassed and untrained teachers was reduced from 776 to 716 during the year.

8. On the recommendations made by Mr. Bhabha based on the results of his special study of European and American methods of Kindergarten instruction and Manual training, when he was in England and America on furlough, as to which, however, his special report promised in April last is awaited, a scheme for the imparting of Kindergarten instruction and Manual training in the schools in Bangalore and Mysore was sanctioned at a cost of Rs. 42,680. In connection with this scheme, it may here be observed, though the details would strictly appertain to the ensuing year, the services of a European lady (Miss Latter) and an American expert (Dr. Larsson) were secured and several teachers have since been trained in the methods of such instruction. Miss Latter, however, died suddenly on 21st November 1907, before she had been many months in the country, but she had, during the short time she was in charge of the training school, done much to instruct the teachers in the latest methods of Kindergarten. Government take this opportunity to place on record their appreciation of the valuable services rendered by her during the short term of her employment and their deep sense of the loss sustained by the State by her sudden and untimely death.

Local Fund and Sanitary (Education), dated 13th March 1908.

9. The number of Industrial Schools remained the same as in the previous year, but there was a small decrease in the number of pupils, from 857 to 843. The Mysore Industrial School worked satisfactorily and its results in the Madras Technical Examinations were fair. The school also obtained some medals and certificates in the Calcutta Industrial Exhibition of 1906. The other Industrial Schools in the State are still in an experimental stage and require careful tending.

Government have sanctioned a new scheme for training boys and girls belonging to the classes engaged in the silk industry. With this object an annual grant of Rs. 3,000 was sanctioned to Tata's Experimental Silk Farm. Further proposals for developing its practical side and making it, if possible, a Government institution are under consideration.

10. Female education made good progress and the number of public institutions for girls increased from 251 to 253; but there was a slight fall in the total number of girls under instruction. The number of High Schools for girls increased from 1 to 2 by the raising of the standard of the London Mission Girls' School at Bangalore to that of a High School. The results of public examinations were satisfactory. Sowbhagyavati K. Subbamma, a lady teacher of the Maharani's College, passed the History Branch of the B. A. Degree Examination, and one Eurasian girl and a Hindu girl from the Maharani's College passed the F. A. and Matriculation examinations respectively. From all the institutions of the State 21 girls passed the English Lower Secondary and 46 girls the Vernacular Lower Secondary Examinations. Nine girls also passed the Teachers' Certificate examination. The total expenditure on female education amounted to Rs. 2,08,023 against Rs. 1,94,011 in 1905-06.

It is gratifying to note that most of the Girls' School Committees took an active interest in the welfare of their schools.

11. The report about Mahomedan education is encouraging. The number of schools for Mahomedans increased from 287 to 291 and the total number of Mahomedan pupils from 15,272 to 15,359. The percentages of Mahomedan boys and girls attending schools to the population of school-going age were 56·9 and 17·77 against 55·70 and 18·41 in the previous year. It is very remarkable that the percentages are more than double in the case of boys and nearly four times in the case of girls, the percentage of scholars to population of school-age for all communities in the State. The bulk of the strength of Mahomedan pupils is however in the lowest Vernacular classes and the numbers fall off very rapidly in the higher and in the English classes. This is a matter for regret and it is to be hoped that the community will recognize the value of higher education and take advantage of the special facilities afforded to it. It is encouraging to note that several Hindustani schools which were backward last year have been improving in efficiency. One Mahomedan student passed the F. A. Examination and three the Matriculation. Seventy-nine passed the Lower Secondary Examination.

12. There were 80 schools for the education of depressed castes and 12 for Lambanis. The total number of pupils of depressed castes under instruction was 2,438. There were also 258 Lambani students. Eight scholarships of Rs. 2 each per mensem were specially instituted to afford greater facilities to Lambani and Begari pupils studying in the 2nd and 3rd classes of vernacular schools.

13. On the whole there has been good progress all along the line and Government desire to record their acknowledgments to Mr. Bhabha for the efficient management of his department during the year.

Report on the working of the Agricultural Farm attached to the Normal School at Mysore for the years 1905-06 and 1906-07, submitted with letter No. 9499—792, dated the 18th June 1907, from the Inspector-General of Education in Mysore.

With reference to your docket No. 8347—1393 of the 9th May last, I have the honor to report as follows:—

(I) The work done on the Farm is of three kinds:—

(i) cultivation of crops,
(ii) school-gardening, and
(iii) conducting field classes.

(i) *Cultivation of crops.*—This work is allotted to the students, both Mahomedan and Hindu, of the Upper Secondary Training class, most of whom are already employed as teachers in Government Schools. Only those that have passed the Upper Secondary General Examination, for which Agriculture is a compulsory subject, are admitted into this class. They are divided into batches and each batch is entrusted with the cultivation of a selected crop on an allotted plot. The whole work of cultivation, from preparing the soil for sowing, to harvesting is done by the students themselves. Each student is required to keep a cultivation book wherein he records the work that is done by him. These books are frequently examined by the Agricultural Lecturer. There are a few improved agricultural implements in use on the Farm and the advantages derivable from their use are practically demonstrated to the students. Special attention is paid to the rotation of crops, interculturing during the growing stage, economic application of manures and careful selection of seeds. The students are thus enabled to gain experience in the best methods of cultivation. The crops grown during the last two years were, ragi, Mysore jola, pulses of different kinds, niger, gingelly, cotton, ground-nuts and fodder sorghums and castor. The object in selecting these crops was to give instruction to students in regard to the proper cultivation of some of the important crops of Mysore and to demonstrate the advantages of introducing foregin varieties of seeds which, though successfully grown on several experimental farms in British India are locally yet unknown. Five varieties of fodder sorghum, three of ground-nuts and Dharwar-American cotton are introduced with this latter object from the Poona Farm. The cultivation of three varieties (Virginian, Spanish and Japanese) of ground-nuts was specially successful and seeds were supplied to more than one cultivator who eagerly applied for them. Considering the season during the last two years was rather unfavorable owing to want of rain and the fertility of the Farm soil is of the average degree, the yield per acre of the important crops is good and compares favorably with the results produced on black soil. With the improvement of the Farm soil it is expected that very satisfactory results will be produced.

Name of crops	1905		1906		Yield on black soil 1905	Remarks
	Area sown	Yield per acre	Area sown	Yield per acre		
		lbs.		lbs.	lbs.	
Mysore Jola	2·19	676	2·27	413	500	Minimum average for Deccan.
Ground-nuts, Virginia ...	0·06	2,925	·14	3,092	3,082	Grown under irrigation on Surat Experimental Farm.
Spanish	0·10	1,278	·30	1,943	1,333	
Japanese (red)	... ..	.... .	·08	2,562	1,600	
Country	0·27	1,707	·66	925	1,579	
Gingelly	.....	.....	2·1	372	372	Crop Experiment at Surat.
Castor	.....	.....	2·23	717	535	Average for a black soil of Bombay Presidency.
				Seed cotton		
Cotton	... ..	.....	0·05	460	300	Average for Karnatic.
Ragi	2.63	318	0·37	228	.....	

It will be seen from the above table that the yield of jola in 1906 as compared with that in 1905 was less. This was due to want of rain when the crop was young. The result of growing ground-nuts, as already stated, was very satisfactory especially when we see that the crop of 1906 was a rain crop. The yield in

the case of gingelly, castor and cotton was fair, though in the case of ragi it was disappointing.

(ii) *School-gardening.*—This work is undertaken by the students of the Lower Secondary Training class who are for the most part teachers in village schools. Students of the Upper Secondary Training class are engaged in this work from January to March when no cultivation work can be done. Each student carefully prepares a small plot of ground by digging and manuring it and grows on it irrigated garden crops, vegetables and flowers, potato, maize, chillies, beans, wheat, country vegetables, some varities of English vegetables and a few kinds of flowers were thus grown during the two years under report.

(iii) Field classes are held for the students who are preparing for the Upper Secondary General Examination. Agriculture is a compulsory subject for that examination and the holding of these classes is intended to supplement classroom teaching which they receive at the school by practical instruction on the Farm. They are taught the uses of all the necessary improved agricultural implements and the advantages of a proper rotation of crops, seed rate, etc. This instruction is usually on the demonstration Farm. But the students are occasionally taken out to neighbouring fields and are made to observe differences in results arising from differences in methods of work.

The cost of working the Farm and the amount of sale proceeds credited to the treasury during the two years will be known from the following statement:—

Receipts	Amount	Expenses	Amount
	Rs. a. p.		Rs. a. p.
		Establishment charges ...	1,310 3 2
1905-06		Contingent expenses ...	724 13 6
From the sale of Farm produce.	180 3 11	Total ...	2,035 0 8
1906-07 (For eleven months)		Establishment charges ...	1,198 15 8
		Contingent charges ...	847 0 8
From the sale of Farm produce.	367 0 8	Total ..	2,046 0 4

The above excluded the allowances paid to the students.

(II) The following statement gives the number of students that were trained:—

	From June 1905	1906	1907
Field classes	52	26	30
Cultivation of crops	35	26	24
School-gardening	...	28	26

Arrangements have not yet been made for formally conducting an examination at the end of the course. Though no formal examination was held in the previous two years, the progress of the students was tested and the results were satisfactory. During the two years the Farm has worked the need for a final examination conducted by experts has become clear and a scheme is under preparation and will be shortly submitted for approval.

(III) Mr. K. Narasimha Iyengar, who has passed in one of the three branches of the B. A. Examination, is the Agricultural Lecturer. He underwent training for three years in the Agricultural College at Saidapet, and holds the Diploma Agriculture awarded by the Madras Government. He has put in a service of ten years and has always evinced much zeal for his work.

(IV) In addition to lecturing on Agriculture at the Normal School, Mr. Narasimha Iyengar has immediate charge of the Farm and is responsible, in the first instance, for its efficient management. The three kinds of work above referred to as done on the Farm, are done under his direction. He arranges work for the several batches of students that work on the Farm, and he instructs and supervises them while they are engaged on the field. Classes are held during the mornings on all the six days of the week and some times on Sundays also.

Local Funds and Sanitary (Education), dated 25th March 1908.

(V) The main duties of the Farm Bailiff are the following:—Supervising labour, keeping Farm records and attending to office work, taking care of Farm-property, looking after live-stock, making sundry purchases for the Farm and disposing of Farm produce at rates fixed by the Agricultural Lecturer. The present Bailiff is a Matriculate and has undergone the full course of training in the Agricultural College at Saidapet as a Mysore Government Scholar.

2. Correspondence ending with letter No. 235, dated the 7th September 1907, from the Agricultural Chemist to the Government of Mysore, submitting his remarks on the report.

"In reply to Government Order No. 682-3—Edn. 382-06-4 of 24th July 1907, I have the honor to state that in my opinion the report of the Headmaster, Government Normal School of Mysore, to the Inspector-General of Education on the two years' work of the school Farm near Mysore is a very satisfactory one. The work of teaching the students practical agriculture by giving them a piece of land to cultivate themselves is undoubtedly of immense value and deserves every encouragement. I have visited the Farm three or four times. But perhaps it would add to the efficiency of the Farm if I inspected it regularly once or twice a year and conducted, as suggested by the Headmaster, a practical examination either personally or through one of the assistants of my Department.

There is only one item in the report to which I think it is necessary to call special attention and that is the danger of attempting to make the Farm an Experimental Farm.

In the first table of the report under review are given among other things the return per acre of three imported varieties of ground-nuts. The land of the School Farm is very uneven and absolutely unfit for experimental purposes. The Headmaster has, I know, no intention of making the Farm an experimental one. But naturally any one interested in ground-nuts will compare the yield of the four varieties and come to the conclusion that the Virginia ground-nuts are by far the best. In this Department the Virginia has given the poorest return of the imported varieties. Naturally a person reading both these results will be inclined to discredit the one or the other or both of these reports. Of course it is quite possible that the one variety is suited to the climate of Mysore and the other to that of Bangalore. But as I know that the soil of the School Farm at Mysore is very uneven and that that Farm is in other directions not well equipped for carrying an experimental work it would in my opinion not be wise to publish anything having the appearance of a comparative experiment. If the crop returns are published at all, it would, I think, be wiser to give the average yield of all the varieties of one kind of crop than to give the yield of each variety separately.

The Headmaster of the Normal School has, however, in giving these results only carried out the spirit of Government Order No. Fl. 3526-9 of the 8th June 1904, in which certain proposals made by Mr. Wetherell, at that time in charge of my office, are embodied. The second of these proposals is "the value of good quality (pedigree) seeds should be explained, and a type plot should be sown half with ordinary and half with good seeds and the difference in the crop result explained" and in para 3 "Artificial manures should be worked with, and the difference in the results should be pointed to the pupils." Both these proposals imply that the soil on which these demonstrations are made is uniform, for otherwise it frequently happens that the application of manures known to be beneficial appears to have a very decided injurious effect. But the soil on the school Farm is strikingly uneven in character and unless the greatest possible care is taken in the selection of the soil on which such demonstrations are made they are absolutely unreliable.

If it is intended to use the school Farm for anything but to give the students a practical insight into agricultural operations, it is in my opinion absolutely necessary to standardise those parts of the Farm which have a semblance of being uniform (in the same way as I am now standardising the soil of the Experimental Farm at Hebbal) before beginning either demonstrations or experiments; and to enable the assistant in charge to conduct experiments properly would of course imply a training in that work. If demonstrations or experiments are to be made on that Farm I think it would be advisable to place that portion on which these are to be made in the charge of the Agricultural Department.

Personally I think however it would be much wiser to restrict the Farm to a purely school Farm and not attempt demonstrations and certainly not to carry on experiments, if the students are to have the benefits of seeing these it would, in my opinion, be much better to conduct these on another Farm selected for that purpose."

No. 9624-5—Edn. 382-06-6, dated Bangalore, 25th March 1908.

Order thereon.—The Report of the Farm is interesting and satisfactory. As suggested by the Agricultural Chemist and approved by the Inspector-General, the Farm will be worked entirely as a school Farm.

Proceedings of the Government of His Highness the Maharaja of Mysore,

2. The Agricultural Chemist or other expert officer deputed by Government will inspect the Farm once or twice a year and conduct a practical examination of the students at the end of their course. The scheme for conducting this examination promised in para 2 of the report is awaited.

Correspondence ending with Government Order No. 6401-4, dated the 7th January 1908 accepting tentatively certain arrangements for adapting the Colleges in the State to the requirements of the new regulations of the Madras University and appointing a Committee consisting of Mr. J. Cook, Mr. J. Weir, Mr. H. J. Bhabha and Mr. W. McHutchin, for preparing a detailed scheme showing the initial and recurring cost of the proposed arrangements.

2. Letters dated the 29th January 1908, and 14th February 1908 from Mr. J. Cook, submitting the report of the Committee referred to.

No. 9876-80 – EDN. 324-06-9, DATED BANGALORE, 30TH MARCH 1908.

ORDER THEREON.—The Government of His Highness the Maharaja of Mysore after giving the matter their full consideration are pleased to sanction the following arrangements to adapt the Mysore Colleges to the requirements of the new University Regulations :—

(1) Both the Central College and the Maharaja's College will be continued as first Grade Colleges affiliated to the Madras University in the following subjects :—

CENTRAL COLLEGE, BANGALORE.

Intermediate—

Group I. Mathematics, Physics and Chemistry.
Do II. Natural Science, Physics and Chemistry.

B. A. (Ordinary Degree)—

Group I. Mathematics.
Do II. A. Physical Science (Physics as the principal subject and Chemistry as the subsidiary subject).
Do II. B. Physical Science (Chemistry as the principal subject and Physics as the subsidiary subject.)
Do III. Natural Science (Geology as the principal subject and Botany as the subsidiary subject.)

MAHARAJA'S COLLEGE, MYSORE.

Intermediate—

Group III. (*a*) Ancient History, (*b*) Modern History and (*c*) Logic.
Do IV. (*a*) Ancient or Modern History, (*b*) a Classical Language, *viz.*, Sanskrit and (*c*) a Second Language, *viz.*, Kanarese.

B. A. (Ordinary Degree)—

Group V. History and Economics.
Do VI. Two Languages, *viz.*, Sanskrit and Kanarese ;

(2) Honors courses will not be provided for at present in either College.

(3) The Maharani's College at Mysore will be continued as a Second Grade College giving instruction in group IV of the optional subjects for the Intermediate Examination, *viz.*, Ancient or Modern History, Sanskrit and Kanarese ;

(4) The High School Department of the Central College will be removed to the new school building in the Fort, Bangalore, the primary classes now held in that building being transferred to another new building in the Fort or to other small buildings in different parts of the City ;

(5) The High School Department of the Maharaja's College will be retained in the present building and continued under the supervision of the Principal of *the* College.

2. The teaching staff of the Central College and the Maharaja's College will consist of Senior Professors, Junior Professors, demonstrators and Tutors as given in detail in the statement annexed to this order. The allowance for the principalship

will be fixed at Rs. 200 per mensem in the case of both the Colleges, and will be drawn in addition to the pay of the Professers appointed as Principals. The clerical and menial establishments of the Colleges will be revised so as not to exceed the proposed cost shown in the statement and detailed proposals in this respect should be separately submitted for sanction in due course. The grants for contingent expenditure, laboratory charges, etc., will also be fixed as shown in the statement. The cost of the High School to be removed from the Central College, Bangalore, and located in the Fort will be provisionally fixed at Rs. 12,000 per annum. The Inspector-General of Education will, in consultation with the Principal, Central College, take steps for the removal of the High School Classes to the building in the Fort and report in detail the arrangements necessary as to staff and other requisites.

3. The above arrangements will be subject to such minor modifications as may be found necessary when the question of the disposal of the members of the existing staff is considered by Government.

4. The recommendations of the Committee are accepted as regards additions to and alterations of existing buildings, and the Chief Engineer and Secretary to Government in the Public Works Department is requested to have the necessary plans and estimates prepared without delay in consultation with the Principals of the respective Colleges and the Inspector-General of Education, to provide the necessary funds in the next year's budget and to start work immediately after the budget is sanctioned. The construction of quarters for Professors is however not immediately necessary as the new European Professors will not be required till July 1911 when the B. A. Courses under the New University Regulations will commence. Further orders will be passed in due course about the erection of these quarters. As the Matriculation and F. A. Courses under the new Regulations begin in January 1909, what is immediately required is the provision of buildings and laboratories for these classes as also the erection of the buildings required for the primary classes of the Anglo-Vernacular School in the Fort, where the High School Classes of the Central College will be located. Immediate action should be taken by the Chief Engineer in consultation with the Inspector-General of Education and the Principal of the Central College so that the buildings required for these purposes may be erected and made available for use by January next.

5. The additional cost involved in the above arrangements is given in detail in the accompanying statements and an abstract of the same is given below :—

I. Non-recurring expenditure (buildings and equipment)—

Para II of the Civil Service Rules published under Government Order No. G. 8139—G. M. 12-06-68, dated 27th June 1907 :—

"II. All future admissions to the Mysore Civil Service shall be only in one of two ways *viz.* :—

(1) into the A Schedule, by success at a competitive examination of candidates approved by His Highness the Maharaja; and

(2) into the B Schedule, by special selection made by His Highness the Maharaja,—

(*a*) from members of the lower ranks of the Mysore public service, who have rendered meritorious service and have shown themselves fit in every way for holding higher appointments, and who have also qualified themselves by passing the prescribed examinations,

(*b*) or on family or other considerations of fitness."

2. Government Notification No. 5022—Exam. 2-06-8, dated 12th December 1906, publishing revised rules relating to the Mysore Local Service and Pleaders' Examinations.

No. G. 5670-711—G. M. 12-07-55, DATED BANGALORE, 30TH MARCH 1908.

ORDER THEREON.—In the Notification read above, the Revenue, Criminal, Civil (Parts I & II) and Registration tests have been prescribed for Assistant Commissioners; and under the Civil Service Rules, only such of the members of the subordinate service as have qualified themselves by passing the prescribed examinations are eligible for nomination to the Civil Service.

2. But the Government observe that there is reason to believe that these rules have not been clearly understood by Amildars and other officers in the subordinate service and the Government consider it necessary to draw their attention to the rules on the subject and to the fact that they must fully qualify themselves by passing all the prescribed tests before they can be appointed to the Civil Service.

3. The men who are now acting as Assistant Commissioners and other officers of the subordinate service who are in other respects eligible for nomination to the Civil Service have, none of them, passed all the prescribed tests and no nominations to the Civil Service under para II (2) (*a*) of the Civil Service Rules will therefore be made during the current official year.

4. Some of the officers referred to above, however, have passed all the tests except the one in Registration which was prescribed for Asssistant Commissioners in December 1906. In order to give these officers an opportunity to qualify completely before the time comes for making nominations to the Civil Service after the next Civil Service Examination, a special examination in Registration will be held for them in August next. The Board for the management of the Local Service Examinations will be requested to make the needful arrangements.

5. As, under the existing rules, the Local Service Examinations are held at the end of November every year, and the results are published only in January, it is found that there is some difficulty in considering the question of nominations to the Civil Service in sufficient time to announce the appointments immediately after the results of each Civil Service Examination are known, as contemplated in para IX (1) of the Civil Service Rules. With a view to obviate this difficulty, the Local Service Examinations will be held in the month of May from the year 1909, onwards. The Board of management will be requested to make the necessary arrangements in regard to this also.

Memorial Registered No. 228—888, dated 21st August 1907, addressed to His Highness the Maharaja by Sidda Setty and certain others of Kandikere village, Chiknayakanhalli Taluk, requesting that the Utsava Vigraha of Sri Ranganathaswami at Sadarhalli may be allowed to be brought to their village as usual during the Dasara of every year.

Memorial Registered No. 654—2055, dated 13th November 1907, addressed to His Highness the Maharaja by Bhandari Ranganna and certain other residents of Sadarhalli, praying that the Utsava-devaru of Sri Ranganathaswami in their village should not be permitted to be taken to Kandikere during Dasara of every year.

The following memo received under cover of letter No. 234, dated 22nd October 1907, from the Deputy Commissioner, Tumkur District, reporting on the above :—

There is a temple dedicated to the Sri Ranganathaswami at Sadarhalli in the Chiknayakanhalli Taluk. It is a Muzrai Institution. Among its devotees are the people of Kandikere village, a mile away from Sadarhalli. Two Satani Archaks, namely S. V. Tirumalachar and Doddapaiya, worship the deity by turns. Six Dharmadarsis appointed by the Government supervise the affairs of the temple. The resident devotees of Kandikere were in the enjoyment of two *mamul* rights with reference to this deity and they were (1) the procession deity used to be taken to Kandikere during Dasara every year and special worship offered to it there, and (2) if the Brahmin and Vaisya devotees resorted to the temple (and others also if they so desired) the performance of *Abhishekam* (ಅಭಿಷೇಕ) for them and the delivery of *Thirtha Prasada* (ತೀರ್ಥ ಪ್ರಸಾದ) to them were conducted by the Brahmins of Kandikere, the Satani Pujaries of the temple acquieseing in this arrangement. The same practice obtains also in the Sri Ranganathaswami temples at the neighbouring villages of Karehalli, Huliyar and Baragihalli and in the Anjaneyaswami temple of Niruvagallu as admitted by their respective Satani Pujaries themselves. These customs were in force till the year 1903-04.

In the year 1903-04 a dispute between the people of these two villages in regard to an Ane (dam) across a channel from the Kandikere tank was decided by the Revenue Commissioner favourably to the Sadarhalli people and adversely to the Kandikere people. There was also in existence another dispute between the same parties in respect of their grazing rights on a certain pasture land. These two incidents have tended to embitter the feelings of the people of Sadarhalli towards those of Kandikere and they (people of Sadarhalli) manifested them in the year 1904-05 by obstructing the latter from exercising their mamul rights with regard to the aforesaid deity.

There is no documentary evidence on either side to prove their respective allegations. This is because the matter relates to a certain *mamul* and never before was that mamul questioned, the people of the two villages under reference being amicably disposed to one another. Now that the relationship between them is otherwise, the people of Sadarhalli deny the existence of such mamul, while those of Kandikere affirm it. One of the Satani Archaks, *viz*, S. V. Tirumalachar (who is also patel of the Gowrasagara village) is spoken of to be a very influential man who leads the people of Sadarhalli. Out of six Dharmadarsis five are the residents of Sadarhalli and the other one is a resident of Kandikere. The former five side with their own villagemen and the latter with his. The Amildars, Messrs. M. P. Viswanatha Rao and V. Gopala Rao and the Assistant Commissioner Mr. Narayan Rao are of opinion that the claim of the Kandikere people being valid may be enforced.

Correspondence ending with letter No. 317, dated 23rd December 1907, from the Deputy Commissioner, Tumkur District, reporting on the subject.

No. 3922, DATED BANGALORE, 13TH MARCH 1908.

ORDER THEREON.—The temple of Sri Ranganathaswami at Sadarhalli, Chiknayakanhalli Taluk, is a Muzrai Institution endowed with Inam lands.

2. The residents of Kandikere in the same taluk request that the Utsava Vigraha of Sri Ranganathaswami may be brought to their village as usual during the Dasara of every year, while the residents of Sadarhalli object to it.

3. From the communications from the Deputy Commissioner read above the Government observe that two Amildars, one Assistant Commissioner, and the Deputy Commissioner Mr. K. S. Dorasami Iyer are all of opinion that there was mamul to take the idol of Sri Ranganathaswami from Sadarhalli to Kandikere for celebrating Utsava during Dasara and that the Deputy Commissioner has directed that the *mamul* should be observed in future. The Government are pleased to accept the finding of the local authorities in respect of the existence of mamul. The next point to be decided is *when* the Vigraha should be removed to Kandikere for the mamul Utsava being carried out in that village. The Taluk Sheristadar's memo shows that the Kandikere people were willing to take the idol on the night of the

Muzrai, dated 13th March 1908.

Vijayadasami day, *after* all the celebrations at Sadarhalli were over, but that the Sadarhalli villagers created obstruction even for the removal of the idol during night to Kandikere. The Government observe that the Sadarhalli people should not be allowed to have it all their own way in spite of the *manul*, and they are accordingly pleased to direct that the idol should be permitted to be carried to Kandikere not later than 8 o'clock on the evening of the Vijayadasami day and that after the celebrations of Utsava at the Kandikere village the idol should be brought back to Sadarhalli by noon on the following day during the Dasara of every year.

Government Proceedings No. 233-42—Muz. 102-92, dated 14th December 1892, laying down rules for the succession of Gurus to Matts enjoying Government grants in land or money or honors.

"Letter No. 317, dated 13th January 1908, from the Deputy Commissioner, Chitaldrug District. "I have the honor to state that "the "Virakti Matt" at Harihar is a Muz- "rai Institution enjoying a cash grant of "Rs. 29-1-0 per annum and the margin- "ally noted three inam lands. Santa- "veeraswamigalu who was the head of the Matt and who managed its affairs died 18 years "back (ವಿರೋಧಿ ಸಂ॥ ಆಷ್ಟಮ ಶು॥ 5), he is said to have executed a will nominating one Channa- "basavamari as his successor. As this latter person was yet a minor at the time of the death "of the Swami, his father Nanjappa was managing the affairs of the Matt.

Village	S. No.	Description	Area A. g.	Assessment Rs. a. p.	Jodi Rs. a. p.
Harihar	... 60	Dry	11 39	25 0 0	2 8 0
	... 59	do	2 17	5 0 0	
Majjigehalli	... 12	do	10 31	4 8 0	0 8 0

2. "Subsequently, Channabasavamari having married in the latter part of 1905, gave "up his connection with the Matt; but Nanjappa continued to be the manager. Thus the Matt "had no Guru for a time and although the services were being conducted properly in the "Matt and the lands were still in the enjoyment of the manager, the cash allowance was with- "held from payment for want of a recognized successor. On a representation made by the "disciples of the Matt to give them the cash allowance. I directed after enquiry and in "accordance with their wishes that a panchayet nominated by them should manage the affairs "of the Matt till a successor was duly appointed and that the cash allowance may be paid to "them (the panchayetdars) so long as the services were duly performed.

3. "It is now reported that one Gurusantaswami has been nominated by the Swami "of the Muragi Matt with the approval of the disciples and the ratification of Government is "solicited for his succession. The new Swami was installed in August 1907 (ಪಂಚಮ ಸಂ॥ ಶ್ರಾವಣ "ಶು॥ ೯).

4. "The lands of the Matt referred to above are reported to stand in the khate of "Channabasavamari. The disciples now desire that the khate should be made in the name "of the Matt itself. On receipt of Government orders regarding the succession of the new "Swami, I shall direct the lands to be registered in the name of the Matt.

5. "The cash allowance due to the Matt which was withheld from payment as reported "above is still in arrears for the period from March 1906 to March 1907, (both inclusive) and a "bill for the amount due is herewith submitted. I request that the same may be transmitted "to the Comptroller for audit under Article 5 of the Civil Account Code, Volume I. The "cash allowance subsequent to March 1907 has already been paid to the punchayetdars "in accordance with this office order."

No. 4148-9, DATED BANGALORE, 24TH MARCH 1908.

ORDER THEREON.—Under the circumstances represented by the Deputy Commissioner, the Government are pleased to accord their approval to the nomination of Gurusantaswami as Guru of the Virakti Matt at Harihar, made by the Swami of the Muragi Matt with the approval of the disciples.

2. The bill for Rs. 31-7-5, being the arrears of allowance due to the Matt from March 1906 to the end of March 1907, is sanctioned and forwarded to the Comptroller for audit.

Proceedings of the Government of His Highness the Maharaja of Mysore,

READ—

Government Order (Public Works) No. 383-415—3378-410, dated the 24th June 1901, promulgating modified rules for the levying of rents on Government buildings used as residences, the maintenance and improvement of such buildings, etc.

No. 291-324—2149-82, DATED BANGALORE, 26TH MARCH 1908.

ORDER THEREON.—The existing rules under which rents are levied on Government buildings occupied as residences by Government officials according to the salary they draw, irrespective of the capital cost of the buildings, the ordinary repairs thereto being carried out by the tenants themselves, are not considered satisfactory; as not only does Government suffer pecuniary loss on the construction of such buildings out of public funds, but considerable trouble is experienced in getting the ordinary repairs satisfactorily carried out by the tenants. It is therefore considered desirable to adopt rules on similar lines to those of the Government of India, so as to secure a moderate interest on the capital outlay on these buildings, as well as an additional sum sufficient to cover the average annual charges for maintenance and repairs which should be carried out by the Public Works Department itself, the tenants being relieved of their obligation in this respect. The following modified rules are therefore promulgated (pending the issue of a local Public Works Code now under preparation) and they will have effect from the beginning of the next official year, 1st July 1908.

2. The rent for each building per mensem will be fixed by the Chief Engineer at half per cent on the present value of the building as shown in the registers (exclusive of charges on account of establishment and tools and plant), subject to the following conditions:—

(1) The rent charged for any building occupied by a Government officer shall not exceed 10 per cent on the salary (including personal allowances and local allowance) of the officer in actual occupation.

(2) When only a part of a building is occupied, the rent shall be proportionately reduced.

(3) When the capital cost of a building as shown in the registers is in the opinion of the Chief Engineer greatly in excess of its real value, so as to involve the assessment of a rental far above the value of the accommodation provided, application may be made to Government for sanction to write off a portion of the capital cost.

(4) Every fraction of a rupee less than half a rupee shall be taken as half a rupee in the results arrived at in calculating the percentages.

But Government reserve to themselves the right of fixing a special rent in such cases as they may consider necessary.

3. No rent will be charged—

(1) To officers in receipt of a salary under Rs. 15.

(2) To officers whose residence within, or in close proximity to the premises of the institution in which they are employed, is considered by Government to be necessary, and who have been specially provided with an official residence with this object free of rent.

(3) To an officer who is entitled to a free house as a part of his official emoluments in accordance with an order of Government.

Note.—A free-house does not include any of the furniture required for it but it means only a house free of rent. But when a Government building or a furnished house is given free to any officer under the special orders of Government, all that is usually done by any landlord will be done, such as providing mats, blinds, etc, and employing a gardener.

Public Works, dated 26th March 1908.

4. The rent to be paid per mensem by any private person for the occupancy of a Government building will be fixed at the same rate as for Government officials, except that there will be no maximum limit; there will however be a minimum limit for rent of Rs. 2.

5. The collection of rents will rest with the Public Works Department, to. which they will be credited. The recovery from Civil officers will be made in the manner laid down in Government Order No. G. 5063-102, dated the 9th April 1904.

6. The payment of all Municipal taxes will be made by the Public Works Department.

7. The custody of all unoccupied buildings will rest with the Revenue Department, which will be held responsible for all wanton damage which may happen to them while in its charge. Watchmen should be employed at Government cost only when a building is vacant. Proposals for the occupation of such buildings for public purposes, or as residences of officials or others, should be sanctioned by the Public Works Department.

8. The execution of repairs or other works required to the buildings in question will rest with the Public Works Department. The work to be done to them by the Department will generally be confined to the ordinary periodical repairs (including white and color washing, etc.) and to what is necessary (1) for the stability of the building, (2) for preventing deterioration or leakage through the roof, (3) for proper sanitation, and (4) in exceptional cases, for providing minimum accommodation (where it already does not exist) for a household of a nationality to which the officer belongs.

9. The tenants are not at liberty to carry out any work which will alter or interfere with the structural details of the buildings, nor cut trees in the compounds without the express approval of the Executive Engineer. They shall also be precluded from erecting any temporary building or shed in the compound without the permission of the Executive Engineer.

10. The tenants will be held responsible for the condition of the buildings while in their occupancy and they are, on vacating, bound to hand over the same in proper order, *i.e.*, without any damage having been done to them.

11. Before vacating the buildings the occupants must give timely intimation to the Public Works Officer, or subordinate at the place, of the date on which they intend to vacate, to allow of an inspection being made to ascertain if the buildings are handed over in proper order. If a building is not in that condition, what is required to render it so should be noted and communicated to the party concerned at once and steps taken to recover cost of the same from him.

12. If a building is provided for a Government official as his residence, whether newly built, bought, or adapted for the purpose, that official is bound to pay rent even if he does not occupy it. But if the building is rented by some other official, the rent recovered from him will be deducted from the amount of rent payable by the official for whom the house was intended.

13. These rules do not apply to travellers' bungalows for the occupation, etc., of which separate rules have been prescribed.

TABULAR STATEMENT OF MATTERS OF ROUTINE FOR MARCH 1908.

Serial No.	Proceedings			Subject and Order
	No.	Date	To whom sent	
1	R 5693 RM 207-07-2	4	Rev. Commissioner...	Recording his letter reporting that a fire broke out on 22nd January 1908 in Gopagondanahalli, Honnali Taluk, destroying certain sheds and valuables, etc., valued at Rs. 1,925 and that such of the sufferers as had lost their agricultural implements were granted wood free of cost.
2	R 5728-31 RM 208-07-2	5	Dy. Comr., Tumkur, I.-G., of Edn., I.-G. of Police & Ch. Engr.	Directing that the Empress Girls' School at Tumkur may, pending the construction of a separate building for it, continue to be held in the private building formerly occupied by it, as it is undesirable to locate the Girls' School and the District lock-up in the same Taluk Cutcherry building with only a wall between.
3	R 5747 RM 61-07-7	6	Patel Thagadegowda & other raiyats of Mavattur village, Kankanhalli Tk.	Informing them that there is no prospect of the Mavattur tank being constructed in the near future and that when the execution of the project is decided upon, they will be compensated for any damages that may be caused to their houses and lands.

	No.	Date	To whom sent	
4	R 5782 RM 27-07-5	9	Rev. Commissioner..	Recording his letter stating that the action taken by the Deputy Commissioner, Kolar, in order to repair the tanks in the Bagepalli Taluk which breached in July 1907, is satisfactory.
5	R 5784 RM 184-07-2	9	Bandi Nanjanna of Kunigal	Rejecting his appeal petition against the Revenue Commissioner's order confirming the cancellation of the first sale to him of Survey No. 36 of Ramabanahanta village, Kunigal Taluk, as the sale was rightly cancelled.
6	R 5787 RM 210-07-2	9	Devi of Biligunda village, Hassan Tk.	Rejecting her appeal petition regarding her claim to the registry in her name of the lands in the khate of her deceased husband, as the lands have rightly been registered in the name of her step son, who is the rightful heir.
7	R 5898 RM 162-07-4	13	Gundur Venkatesaiya of Koratagere & others	Informing them that the project for constructing a tank near the Tumbadi village in Koratagere Sub-Taluk cannot be undertaken except as a famine measure, as it has been reported to be altogether unremunerative.
8	R 5924 RM 212-07-2	14	Rev. Commissioner ..	Recording the Public Works Department Secretary's memo forwarding a copy of the order passed in the Public Works Department in the matter of the reconstruction of the Bangardoddi anikat with head works and improvement of the channels therefrom.
9	R 5926 RM 213-07-2	14	Comptroller	Sanctioning a potgi bill for Rs. 65-4-0 on behalf of Rudraiya, patel-gumasta of Avadi village, Sagar Taluk, for the year 1903-04.
10	R 5927-8 RM 266-06-6	14	Rev. Comr. & Sur. Supt.	Sanctioning the grant of lands in exchange for certain Devadaya and service inam lands taken up for extending the Rampur channel.
11	R 5935-6 RM 134-07-4	14	Rev. Comr. & Ch. Engr.	According sanction to the breaching of the Krishnambudhi tank in the Hiriyur town, as the lands now irrigated from the tank water are capable of being irrigated from the water of the left bank channel of the Marikanave Reservoir, and to its bed being given out for cultivation, after subdivision into Survey numbers of convenient size.
12	R 5956 RM 87-07-4	16	Birambeg of Bethamangala	Informing him that as his wet lands were converted into dry on account of the reservation of the Bethamangala tank water for the Kolar Gold Fields Water-supply project and compensation paid therefor, and that as his allegations against the Amildar are reported to be untrue, his petition has been rejected.
13	R 5958-9 RM 214-07-2	16	Rev. Comr. & Comptr.	Sanctioning the purchase of certain articles of furniture at a cost of Rs. 80 for the Hiriyur and Jaglur Taluk Offices.

14	R 5973-4 RM 125-07-2	18	Rev. Comr. & Chief Engr.	According sanction as a special case to the liability of the raiyats holding lands under the Hirisave tank, Channarayapatna Taluk, to do earthwork to the tank being limited to a sum of Rs. 698-8-0, which is half the cost of earth work rendered necessary by their cumulative neglect to maintain the tank in good condition.
15	R 5975 RM 417-05-9	18	Lakshmikantiengar & others of Macheri village, Kadur Tk.	Informing them that it is not possible to restore the breached Macheri anikat and that no remission of assessment can be given, as it has been fixed with reference to the difficulty of irrigating the lands under the tank in years of inadequate rainfall and that in other years if they do not get a sufficient supply it is due to their own fault in not keeping the Macheri anikat in a proper condition.
16	Pol 763 RM 66-07-5	20	First Asst. to the Hon'ble the Resdt.	Stating that the annual statistics relating to the industries in the State, required for incorporation in the General Statistics of British India, cannot be furnished before the end of August of each year.
17	R 6113 RM 175-07-2	21	Rev. Commissioner...	Directing that the services of the shekdar and the peon entertained in the jodi Benakankere village in the Tiptur Taluk, now under Government management, be dispensed with as proposed; and observing that the arrears due to Government having been recovered, there is no necessity for the village being kept any longer under Government management as Government have nothing to do with the transactions beween the tenants and jodidars.
18	R 6148-9 RM 70-07-6	23	Ch. Engr. & Rev. Comr.	Recording the Chief Engineer's letter stating that the restoration of the Holur tank in the Kolar Taluk, cannot be undertaken unless the jodidars who own nearly half the lands which can be irrigated from the tank pay their share of the cost of restoration, and requesting the Revenue Commissioner to take up the work, if possible, under the Minor Tanks Restoration Scheme, as suggested by the Chief Engineer.

6	Fl 4521 S R 125-07-2	9	Compiler, *Mysore Gaz.*	Notifying the appointment of the Amildar Mr. C. Krishnama Naidu as District Excise Officer. *vice* Mr. G. R. Srinivasiengar deceased.
7	Fl 4525 S R 182-07-3	9	Do ...	Notifying the grant of privilege leave of absence for one month with effect from 10th March 1908 or such other date as he may avail himself of it to Mr. M. Ranga Rao, District Excise Officer, Hassan, and appointing the Amildar Mr. C. R. Narainsami Mudaliar to act for him during his absence or until further orders.
8	Fl 4560-1 S R 168-07-2	11	Ex. Comr. & Comptr.	Authorizing the Excise Commissioner, under the circumstances explained, to incur expenditure not exceeding Rs. 20,000 over the budget grant in connection with the remuneration to be paid to Government arrack carrying contractors for the carriage of spirits from the Central Distillery to the several Bonded Depots in the State and calling for explanation on certain other points connected with this question.
9	Fl 4608 S R 161-07-2	13	Excise Comr. ...	Declining for reasons stated to grant permission asked for by the Excise Commissioner to file a suit in a competent Court of Law against Mr. N. S. Venkataramiah, B.A., B.L., an Advocate at Salem, for the arrears of toddy revenue of Rs. 606 due from him in respect of certain toddy shops of the Malur Taluk in the Kolar District, and observing that the local officers have not exercised their discretion properly in enforcing the rules in this case, that there was an entire absence of all discretion in accepting for the seven toddy shops the highest bid of a person who was a Brahmin by caste, a practising lawyer and a resident in foreign territory apparently with no property in Mysore, that there has been at various stages a neglect of rules prescribed for safeguarding State revenue, that the Amildar Mr. C. Machiah and the Assistant Commissioner Mr. B. Shamanna are apparently at serious fault in the matter and that Government desire to know what explanations they have to offer and what reasons they have to adduce why they should not be held personally liable for the loss which Government have sustained.
10	Fl 4610 S R 96-02-12	13	Do ...	Rejecting the petition of Nanjapa of Mantapa village, Anekal Taluk, complaining against the sale of his property for the loss arising from the resale of the Mantapa and Bannerghatta toddy shops which he purchased for a monthly rental of Rs. 308-2-0, but

P. being the rate accepted for the cane jaggory arrack, requesting the Excise Commissioner to inform the manufacturers that their request cannot be complied with, as under the terms of the agreement, they had to supply molasses or palmyra jaggory arrack mostly and cane jaggory arrack whenever required, but that they supplied the latter arrack, because they were unable to procure molasses.
14	Fl 4651-3 S R 129-07-4	18	Ex. Comr., Senior Surgeon, & Comptr.	Sanctioning the recommendation of the Senior Surgeon, that the maximum quantity of 60° O. P. spirit to be supplied to the St. Martha's Hospital, Bangalore, for *bonâ fide* use at cost price and duty free, may be fixed at 24 gallons per year.
15	Fl 4667-8 S R 186-07-2	19	Ex. Comr. & Supt., Govt. Press	Sanctioning the proposal of the Excise Commissioner tentatively in regard to ganja that the passes issued in triplicate in respect of consignments of arrack and other spirits may be so printed as to be used with carbon paper so that all the three copies (original, duplicate and triplicate) may be written up at the same time, on the ground that it not only minimises the work to a considerable extent but also serves as a check against fraud, and requesting the Excise Commissioner to submit a report at the end of six months as to how the system works.
16	Fl 4714 S R 65-06-3	21	Ex. Commissioner ...	Recording his letter No. 6942, dated 15th February 1908, submitting copy of letter No. 387, dated 14th February 1908, from the Deputy Commissioner, Mysore District, stating, with reference to the representation of the members of the Dasara Representative Assembly of 1906, *re* removal of the toddy shops of Mysore City, outside the town, that the shop at Kamatageri, against which there was a complaint, was removed near to the Jeevanrayankatte, that the other shops may be left undisturbed, as they are located in their respective places from a very long time and that in the interests of excise revenue, it is not advisable to shift them from their localities, and observing that Government regret to have to note the delay of one year in submitting the above report.

17	Fl 4736-7 S R 193-07-2	23	Comptr. & Ex. Comr.	Sanctioning a monthly expenditure of Rs. 2 on account of house rent to the Range Office at Tiptur, with effect from the 1st September 1906, with the observation that the delay of more than a year in submitting this case should have been avoided.
18	Fl 4748-9 S R 17?-07-2	23	Ex. Comr. & Comptr.	Sanctioning a bill for Rs. 45, being the arrears of pay due to C. Alasingrachar, retired Excise Assistant Inspector for the period of three months from 1st December 1902, when he had been granted privilege leave preparatory to retirement and when other arrangements had been irregularly made by the then District Excise Officer (Mr. G. Dunning now retired) to fill up the vacancy and stating that Government do not consider it expedient to cancel the irregular arrangements referred to above or to order a refund of pay drawn by the officials, as suggested by the Excise Commissioner.
19	Fl 4764-5 S R 143-06-5	23	Comptr. & Ex. Comr.	Calling for the early submission of gradation lists of Excise Sub-Inspectors now under preparation in the Excise Commissioner's Office, and with reference to the Excise Commissioner's request that the prohibition contained in Government Order No. Fl. 9004—S. R. 143-06-1, dated 6th June 1907, *viz.*, that pending orders of Government on the general question of improving the efficiency and position of the subordinates of Excise Department, all vacancies in the grades of Sub-Inspectors and above should not be permanently filled up, may be withdrawn, informing the Excise Commissioner that the said order was not by any means intended to cause any insecurity of tenure but rather to ensure efficiency by instituting a sort of probationery period before new nominees were confirmed and that there is nothing to prevent qualified men who have proved their efficiency being confirmed by officers in whose hands patronage is vested under the rules.

39	J 2846-47 Cts 71-07 -10	18	Comptr. & Regtr., Chief Court	Directs that the extra charge for the current year of the additional establishment to the Munsiffs' Courts at Hassan and Chikmagalur, sanctioned in Government Notification No. J. 2101-2—Cts. 71-07-8, dated the 11th January 1908, may be met by reappropriation from the anticipated savings in the pay of the Chief Judge, provided under the head 16 A(*a*), Law and Justice, Courts of Law, (1) Chief Court, Chief Judge.
40	J 2848-52 Cts 183-07 -3	18	Regr., Chief Court, Dy. Comrs., Bangalore, Shimoga, Kolar & Chitaldrug	Observes that, as regards item (*a*) of subject No. 23 of the Representative Assembly Proceedings of 1907, praying that the duty of preparing processes should devolve on the clerks of the Court and not on the parties, the present rule as contained in the Rules of Practice No. 135, dated the 16th November 1906, issued by the Chief Court, cannot be complained of, as it is optional with the parties to fill in the forms for processes; that, as regards the prayer for the issue of a Rule of Practice requiring the Courts to send processes for service on Government servants through their respective Heads of Departments (item (*b*) of the same subject), there is likely to be no inconvenience of any sort if the instructions contained in Circular Letter No. 62, dated the 24th July 1884, issued by the Chief Court, are attended to, and that, as regards item (*c*) of the same subject, requesting that, as in British India, non-coercive processes may be allowed to be executed by the parties themselves, it is, for reasons mentioned, inexpedient to change the existing system.
41	J 2863 Courts	20	Dy. Comr., Kolar ...	Forwards for information a copy of docket No. 237—1754, dated the 11th March 1908, from the Secretary to Government, Public Works Department, to the Superintending Engineer, Eastern Circle, regarding the construction of a bungalow for the Assistant Commissioner Magistrate, Kolar Gold Fields.
42	J 2883-84 Cts 25-07-4	21	Regr., Chief Court, & Comptr.	States that Government Order No. J.1789-90 Cts. 25-07-2, dated the 13th December 1907, already passed regarding the acting arrangements made to fill up the vacancy in the Bangalore District Court caused by the transfer of M. C. Subba Rao, is, in the opinion of Government, correct, and that, as no new facts have
